

Contents

	<i>Curriculum vitae – author introduction</i>	4
1.	Introduction	6
2.	Sensitivity to environmental impacts	6
3.	Mechanisms of polyolefins degradation	7
4.	Polymer protection and performance of stabilizer systems	8
	4.1 Hindered phenolic antioxidants	9
	4.2 Organic phosphites as secondary stabilizers	11
5.	Degradation and processing stability of PP impact-copolymers	14
6.	UV-stability and accelerated ageing	16
	6.1 Correlation between accelerated ageing and outdoor exposure	16
	6.2 Property selection and polymer failure definition	19
	6.3 Prediction of polymer service life	21
7.	Processing Degradation Index (PDI) – a contribution to polymer testing methodology	23
8.	Summary	24
9.	Papers included in the habilitation thesis	25
	9.1 Author’s selected publications	25
	9.2 Author’s patents and utility patterns	26
10.	References	27
	Abstract	32
