1 Introduction	1
1.1 Preliminary comments	1
1.2 History and development	2
1.3 What is cloud computing?	4
1.4 Cloud service types	5
1.5 Deployment models	7
1.6 Technological terminology	9
1.7 Comparisons with other types of IT services	10
1.8 Why now?	11
1.9 Overview of this book	12
1.10 Contracting for the cloud	13
2 Which law of the cloud?	15
2.1 Introduction	15
2.2 International disputes as to applicable (cloud) law	16
2.3 Which law applies to the cloud?	18
2.4 Law enforcement agencies' ability to obtain data	21
2.5 Key points	27
3 Information security	28
3.1 Introduction	28
3.2 What is a security breach?	29
3.3 Security breaches – some examples	29
3.4 Due diligence	33
3.5 Introduction to security standards	37
3.6 ISO/IEC 27000 series	38
3.7 SSAE 16 (previously SAS 70)	46
3.8 Contractual issues in information security	48
3.9 Key points	53
4 Data protection: basics	55
4.1 Introduction	55
4.2 The basic structure of data protection law	55
4.3 A new data protection regime	56
4.4 Personal data	57
4.5 Data controllers and processors	59
4.6 Jurisdictional issues	65

4.7	The eight data protection principles	69
4.8	Legitimization of processing	69
4.9	Notification to the Information Commissioner's Office	71
4.10	Enforcement	72
4.11	How does all this apply to the cloud?	76
4.12	Key points	76
5	Data protection: appointing a cloud provider	78
5.1	Introduction	78
5.2	European regulators and cloud services	79
5.3	Cloud provider as a data processor	79
5.4	Cloud provider as a data controller	81
5.5	Can personal data be put into the cloud?	81
5.6	Pre-contract due diligence	82
5.7	Ongoing monitoring requirements	84
5.8	Is there any obligation to tell data subjects?	85
5.9	Key points	85
6	Transfers of data to non-EU cloud providers	86
6.1	Introduction	86
6.2	Onward transfers by the cloud provider	87
6.3	Countries (or sectors) deemed automatically 'adequate'	88
6.4	The US Safe Harbor scheme	89
6.5	Standard clauses	97
6.6	Self-assessment	101
6.7	Binding corporate rules	105
6.8	Authorization	112
6.9	Other derogations	112
6.10	Key points	113
7	Data security breach notification in the cloud	114
7.1	Introduction	114
7.2	The US position	114
7.3	Data breach notification in the UK and Europe	115
7.4	ICO guidance on data security breach management	116
7.5	Specific UK sectors	117
7.6	Application to the cloud	119
7.7	Key points	120
8	Data protection: the proposed reforms and the cloud	122
8.1	Introduction	122
8.2	Consent	122
8.3	Territorial scope	122
8.4	Main establishment	123
8.5	The right to be forgotten and to erasure	123
8.6	The right to data portability	124
8.7	Data protection by design and by default	124

8.8	Representatives of controllers not established in the European Union	125
8.9	Data processors	125
8.10	Documentation	125
8.11	Notification of personal data breaches	126
8.12	Data protection impact assessment	126
8.13	Data protection officers	126
8.14	General principles for transfers to third countries	127
8.15	Sanctions; fines	128
9	Software licensing and the cloud	129
9.1	Introduction	129
9.2	Moving existing licensing structures to the cloud	129
9.3	Open source and the cloud	132
9.4	Software escrow in the cloud	136
9.5	Key points	139
10	Customer data: the provider's use of data, access to data and lock-in	140
10.1	Introduction	140
10.2	The provider's use of its customers' data	140
10.3	Access to data on exit	142
10.4	Key points	149
11	Service definition – the provider's ability to change the service	151
11.1	Introduction	151
11.2	A comparison with software licensing	151
11.3	From the provider's perspective	152
11.4	From the customer's perspective	153
11.5	How to deal with service change in a cloud contract	153
11.6	Key points	156
12	Service levels	157
12.1	Introduction	157
12.2	Typical service metrics	159
12.3	Availability	160
12.4	The consequences of missing service levels	162
12.5	Standard exceptions	164
12.6	Drafting issues around SLAs	167
12.7	Termination for failure to achieve service levels	170
12.8	Standardized SLAs?	171
12.9	Key points	171
13	Liability issues	173
13.1	Introduction	173
13.2	Exclusions of liability	174

13.3	Limitations of liability	175
13.4	Chains of liability	176
13.5	Statutory and judicial control on liability exclusions	176
13.6	Key points	181
14	Specific sectors	183
14.1	Introduction	183
14.2	Financial services	183
14.3	Cloud services in the public sector	189
14.4	Consumer cloud	192
14.5	Key points	201
15	Tax considerations	203
15.1	Introduction	203
15.2	Possible tax benefits of using the cloud	204
15.3	Determining the nature and source of the supply	204
15.4	VAT and sales taxes	206
15.5	Withholding tax	208
15.6	Permanent establishments	208
15.7	Transfer pricing	209
15.8	International tax developments	210
15.9	Key points	212
16	The future of cloud law	213
16.1	Introduction	213
16.2	Open cloud	213
16.3	Development of industry standards and codes of practice	214
16.4	Developments in data protection law	215
16.5	The European Commission cloud initiatives	216
	Glossary	219
	References	222
	Index	227
