ABSTRACT	4
ABSTRACT IN CZECH	5
LIST OF PAPERS	6
1. THEORETICAL BACKGROUND	7
1.1. Binder role in particular PIM steps	7
1.1.1. Mixing	7
1.1.2. Injection moulding	8
1.1.3. Debinding	8
1.1.4. Sintering	8
1.2. Properties and application requirements for binders	9
1.3. Interactions between feedstock components and feedstock components with mould channel walls	9
1.3.1. Interactions between powder and binder system components	9
1.3.2. Interactions between feedstock components and mould channel walls	10
1.3.3. Interactions between binder system components	10
1.3.3.1. Substitution of binder system components	10
2. AIM AND METHODOLOGY OF THE WORK	11
3. DISCUSSION OF THE RESULTS	12
4. CONCLUSION	31
CONTRIBUTION TO THE SCIENCE	32
ACKNOWLEDGMENTS	33
LIST OF SYMBOLS	34
LIST OF FIGURES AND TABLES	35
REFERENCES	37
CURRICULUM VITAE	41
