

|   |       |
|---|-------|
| <b>Table of Contents</b> .....  | 1-2   |
| <b>Foreword</b> .....   | 3     |
| <br><b>A: Nanometer position control and measuring techniques</b>   |       |
| KALINOWSKI, R., BACZEWSKI, L.T., RAULUSKIEWICZ, J.  |       |
| "Roughness of $\text{YBa}_2\text{Cu}_3\text{O}_{7-x}$ films sputtered on $\text{SrTiO}_3$ " .....                   | 4-7   |
| TITL, M., RICHTEROVÁ, M., VODÁK, M.   |       |
| "Optical spectral and correlative analysis of complex signals with nanometric resolution of their parameters" ..... | 8-11  |
| <br><b>B: Scanning probe microscopy (STM, AFM, SNOM, STOM,...)</b>  |       |
| SUSLA, B., CZAJKA, R., SZUBA, S.  |       |
| "STM investigations of the $\text{BiSrCaCuO}$ surface" .....  | 12-15 |
| KASUYA, A., CZAJKA, R., HORIGUCHI, N., WAWRO, A., NISHINA, Y.   |       |
| "STM Studies of carbon clusters on HOPG obtained by laser ablation of thin C film" .....                            | 16-19 |
| NEUŽIL, P., DAVIS, R.   |       |
| "AFM tips technology" .....   | 20-23 |
| SOBOTÍK, P., OŠŤÁDAL, I., PETRÁČEK, V.  |       |
| "STM study of small platinum islands on $\text{NiO}$ and HOPG surfaces" .....                                       | 24-28 |
| WALACHOVÁ, J., MILES, R.J., COLLINS, D.A., MCGILL, T.C.   |       |
| "Characterization of materials and nanostructures by ballistic electron microscopy (BEEM)" .....                    | 29-34 |
| SKALSKÝ, M., BERKOVÁ, D., RAULUSKIEWICZ, J., ALESZKIEWICZ, P.   |       |
| WALACHOVÁ, J.   |       |
| "InP grating for calibration of STM actuators" .....  | 35-38 |
| KARAMAZOV, S., ZELINKA, J., KOHOUT, J., VANIŠ, J., BERKOVÁ, D., WALACHOVÁ, J.                                       |       |
| "Stability of home made STM head" .....   | 39-42 |
| TOMÁNEK, P., GRMELA, L., DOBIS, P., BRŮSTLOVÁ, J., UHDEOVÁ, N.  |       |
| "Versatile STM + STOM + AFM" .....  | 43-44 |
| COURJON, D., BAINIER, C., BAIDA, F.   |       |
| "New optical near-field developments. Some perspective in interferometry" .....                                     | 45    |
| SPAJER, M., BERGOSSI, O., VENDEVILLE, J.  |       |
| "Near-field reflection microscopy: simultaneous topography and index measurement" .....                             | 46-49 |
| PAESLER, M.   |       |
| "The propagation of light in nanostructures: The Huygens-Fresnel Principle in the near-field" .....                 | 50-51 |
| LÁNYI, Š., ŘEHŮŘEK, P., TÖRÖK, J.   |       |
| "A versatile capacitance microscope" .....  | 52-55 |
| DESOGUS, S., LÁNYI, Š., NERINO, R., PICOTTO, G.B., SOSSO, A.  |       |
| "An STM piezo-scanner with tip displacement measurement capability" .....   | 56-59 |

## **C: Scanning electron microscopy (REM, TEM)**

MÜLLEROVÁ,I., FRANK,L.

"Low voltage SEM applications in semiconductor devices" ..... 60-63

FRANK,L.

"Possibilities of nanometer resolution in Auger electron microscopy" ..... 64-67

AUTRATA,R., JIRÁK,J., ŠPINKA,J.

"Nanometer resolution of backscattered electron image" ..... 68-72

AUTRATA,R., JIRÁK,J., ŠPINKA,J.

"Detectors of backscattered electrons for ESEM" ..... 73-75

## **D: Precision surface fabrication and characterization**

HUDEK,P., RANGELOW, I.W., KOSTIČ,I., STANGL,G., BORKOWITZ,Z.

LINNEMANN,R., HADJIISKI,L., GOTSZALK,T.

"Submicro- and nanometer structure fabrication using direct electron-beam writing and reactive ion etching" ..... 76-79

STARÝ,V., PROCHÁZKOVÁ, O., JUREK, K., KOHOUT, J.

"Note on the measurement of thin films composition and thickness by EMPA" ..... 80-83

HOMOLA,J.

"Thin film study by means of optically excited surface plasmons" ..... 84-87

## **E: Sub-wavelength optical structures**

KOUDELA,I., MILLER,M., SKALSKÝ,M.

"Control and monitoring of a modulation depth of interferometrically fabricated photoresist grating structures" ..... 88-91

HLUBINA,P.

"Low coherence based interferometric sensor of displacement utilizing two-mode fiber waveguide" ..... 92-95

## **F. Other**

HORÁK,M.

"DC model of a resonant tunnelling bipolar transistor" ..... 95-99

**Author Index** ..... 100-101
