

JOURNAL of PALEONTOLOGY

VOL 89 | NO 2 | 2015

- 195 **Andrea Jiménez-Sánchez, Enmanuelle Vennin, and Enrique Villas**
Trepotomate bryozoans from the upper Katian (Upper Ordovician) of Morocco: gigantism in high latitude Gondwana platforms
- 222 **Mats E. Eriksson and Peter H. von Bitter**
Jaw-bearing polychaetes of the Silurian Eramosa Lagerstätte, Ontario, Canada
- 236 **Erin H. Leckey and Dena M. Smith**
Host fidelity over geologic time: restricted use of oaks by oak gallwasps
- 245 **William I. Ausich, Mark E. Peter, and Frank R. Ettensohn**
Echinoderms from the lower Silurian Brassfield Formation of east-central Kentucky
- 257 **Javier Luque, Stéphane Hourdez, and Olev Vinn**
A new fossil bristle worm (Annelida: Polychaeta: Aphroditiformia) from the late Cretaceous of tropical America
- 262 **Viirika Mastik and Oive Tinn**
New dasycladalean algal species from the Kalana Lagerstätte (Silurian, Estonia)
- 269 **Hao Huang, Xiaochi Jin, and Yukun Shi**
A *Verbeekina* assemblage (Permian fusulinid) from the Baoshan Block in western Yunnan, China
- 281 **Calla A. Carbone, Guy M. Narbonne, Francis A. Macdonald, and Thomas H. Boag**
New Ediacaran fossils from the uppermost Blueflower Formation, northwest Canada: disentangling biostratigraphy and paleoecology
- 292 **Ed Landing, Jonathan B. Antcliffe, Martin D. Brasier, and Adam B. English**
Distinguishing Earth's oldest known bryozoan (*Pywackia*, late Cambrian) from pennatulacean octocorals (Mesozoic–Recent)
- 318 **Deborah K. Anderson**
New specimens and neotype designation of *Thisbemys brevicrista* (Rodentia, Ischyromyidae) from the middle Eocene clarify the distinction between *T. corrugatus* and *T. plicatus*
- 331 **S. Mariel Ferrari, Susana E. Damborenea, Miguel O. Manceñido, and Miguel Griffin**
Early Jurassic Trochotomidae (Vetigastropoda, Pleurotomarioidea) from the Neuquén Basin, Argentina
- 346 **James Sprinkle and Colin D. Sumrall**
New edrioasterine and astrocystitid (Echinodermata: Edrioasteroidea) from the Ninemile Shale (Lower Ordovician), central Nevada
- 353 **Colin D. Sumrall and James Sprinkle**
Unusual ambulacral branching pattern in a new Ordovician giant edrioasteroid, *Bizarroglobus*
- 360 **Bruce J. MacFadden, Gary S. Morgan, Douglas S. Jones, and Aldo F. Rincon**
Gomphothere proboscidean (*Gomphotherium*) from the late Neogene of Panama
- 366 **Colin D. Sumrall and Samuel Zamora**
A columnal-bearing eocrinoid from the Cambrian Burgess Shale (British Columbia, Canada)
