

## TABLE OF CONTENTS

1 INTRODUCTION.....	5
2 FUNCTIONALIZED SYNTHETIC POLYMERS.....	6
2.1 End-functionalized polymers for medical applications .....	6
2.1.1 <i>Telechelic polyacrylate-based macromonomers</i> .....	6
2.1.2 <i>Telechelic polyester-based macromonomers</i> .....	8
2.2 Degradable thermosets for industrial applications.....	11
2.2.1 <i>Biodegradable polyurethanes</i> .....	11
2.2.2 <i>Thermodegradable polyurethane foams</i> .....	15
3 MODIFIED NATURAL POLYMERS.....	17
3.1 Porous collagen scaffolds for tissue engineering.....	17
3.1.1 <i>Hydroxyapatite modified collagen scaffolds for bone regeneration</i> .....	18
3.1.2 <i>Polycaprolactone nanofiber modified collagen scaffolds</i> .....	22
3.1.3 <i>Chitosan microfiber modified collagen scaffolds for cartilage regeneration</i> .....	24
4 SUMMARY .....	25
5 REFERENCES.....	26
ABSTRACT.....	27
