

FOLIA PARASITOLOGICA

An International Journal for Parasitology

CONTENTS

Volume 54 Number 2 June 2007

Issue's Theme

Advances in Research on Bird Schistosomes and Cercarial Dermatitis

Review Article

Schistosomes causing cercarial dermatitis: a mini-review of current trends in systematics and of host specificity and pathogenicity

L. Kolářová 81–87

Research Article

Bird schistosomes of wildfowl in the Czech Republic and Poland

J. Rudolfová, D.T.J. Littlewood, J. Sitko, P. Horák 88–93

Research Notes

Peptidases of *Trichobilharzia regenti* (Schistosomatidae) and its molluscan host *Radix peregra* s. lat. (Lymnaeidae): construction and screening of cDNA library from intramolluscan stages of the parasite

K. Dolečková, M. Kašný, L. Mikeš, F. Mutapi, C. Stack, A.P. Mountford, P. Horák 94–98

The occurrence of the avian schistosome *Allobilharzia visceralis* Kolářová, Rudolfová, Hampl et Skírnisson, 2006 (Schistosomatidae) in the tundra swan, *Cygnus columbianus* (Anatidae), from North America

S.V. Brant 99–104

Terminal phase of bird schistosomiasis caused by *Trichobilharzia regenti* (Schistosomatidae) in ducks (*Anas platyrhynchos* f. *domestica*)

M. Chanová, P. Horák 105–107

Other Articles

Research Articles

Phylogeny of *Coccomyxa* (Myxosporae: Myxidiidae) spp. with the description of a new species from *Bathygobius cyclopterus* (Gobiidae) in the northern Red Sea

A. Diamant, A. Lipshitz, M. Ucko 109–116

Five new species of *Pseudorhabdosynochus* (Monogenea: Diplectanidae) from the gills of *Epinephelus costae* (Teleostei: Serranidae)

L. Neifar, L. Euzet 117–128

A revised description of *Gyrodactylus cichlidarum* Paperna, 1968 (Gyrodactylidae) from the Nile tilapia, *Oreochromis niloticus niloticus* (Cichlidae), and its synonymy with *G. niloticus* Cone, Arthur et Bondad-Reantaso, 1995

A. García-Vásquez, H. Hansen, A.P. Shinn 129–140

Parasite communities of eels *Anguilla anguilla* in freshwater and marine habitats in Iceland in comparison with other parasite communities of eels in Europe

Á. Kristmundsson, S. Helgason 141–153

Research Note

Structure of the cephalic end of *Ascarophis mexicana* (Nematoda: Cystidicolidae), as revealed by SEM

F. Moravec, D. González-Solís 155–156

Book Reviews 108, 154

Instructions to Authors 157–158
