

# Content

Preface . . . . .	7
<b>1 Energy Supply, Energy Consumption and the Environment: the Czech Republic and Austria in an International Context . . . . .</b>	<b>9</b>
1.1 Introduction . . . . .	9
1.2 Development of energy consumption . . . . .	10
1.3 Comparison of energy indicators: energy intensity and service efficiency . . . . .	16
1.4 Comparison of environmental indicators . . . . .	18
1.5 Conclusions . . . . .	20
References . . . . .	23
<b>2 Trends in Renewable Electricity and Corresponding Support Costs in the EU-28 with a Special Focus on the Czech Republic and Austria . . . . .</b>	<b>25</b>
2.1 Introduction . . . . .	25
2.2 Development of the use of primary renewable energy sources in the European Union, the Czech Republic and Austria . . . . .	26
2.3 EU-28: Development of the use of renewable energy sources in electricity generation . . . . .	28
2.4 Austria: Development of the use of renewable energy sources in electricity generation . . . . .	31
2.5 Development of the use of renewable energy sources in electricity generation in the Czech Republic . . . . .	33
2.6 Costs of promoting RES-E: A comparison between the Czech Republic, Austria and Germany . . . . .	39
2.7 Conclusions . . . . .	42
References . . . . .	44
<b>3 Biomass Potential – Biofuels in the Czech Republic . . . . .</b>	<b>47</b>
3.1 Introduction . . . . .	47
3.2 Biomass as an energy source in the Czech Republic . . . . .	50
3.3 Estimate of biomass potential on agricultural land for the Czech Republic . . . . .	59
3.4 Conclusions . . . . .	60
References . . . . .	61
<b>4 Potentials of Biomass and Biofuels in Austria . . . . .</b>	<b>63</b>
4.1 Introduction . . . . .	63
4.2 Biomass-based AEC in Austria: current situation . . . . .	64
4.3 Assumptions for future production of biomass-based AEC in Austria . . . . .	68
4.4 Modelling scenarios . . . . .	71
4.5 Scenarios for biomass-based AEC in Austria up to 2050 . . . . .	73

4.6	Conclusions . . . . .	75
	References . . . . .	77
<b>5</b>	<b>Competitiveness of Intentionally Planted Biomass for Energy Purposes . . .</b>	<b>79</b>
5.1	Introduction . . . . .	79
5.2	Modelling of future biomass prices . . . . .	81
5.3	Results of modelling of future biomass prices . . . . .	89
5.4	Conclusions . . . . .	91
	References . . . . .	92
<b>6</b>	<b>Recent Changes and Future Challenges on European Electricity Markets . .</b>	<b>95</b>
6.1	Introduction . . . . .	95
6.2	Changes on electricity markets after the liberalisation . . . . .	96
6.3	Major impact parameters on electricity market prices . . . . .	100
6.4	Changes in market patterns . . . . .	105
6.5	Changes in physical exchange patterns . . . . .	108
6.6	Conclusions . . . . .	110
	References . . . . .	111
<b>7</b>	<b>Modelling and Forecasting Spot Electricity Prices and Their Volatility . . . .</b>	<b>113</b>
7.1	Introduction . . . . .	113
7.2	Data analysis . . . . .	115
7.3	Electricity spot price forecasting . . . . .	119
7.4	Electricity spot price volatility forecasting . . . . .	123
7.5	Evaluation of achieved accuracy . . . . .	126
7.6	Conclusion . . . . .	126
	References . . . . .	127
<b>8</b>	<b>Economic Evaluation of Energy Storage Using the Power Deviation Prices – the Load Diagram Pricing Method . . . . .</b>	<b>131</b>
8.1	Introduction . . . . .	131
8.2	Methodology . . . . .	132
8.3	Calculations and Results – Czech case study . . . . .	136
	References . . . . .	142
<b>9</b>	<b>Energy demand and greenhouse gas emissions of buildings in Austria . . . .</b>	<b>143</b>
9.1	Number and size of buildings and apartments in Austria . . . . .	144
9.2	Energy demand and energy carriers . . . . .	145
9.3	Greenhouse gas emissions in the Austrian building sector . . . . .	149
9.4	Reduction of greenhouse gas emissions due to energy efficiency and the use of renewable energy carriers . . . . .	151
9.5	Strategies for adaptation to climate change . . . . .	161
9.6	R&D demand, potential . . . . .	163
	References . . . . .	163

<b>10 Comparing Major Trends in Passenger Car Transport in Austria and the Czech Republic . . . . .</b>	<b>169</b>
10.1 Introduction . . . . .	169
10.2 Background . . . . .	171
10.3 Energy consumption in car passenger transport . . . . .	174
10.4 Major indicators in car transport . . . . .	174
10.5 Energy policies . . . . .	181
10.6 Conclusions . . . . .	183
References . . . . .	184
<b>Abstract . . . . .</b>	<b>187</b>
