Curriculum Vitae	4
1 Introduction	5
2 An outline of multivariate generalized linear model	6
3 Approximation of powers of some tests in one-way MANOVA type MGLM	8
3.1 One-way ANOVA type GLM with Poisson distribution . . . . .	9
3.1.1 Real data application . . . . .	10
3.2 One-way MANOVA type MGLM . . . . .	10
3.2.1 Real data application . . . . .	11
3.3 One-way ANOVA type model with negative binomial distribution . . . . .	11
3.3.1 Real data application . . . . .	13
4 Application of GLM in modeling air pollution	13
4.1 Identification of factors affecting air pollution . . . . .	13
4.2 Coping with strongly rank-deficient design matrix . . . . .	14
4.3 Comparison of predicting abilities of two models . . . . .	15
List of symbols	16
Conclusion	17
References	18
Abstract	24
