ABSTRAKT	5
LIST OF PAPERS	6
THEORETICAL BACKGROUND	7
1. Electrostatic spinning	7
1.1. Electrospinning Process	8
1.2. Parameters influencing electrospinning process	11
1.3. Application of nanofibre layers	12
2. Rheology of polymer solutions	13
2.1. Shear and elongation flow	13
2.2. Important factors influencing viscosity	14
2.3. Electrorheology	20
AIMS OF THE DOCTORAL STUDY	21
SUMMARY OF THE PAPERS	22
3. Effect of electric field	22
4. Effect of ageing	23
5. Magnetorheology of polymer solution	24
6. Measurement of elongational viscosity	24
THE THESIS CONTRIBUTION TO SCIENCE AND PRACTICE	26
