Introduction..... 1

About This Book	2
Foolish Assumptions	2
Icons Used in This Book.....	3
Beyond the Book.....	4
Where to Go from Here	4

Part I: Getting Started with Critical Thinking Skills..... 7

Chapter 1: Entering the Exciting World of Critical Thinking.....9

Opening the Doors to the Arguments Clinic	10
Defining Critical Thinking	10
Spotting how the brain likes to think.....	11
Evaluating what you read, hear and think.....	12
Developing Critical Thinking Skills: Reading between the Lines	13
Challenging people's rationality	13
Dipping into the Critical Thinking skills toolbox.....	14
Ordering your thinking: Reason, analyse and then argue	15
Discovering what kind of thinking you do.....	17
Understanding What Critical Thinking Isn't	20

Chapter 2: Peering into the Mind: How People Think21

Thinking Logically or Instinctively: Evolution and Consciousness	23
Buying beans and composing sonnets: Contrasting views of consciousness.....	24
Jumping to conclusions: The cost of fast thinking	25
Encountering human illogicality: The Linda Problem.....	27
Considering the power of group thinking.....	30
Watching How the Brain Thinks	33
'My nerves are playing up': The brain at work	33

'I don't wish to know that': Preferring stereotypes to statistics.....	35
Getting Inside Scientists' Heads.....	36
Engaging with scientific convention.....	37
Trusting conjecture and refutation.....	37
Thinking in fits and starts: Paradigm shifts.....	38
Answers to Chapter 2's Exercises.....	39
Pricing bats and balls.....	39
Looking for the robber.....	40
Astronomical wrangles.....	40

Chapter 3: Planting Ideas in Your Head: The Sociology of Thinking41

Asking Whether You're Thinking What You Think You're Thinking.....	42
Knowing how outside forces work on people.....	42
Influencing people's opinions.....	43
Thinking and Indoctrination: Propaganda.....	45
'Here's what you think, comrade':	
Russia and China.....	46
Mr Hitler appealing to the Man in the Street.....	47
Appreciating the Difficulties of Staying Impartial.....	50
Being neutral . . . up to a point: The BBC.....	51
Things are hotting up: The BBC and climate change.....	51
Struggling to find a consensus.....	52
Appealing to Feelings: The Psychology of Argument.....	53
Using emotions to powerful effect.....	54
Grabbing the attention of the gullible.....	55
Spotting prejudice dressed as science.....	56
Manipulating Minds and Persuading People.....	58
Understanding how persuasion in society works.....	59
Recognising the language of persuasion.....	60
Spotting the techniques being used on you!.....	61
Answers to Chapter 3's Exercise.....	62
Hitler on eugenics or breeding people.....	63

Chapter 4: Assessing Your Thinking Skills65

Discovering Your Personal Thinking Habits.....	66
Identifying the essence of Critical Thinking.....	66
Testing your own Critical Thinking skills!.....	68
Busting Myths about Thinking.....	75
Accepting that sloppy thinking can work.....	75

Trumping logic with belief.....	77
Confirming the truth of confirmation bias	79
Exploring Different Types of Intelligence: Emotions and Creativity.....	82
Thinking about what other people are thinking:	
Emotional intelligence.....	82
Finding out about fuzzy thinking and creativity.....	86
Answers to Chapter 4's Exercises.....	86
Feedback on the Critical Thinking skills test	87

Part II: Developing Your Critical Thinking Skills..... 91

Chapter 5: Critical Thinking Is Like . . . Solving Puzzles: Reasoning by Analogy93

Investigating Inventiveness and Imagination	94
Understanding the importance of analogies to creativity.....	96
Confused Comparisons and Muddled Metaphors	101
Seeing false analogies in action	102
Uncovering false analogies.....	103
Becoming a Thought Experimenter.....	105
Discovering thought experiments	106
Dropping Galileo's famous balls:	
Critical Thinking in action	108
Splitting brains in half with philosophy.....	110
Answers To Chapter 5's Exercise	111
Schrödinger's Cat	112

Chapter 6: Thinking in Circles: The Power of Recursion113

Thinking Like a Computer Programmer.....	114
Taking tips on clarity from programmers	115
Thinking methodically with algorithms.....	116
Distinguishing between semantics and syntax.....	119
Combining the Thinking Spheres.....	121
Sort, Select, Amplify, Generate: Using Design Skills to See New Solutions.....	122
Check all the angles.....	124
State the problem, gather relevant information and analyse the implications.....	125
Look close, look away, look back	126
Try to avoid facts.....	128

Ordering Yourself a Nice, Fresh Argument! (Exercise).....	128
Answers To Chapter 6's Exercises.....	130
The Maze Flow Chart.....	130
'Help me!'	131
The Monster's Argument	131

Chapter 7: Drawing on Graphical (and Other) Tools for Thinking133

Discovering Graphical Tools: Mind Mapping and Making Concept Charts.....	134
Minding out for mind maps	136
Counting on concept charts	137
Following links and going with the flow.....	138
Putting Graphical Tools To Use	140
Choosing the right chart arrangement	140
Developing simple concept charts	141
Using maps and charts in the real world.....	143
Appreciating the different styles of concept charts and mind maps.....	143
Adding movement to your diagrams by drawing flow charts.....	144
Considering Other Thinking Tools	146
Emptying your head with a dump list.....	146
Sifting for gold: Summarising	148
Conjuring up ideas with brainstorming.....	149
Ascending the heights: Meta-thinking.....	150
Trying out triangulation.....	151
Answers to Chapter 7's Exercises.....	156
The Plant Problem.....	157
Summarising the paragraph.....	157

Chapter 8: Constructing Knowledge: Information Hierarchies159

Building the Knowledge Pyramid with Data and Information Blocks	160
Viewing the connections of data and information.....	161
Joining the (data) dots to create information.....	162
Watching for errors and biases	164
Turning the Knowledge Hierarchy Upside Down	165
Thinking critically with Benjamin Bloom	165
Thinking creatively with Calvin Taylor.....	169
Maintaining Motivation: Knowledge, Skills and Mindsets	170

Feeling your way to academic success!.....	171
Perusing the paradoxical nature of praise	172
Developing the necessary mindset	172
Answers to Chapter 8's Exercises.....	173
Dewey's recipe for education.....	173
'It's been an exceptionally wet summer'.....	174
Research on the problems of demotivation.....	174

***Part III: Applying Critical Thinking in Practice* 175**

Chapter 9: Getting to the Heart of the (Reading) Matter177

Appreciating Critical Reading as a Practical Skill.....	178
Reading between the Lines.....	178
Checking the publisher's standing	179
Cross-examining the author	179
Considering why the text was written	180
Appraising how a text is written and presented.....	181
Taking into account when a text is written	182
Judging the evidence.....	183
Assessing your reasons for reading the text.....	184
Playing Detective: Examining the Evidence.....	184
Weighing up primary and secondary sources	185
Following chains of thought.....	187
Read me! Testing your critical reading skills	189
Spotting the hidden assumptions.....	190
Filtering out Irrelevant Material.....	191
Summarising with effective note-taking.....	192
Using your time wisely: Skim-reading	194
Answers to Chapter 10's Exercises.....	195
Read me! Testing your critical reading skills	195
Spotting hidden assumptions	196

Chapter 10: Cultivating Your Critical Writing Skills.199

Structuring Your Thoughts on the Page.....	200
Identifying the basics of structure	200
Presenting the evidence and setting out the argument	201
Checking out the key principles of well-structured writing.....	203
Re-working that first draft	205

Deconstructing the question.....	206
Producing effective conclusions.....	206
Choosing the Appropriate Style of Writing	207
Keeping your audience in mind	207
Considering the detail required.....	208
Getting Down to the Specifics of Critical Writing	210
Understanding that only gardens should be flowery.....	210
Spotting and using keywords.....	210
Presenting the evidence and setting out the argument.....	211
Signposting to keep readers on course	213
Using intermediate conclusions	213
Answers to Chapter 10's Exercise	216

Chapter 11: Speaking and Listening

Critically: Effective Learning217

Getting the Most from Formal Talks.....	218
Participating in Seminars and Small Groups	220
Honing your listening skills	221
Transferring skills to real-life problems	222
Noting a Few Notes	224
Engaging in debate: The Socratic approach.....	225
Listening to an expert: The Academic approach.....	226
Comparing the consequences for the note-taking process.....	227
Democratising the Learning Environment.....	228
Doodling to generate creativity	230
Answers to This Chapter	232
The great intro	232
Doodling on doodling.....	233

Part IV: Reason and Argument..... 235

Chapter 12: Unlocking the Logic

of Real Arguments237

Introducing Real-Life Arguments	238
Coming as you are: Informal logic	239
Persuading with premises	242
Using pictures in everyday arguments	243
Checking a real argument's structure.....	244
Delving Deeper into Real Arguments.....	250
Considering the formula 'if A then B'	250
Assuming a causal link.....	252

Discussing unnecessary and insufficient conditions.....	253
Investigating independent and joint reasons.....	255
Being aware of hidden assumptions	256

Chapter 13: Behaving Like a Rational Animal259

Setting out Laws for Thinking Logically.....	260
Asking Aristotle about reason.....	261
Posing problems for logic.....	263
Seeing How People Use Logic.....	265
Identifying convincing arguments.....	265
Falling over fallacies.....	267
Spotting a fallacy.....	270
Putting Steel in Your Arguments with Logic	270
Taking a clear line.....	271
Choosing your words carefully.....	271
Employing consistency and method.....	272
Answers to Chapter 13's Exercises.....	273
The 'Does welfare encourage slacking?' argument.....	273
The starfish argument.....	274

Chapter 14: Using Words to Persuade: The Art of Rhetoric275

Introducing Rhetoric: When an Argument Isn't an Argument.....	276
Choosing the overall approach.....	276
Making a great speech	277
Winning When You're Right	279
Favouring a simple but effective structure	280
Remembering the difference between denotation and connotation.....	281
Conducting your argument with jokes.....	282
Speaking in triples	283
Debating Successfully When You're Wrong	284
Making a virtue of not knowing.....	285
Employing convoluted jargon.....	285
Throwing in a koan.....	286
Conducting your arguments via questions	287
Getting personal: Ad hominem	288
Discerning a Message.....	290
Answers to Chapter 14's Exercise	291

Chapter 15: Presenting Evidence and Justifying Opinions.....293

Challenging Received Wisdom about the World	294
Investigating facts and opinions in everyday life	295
'Eat my (fatty) shorts!': What is a healthy diet?.....	299
Digging into Scientific Thinking	300
Changing facts in a changing world.....	300
Teaching facts or indoctrinating?.....	302
Tackling the assertibility question.....	303
Resisting the pressure to conform.....	304
Following the evidence, not the crowd.....	306
Rules of the scientific journal: Garbage-in, garbage-out.....	308
Proving it!.....	310
Counting on the Fact that People Don't Understand Numbers: Statistical Thinking	313
Answers to Chapter 15's Exercise	315

Part V: The Part of Tens..... 317

Chapter 16: Ten Logical Pitfalls and How to Avoid Them319

Claiming to Follow Logically: Non Sequiturs and Genetic Fallacies	320
Making Assumptions: Begging the Question	320
Restricting the Options to Two: 'Black and White' Thinking	321
Being Unclear: Equivocation and Ambiguity	321
Mistaking a Connection for a Cause: Correlation Confusion	322
Resorting to Double Standards: Special Pleading.....	323
Thinking Wishfully	323
Detecting the Whiff of Red Herrings	324
Attacking a Point that Doesn't Exist: Straw-Man Arguments	324
Redefining Words: Playing at Humpty Dumpty.....	325

Chapter 17: Ten Arguments that Changed the World.....327

Suggesting That Only a Small Elite Is Clever Enough To Be In Charge.....	328
Crossing the Line: An Argument for Breaking the Law.....	329

Staying on the Right Side of the Law:	
An Argument for Always Obeying the Law	330
Arguing that Human Misery is Due to a	
Greedy Elite Exploiting Everyone Else	331
Proving That, 'Logically', God Exists	332
Proving That, 'in Practice', God Doesn't Exist	333
Defending Human Rights.....	334
Making Everything Relative	334
Getting All Relative with Einstein.....	335
Posing Paradoxes to Prove Your Point	336

Index.....	339
