

## Invited lecture courses

**Jonathan M. Borwein:**

Theory and Applications of Convex and Non-convex Feasibility Problems  
(available in electronic version) . . . . .

**Marián Fabian:**

Separable Reductions and Rich Families in Theory of Fréchet  
Subdifferentials . . . . . 1

**Alexander Ioffe:**

Metric Regularity. Theory and Applications . . . . . 41

**David Russell Luke:**

Numerical Variational Analysis . . . . . 119
