AN INTRODUCTION TO THE SERIES

by K.J. Hsü V

INTRODUCTION AND ACKNOWLEDGEMENTS

by R.C. Selley IX

LIST OF CONTRIBUTORS XIII

Part 1. North Africa

Chapter 1 THE SEDIMENTARY BASINS OF NORTHWEST AFRICA: STRATIGRAPHY AND SEDIMENTATION

by R.C. Selley 3

Introduction	3
Precambrian basement and infra-Cambrian sediments	4
Cambro-Ordovician	5
Silurian	8
Devonian	11
Carboniferous-Permian	12
Mesozoic	12
Selected Bibliography	16
References	16

Chapter 2 THE BASINS OF NORTHWEST AFRICA: STRUCTURAL EVOLUTION

by R.C. Selley 17

Introduction	17
Tindouf basin	17
Reggane basin	19
Ahnet, Mouydir and Illizi/Ghadames basins	20
Murzuk basin	21
The Kufra basin	24
Selected Bibliography	25
References	26

Chapter 3 THE SIRTE BASIN OF LIBYA

by R.C. Selley 27

Introduction	27
Stratigraphy and facies	27
Structure and tectonic evolution	31
Igneous activity	34
Selected Bibliography	35
References	36

Chapter 4 SEDIMENTARY BASINS OF EGYPT: AN OVERVIEW OF DYNAMIC STRATIGRAPHY

by A.S. El Hawat 39

Introduction	39
Sedimentary basins	39
The Afro-Nubian craton	39
Intracratonic basins	40
Pericratonic basins	43
The Gulf of Suez rift basin	45
The Palaeozoic	46

Cambrian	48
Ordovician-Silurian	49
Devonian	49
Carboniferous	50
The Permian	53
Geologic events and sedimentation	53
Eustatic vs. tectonic control of sedimentation	53
Palaeozoic glaciation	54
Mesozoic	54
Triassic	55
Jurassic	55
Cretaceous	57
Early Cretaceous	57
Late Cretaceous	60
Geological events and sedimentation	66
Early Cretaceous events: the end of the Nubian problem	67
Late Cretaceous events	68
Tertiary	69
Palaeogene	70
Palaeocene	70
Eocene	71
Oligocene	73
Neogene	73
Miocene	73
Pliocene	76
Geological events and sedimentation	79
Neogene facies and events in North Africa	79
Summary and common themes	81
Acknowledgements	82
References	82

Part 2. Central Africa

Chapter 5 THE IULLEMMEDEN BASIN

by R.T.J. Moody 89

Introduction	89
Structural setting	89
Stratigraphy and sedimentology	91
Precambrian	91
Palaeozoic	92
Permo-Triassic	92
Jurassic Cretaceous	92
Lower Cretaceous	93
Upper Cretaceous	95
Tertiary	98
Quaternary	101
References	101

Chapter 6 RIFT BASINS OF THE SUDAN

by R.B. Salama 105

Introduction	105
Geological sequence	106
Precambrian-Cambrian	106
Palaeozoic	106

Mesozoic	109	Cenozoic Niger delta	163
Rift structures and rifting phases	111	The modern delta	163
The Sudanese rift system	114	Lithostratigraphy	166
Bahr El Arab rift	114	Evolution of depobelts and sequences	166
White Nile rift	115	Structure	169
Blue Nile rift	116	Petroleum geology	170
River Atbara rift	116	Conclusion	171
Wadi El Kuu rift	116	Acknowledgements	171
Sedimentary sequence of the Sag period	117	References	171
Deltas and river fans	118		
Bahr El Arab rift palaeoriver system	120	Chapter 8 THE WEST AFRICAN COASTAL BASINS	
Wadi El Kuu	121	by M.A. Ala and R.C. Selley	173
Wadi Ibra, Wadi Bulbul and Wadi Nyala	122	Introduction	173
Bahr El Arab palaeoriver system	122	The Rio del Rey and Douala basins	174
Bahr El Ghazal and Bahr El Jebel	122	The Gabon basin	174
Sobat River	122	Pre-salt sequence	176
Wadi El Ghalla	122	Salt sequence	177
White Nile rift palaeoriver systems	123	Post-salt sequence	177
Khor Abu Habil	123	The Congo basin	180
Khor Yabus and Khor Adar	124	Pre-salt sequence	180
Blue Nile rift palaeoriver system	124	Salt sequence	181
River Atbara rift palaeoriver system	124	Post-salt sequence	181
Sediment loads, estimated volumes and source		The Angola (or Cuanza) basin	182
scenarios	124	Pre-salt sequence	182
Natural resources of the rift basins	129	Salt sequence	182
Ground-water resources of the rift basins	129	Post-salt sequence	183
Types of aquifers and aquifer characteristics	130	The Orange River basin	184
Blue Nile rift basin	132	Syn-rift sequence	184
White Nile rift basin	133	Post-rift (drift) sequence	185
River Atbara rift basin	133	References	186
The evolution of the ground-water flow systems	134		
Ground-water resources	135	Chapter 9 THE EAST AFRICAN RIFT BASINS	
Petroleum resources of the Sudanese Rift System and		by L.E. Frostick	187
the role of ground water in its migration and		Introduction	187
accumulation	135	Geomorphology	187
Petroleum discovery and resources	135	Climate and vegetation	189
Hydrocarbon migration and accumulation		Pre-rift geology	189
through ground-water flow in the rift		Plate tectonic setting	191
basins	136	Structure	192
Buried saline lakes of the Sudanese Rift System	137	Mantle and lower lithosphere	192
Lake Sudd	137	Crustal structure	193
White Nile rift, the Nuba saline lakes	139	Volcanicity	194
Blue Nile lakes	140	The basin fills	196
Soba lake	140	Geometry of the fills	196
Relative age of the saline lakes and relation to		Sedimentary facies and depositional environments	196
East Africa lakes	140	Fluvial sediments	196
The evolution of the River Nile	141	Lake sediments	197
The Blue Nile in Ethiopia	141	Sequences and cyclicity in the fills	198
The White Nile in Equatoria	143	The faulted margin	199
Late Quaternary River Nile	144	Lake centre	200
The evolution of the River Nile and the buried		The flexured margin	200
saline rift lakes in Sudan	144	Examples of basin types	201
Acknowledgments	147	The Lake Tanganyika basin	201
References	147	The Lake Turkana basin	202
		Baringo-Naivasha-Magadi basins	203
Chapter 7 THE NIGER DELTA BASIN		Conclusions	206
by T.J.A. Reijers, S.W. Petters and		Controls on differences in structure and sedimentary	
C.S. Nwajide	151	fill	206
Introduction	151	Importance of the East African Rift basins	206
Tectonic setting	153	Acknowledgements	206
Antecedent deltas in the Benue trough	154	References	207
Deltaic sedimentation in the Anambra Basin	156		
The Campanian	159	Chapter 10 THE COASTAL BASINS OF SOMALIA,	
The Maastrichtian	159	KENYA AND TANZANIA	
The Paleocene	159	by E.I. Mbede and A. Dualeh	211
The Eocene	159	Introduction	211
Sequence stratigraphy of the Anambra Basin	159		

Review of the geology of the Somali Coastal Basin	212
Introduction	212
Somali Coastal Basin	214
Luugh-Mandera Basin	214
Somali Embayment	215
Geological review of the Kenya Coastal Basin	217
Introduction	217
Karoo	218
Post-Karoo	218
The geological review of Tanzania Coastal Basin	221
Introduction	221
Selous-Ruvu-Tanga Basin	221
The Lindi Rift Basin	225
Structural evolution	227
Economic geology	230
Hydrocarbon prospectivity	230
Other mineral deposits	231
References	232

Part 3. Southern Africa

Chapter 11 THE OWAMBO BASIN OF NORTHERN NAMIBIA

by R. McG. Miller 237

Introduction	237
Regional stratigraphy	238
The Damara Sequence	238
The Nosib Group	238
The Otavi Group	243
The Abenab Subgroup of the Otavi	
Mountainland	243
The Abenab Subgroup west of the Otavi	
Mountainland	243
The Tsumeb Subgroup	245
The Mulden Group	252
Structure of the late-Proterozoic rocks of the Owambo	
Basin	256
The Karoo Sequence	256
The Kalahari Sequence	260
Summary	265
Acknowledgements	267
References	267

Chapter 12 THE FORELAND KAROO BASIN, SOUTH AFRICA

by M.R. Johnson, C.J. van Vuuren,
J.N.J. Visser, D.I. Cole, H. de V. Wickens,
A.D.M. Christie and D.L. Roberts 269

Introduction	269
Stratigraphy and palaeoenvironments	270
Dwyka Group	270
Ecca Group	275
Basal formations in the south, west and	
northwest	275
Southern formations (above the Whitehill	
Formation)	278
Western and northwestern formations (above the	
Whitehill Formation)	283
Northeastern formations	288
Beaufort Group	295
Adelaide Subgroup	295
Tarkastad Subgroup	299
Molteno Formation	301
Elliot Formation	302
Clarens Formation	302

Drakensberg Group and associated intrusions	303
Basin history	305
Tectonic setting	305
Dwyka glaciers and ice sheets	308
Ecca seas and deltas	308
Beaufort alluvial plains	309
Post-Beaufort floodplains and deserts	309
Igneous events and Gondwana break-up	309
Economic resources	310
Coal	310
Oil and gas	310
Uranium and molybdenum	310
References	313

Chapter 13 LATE MESOZOIC SEDIMENTARY BASINS OFF THE SOUTH COAST OF SOUTH AFRICA

by I.K. McMillan, G.J. Brink,
D.S. Broad and J.J. Maier 319

Introduction	319
Regional setting	319
Previous work	322
General structure and history of the southern offshore	
basins	323
Bredasdorp basin	324
Introduction	324
Basin evolution	329
Rift tectonics and sedimentation (D to 1At1) . .	329
Transitional-early drift tectonics and	
sedimentation (1At1 to 13At1)	344
Late drift tectonics and sedimentation (13At1 to	
present day)	345
Pletmos basin and Infanta embayment	347
Introduction	347
Basin evolution	348
Rift tectonics and sedimentation (D to 1At1) . .	348
Transitional-early drift tectonics and	
sedimentation (1At1 to 13At1)	355
Late drift tectonics and sedimentation (13At1 to	
present day)	358
Gamtoos and Algoa basins	358
Introduction	358
Basin evolution	359
Rift tectonics and sedimentation (D to 1At1) . .	359
Transitional-early drift tectonics and	
sedimentation (1At1 to 13At1)	370
Drift tectonics and sedimentation (13At1 to	
present day)	373
Acknowledgements	374
References	374

Part 4. Summary

Chapter 14 PUZZLING QUESTIONS IN THE SIMPLE HISTORY OF A CONTINENT

by K.J. Hsü 379
