

Contents

1. Introduction	9
2. Aims of the Monograph	10
3. Specification of the Area	11
4. Methods and Data	14
5. Physical – geographical character of the Novohradské hory Mts.	24
5.1 Geology	24
5.2 Tectonic conditions	27
5.3 The Novohradské hory Mountains: basic relief features	31
5.4 Climate	33
5.5 Hydrology	37
5.6 Pedogeography	42
5.7 Biogeography and nature conservation	44
6. The geomorphological inventory in the Novohradské hory Mts.	47
6.1 Geomorphological inventory of Mt. Vysoká (1,034 m a.s.l.)	48
6.2 Geomorphological inventory of Kraví hora Mt. (953 m a.s.l.)	57
6.3 Geomorphological inventory of Kuní hora Mt. (925 m a.s.l.)	64
6.4 Geomorphological inventory of Mt. Kamenec (1,072 m a.s.l.)	72
6.5 Geomorphological inventory of Mt. Myslivna (1,040 m a.s.l.)	78
7. Proposals for the protection of notable geomorphology sites	84
7.1 Geoheritage and geomorphosites	84
7.2 Significant geomorphological sites	87
8. Spatial distribution of rock landforms	93
8.1 Representation of categories of relief	93
8.2 Distribution of rock landforms	94
9. Conclusion	101
References	104
Sources of the Internet	111
