Mechanisms of basin subsidence — an introductory review	
M.H.P. Bott (Durham, England)	1
Rheology of the lithosphere — experimental indications	
S.A.F. Murrell (London, England)	5
Flexure of the lithosphere and continental margin basins	
A.B. Watts and W.B.F. Ryan (Palisades, New York, U.S.A.)	25
Platform subsidence mechanisms and "eustatic" sea-level changes	
N.H. Sleep (Evanston, Illinois, U.S.A.)	45
Thermal and mechanical evolution of the Michigan Basin	
W.F. Haxby, D.L. Turcotte and J.M. Bird (Ithaca, New York, U.S.A.)	57
Formation of sedimentary basins of graben type by extension of the continental crust	
M.H.P. Bott (Durham, England)	77
Major synchronous events in continental shelves	
P.E. Kent (London, England)	87
Development of graben associated with the initial ruptures of the Atlantic Ocean	
K. Burke (Albany, New York, U.S.A.)	93
Sedimentary basins of the Atlantic margin of North America	
R.E. Sheridan (Newark, Delaware, U.S.A.)	113
Geodynamic significance of spasmodic, Cretaceous, rapid subsidence rates, continental shelf, U.S.A.	
E.H.T. Whitten (Evanston, Illinois, U.S.A.)	133
Observations on the processes of sedimentary basin formation at the margins of Southern Africa	
R.A. Scrutton (Edinburg, Scotland) and R.V. Dingle (Rondebosch, South Africa)	143
The geosynclinal pair at the continental margin of Peru	
E.J. Cobbing (London, England)	157
Sedimentary facies and the origins of basin subsidence along the northern margin of the supposed Hercynian Ocean	
M.R. Leeder, (Leeds, United Kingdom)	167
Evolution of the Sverdrup Basin, Arctic Canada	
J.F. Sweeney (Ottawa, Ontario, Canada)	181
The Chad basin: an active intra-continental basin	
K. Burke (Albany, New York, U.S.A.)	197
Devonian basins of western Norway — sedimentary response to tectonism and to varying tectonic context	
R.J. Steel (Bergen, Norway)	207
Geophysical studies of the major sedimentary basins of the Indian craton, their deep structural features and evolution	
L.N. Kailasam (Calcutta, India)	225
Dynamics of the development of the Russian platform structures	
V.D. Nalivkin (Leningrad, U.S.S.R.)	247
The regional structure of the Turanian platform and its development	
K.N. Kravchenko, N.I. Koshelev, N.E. Kravchenko, T.N. Kunitskaya, I.N. Polkanova, L.P. Polkanova, V.F. Roshchin and N.S. Solovieva (Moscow, U.S.S.R.)	263
The history and the dynamics of the development of the West Siberian platform	
M.Ya. Rudkevich (Tyumen, U.S.S.R.)	275
Development of main structures of the Siberian platform: history and dynamics	
E.A. Bazanov, Yu.A. Pritula and V.V. Zabaluev (Leningrad, U.S.S.R.)	289
Sedimentary basins of the East Antarctic craton from geophysical evidence	
D.J. Drewry (Cambridge, United Kingdom)	301
