

# Contents

<b>List of figures and tables .....</b>	<b>xi</b>
<b>Contributors .....</b>	<b>xiii</b>
<b>Acknowledgements.....</b>	<b>xxiii</b>
<b>Introduction: getting the measure of analytics and metrics .....</b>	<b>xxv</b>
Library analytics.....	xxv
The streetlight effect .....	xxvi
Learning analytics.....	xxvii
About this book.....	xxviii
Chapter summaries.....	xxviii
Analytics and metrics: a brief note on definitions.....	xxix
References.....	xxx
<b>1 Library data: big and small .....</b>	<b>1</b>
Chapter overview .....	1
Defining big and small data .....	2
Small and big data in libraries .....	3
CASE STUDY 1.1 The potential of data to inform personalized recommendations at the Open University Library .....	5
<i>Richard Nurse</i>	
CASE STUDY 1.2 Library 'big data': developing a shared analytics service for academic libraries .....	14
<i>Ben Showers</i>	
Chapter conclusion .....	20
Big and small data: further resources .....	21
References .....	21

<b>2 Data-driven collections management .....</b>	<b>23</b>
Chapter overview.....	23
The collections turn .....	24
Managing the local collection.....	24
Managing the 'national' collection.....	27
CASE STUDY 2.1 Building an analytics toolkit at the Harvard Library .....	28
<i>Kim Dulin and Carli Spina</i>	
CASE STUDY 2.2 Collection management analytics: the Copac Collection Management tools project.....	35
<i>Shirley Cousins and Diana Massam</i>	
Chapter conclusion .....	44
Data-driven collections management: further resources .....	44
References .....	45
<b>3 Using data to demonstrate library impact and value .....</b>	<b>47</b>
Chapter overview.....	47
Does library use have an impact on student success? .....	47
Taking analytics seriously.....	48
The ethics of impact.....	50
CASE STUDY 3.1 Library impact data: investigating library use and student attainment (University of Huddersfield) .....	51
<i>Graham Stone</i>	
CASE STUDY 3.2 Retention, student success and academic engagement at Minnesota (University of Minnesota).....	58
<i>Shane Nackerud, Jan Fransen, Kate Peterson and Kristen Mastel</i>	
CASE STUDY 3.3 The Library Cube: revealing the impact of library use on student performance (University of Wollongong).....	66
<i>Brian Cox and Margie Jantti</i>	
Chapter conclusion: from knowing to showing! .....	74
Library impact and value: further resources .....	75
Notes .....	75
References .....	76
<b>4 Going beyond the numbers: using qualitative research to transform the library user's experience.....</b>	<b>79</b>
Chapter overview.....	79
Qualitative research and the user experience .....	79
Qualitative research and emerging user needs .....	81
A mix of skills and methodologies.....	81
CASE STUDY 4.1 Utilizing qualitative research methods to measure library effectiveness: developing an engaging library experience.....	82
<i>Lynn Silipigni Connaway, Erin M. Hood and Carrie E. Vass</i>	
CASE STUDY 4.2 Ethnographic techniques and new visions for libraries.....	96
<i>Donna Lanclos</i>	

Chapter conclusion .....	108
Qualitative library research: further resources.....	108
Note .....	109
References.....	109
<b>5 Web and social media metrics for the cultural heritage sector.....113</b>	
Chapter overview .....	113
Web metrics and analytics in the cultural heritage sector .....	114
The social web .....	114
The future of web metrics .....	116
CASE STUDY 5.1 The web impact of cultural heritage institutions.....117 <i>David Stuart</i>	
CASE STUDY 5.2 Let's Get Real: a Journey Towards Understanding and Measuring Digital Engagement .....	136
<i>Sejal Malde, Jane Finniss, Anra Kennedy, Elena Villaespesa, Seb Chan and         Mia Ridge</i>	
Chapter conclusion.....	150
Web and social media metrics: further resources.....	150
References.....	151
<b>6 Understanding and managing the risks of analytics .....153</b>	
Chapter overview .....	153
Redrawing the boundaries of privacy.....	153
Whose data is it anyway? .....	154
The importance of data flows .....	155
CASE STUDY 6.1 The legal, risk and ethical aspects of analytics.....157 <i>Ian Chowcat, David Kay and Naomi Korn</i>	
Chapter conclusion.....	166
Understanding the risks of analytics: further resources.....	166
References.....	166
<b>7 Conclusion: towards a data-driven future?.....169</b>	
Reference.....	170
<b>Index .....</b>	<b>171</b>
