

0	Introduction	3
1	Vibrating systems	6
1.1	The nodal-line conjecture	7
1.2	The isoperimetric inequalities	10
1.3	The damped wave equation	11
2	Quantum waveguides	13
2.1	The effect of bending	14
2.2	The effect of twisting	15
2.3	More general boundary conditions	16
2.4	Nature of the essential spectrum	18
2.5	Diffusive processes	19
3	Quantum traveller on manifolds	20
3.1	Positive curvature	21
3.2	Negative curvature	22
3.3	Large-time behaviour	24
