

CONTENTS

Preface

1 *The Nature and Scope of Environmental Psychology* 1

What Is Environmental Psychology?
The Roots and Edges of
Environmental Psychology
Theories and Approaches in Brief

Research Methods in Environmental
Psychology
Environmental Psychology Today

2 *Environmental Perception and Spatial Cognition* 22

Environmental Perception
Spatial Cognition

3 *Environmental Attitudes, Appraisals, and Assessments* 60

Environmental Attitudes:
Concern for Places
Environmental Appraisals:
Personal Impressions of Places

Environmental Assessments:
Collective Impressions of Places
Two Observer-Based Environmental
Assessments

4 *Personality and Environment* 113

Apologia, Background, and Current Situation
Traditional Personality Dimensions
Environmental Personality Dimensions

Some Uses of Personality in
Environmental Design

5 *Personal Space* 135

What Is Personal Space?
Measuring Personal Space
Influences on Personal Space

Personal Space and Human Behavior
Theories of Personal Space
Personal Space and Environmental Design

6 *Territoriality* 165

What Is Territoriality?
Measuring Territoriality
Influences on Territoriality

Territoriality and Human Behavior
Theories of Territoriality
Territoriality and Environmental Design

7	<i>Crowding</i> 188	
	Crowding, Density, and Population	Theories of Crowding
	Influences on Crowding	Crowding and Environmental Design
	High Density, Crowding, and Human Behavior	
8	<i>Privacy</i> 229	
	What is Privacy?	Privacy and Human Behavior
	Measuring Privacy	Theories of Privacy
	Influences on Privacy	Privacy and Environmental Design
9	<i>Residential Environmental Psychology</i> 254	
	What is Home?	Stress and Well-Being in the Residence
	Residential Preference, Choice, and Satisfaction	Residential Mobility
	Environment and Behavior in the Residence	Residential Environmental Design
10	<i>Urban Environmental Psychology</i> 286	
	Life in the City: Awful or Wonderful?	Anti-Social Behavior in the Urban Environment
	What is a Neighborhood? A City? An Urbanite?	Helpfulness in the City
	Neighborhood Satisfaction and Attachment	Everyday Behavior in the Urban Environment
	Urbanization and Stress	Retail Environmental Psychology
		Urban Environment Design
11	<i>Educational Environmental Psychology</i> 325	
	The Setting as a Whole	Indoor Climate
	Interior Architecture and Design	Space
	Noise	Environmental Competence
	Light and Color	Learning and Environmental Design
12	<i>Workplace Environmental Psychology</i> 370	
	Environmental Psychology on the Job	Air
	Getting to Work: Commuting (and Other Car Use)	Light, Color, and Windows
	Sound, Noise, and Music	Space: Density and Arrangements
	Indoor Climate	Travel: Getting Away to a New Environment
		Work and Environmental Design
13	<i>Natural Environmental Psychology</i> 422	
	Extra-Terrestrial and Atmospheric Forces	Nature, Environmental Hazards, and Environmental Design
	Nature as a Restorative Agent	
	Natural and Technological Hazards	

14

***Sustainability: Managing Limited Resources* 469**

Sustainability as a Commons Dilemma
 Climate Change and Sustainability
 What Influences Sustainability-Related Behavior?
 Theories of Social Dilemmas

Defection: Self-Interested Behavior
 Air Pollution: A Social Dilemma
 Water Conservation: A Social Dilemma
 Energy Conservation: A Social Dilemma
 Recycling: A Social Dilemma

15

***Designing More Fitting Environments* 523**

Social Design
 Social Research in the Design Process
 Stages in the Design Process

A Selection of Design Programs and Post-Occupancy Evaluations

***Epilog: Utopia versus Entopia* 559**

The Essential, Challenging Discipline

Appendix:***Publications, Graduate Schools, Websites, and Organizations* 565*****Name Index* 567*****Subject Index* 590*****Credits* 597**
