

CONTENTS

CYTOLOGY

Introduction	
Cell Structure	
Epithelial Tissues	
Connective Tissues	
Blood and Haemopoiesis	

EMBRYOLOGY

Introduction	
Sexual Reproduction	
Growth and Differentiation	
The Female Gamete	
The Male Gamete	
Fertilization	
Heredity and Human Genetics	
Early Development of the Human Embryo	
Differentiation of the Embryonic Area	
Formation of the Embryo	
Nutrition of the Embryo	
Implantation and Placentation	
Skeletal Development	
Branchial Apparatus	
Development of Locomotor Structures	
Nervous System and Special Sense Organs	
Vascular System	
Digestive and Respiratory System	
Urogenital System	
Prenatal Growth	

OSTEOLOGY

Human Skeletal Morphology	
Skeletal Connective Tissues	
Structure of Cartilage	
Bone as a Tissue	
Histogenesis of Bone	
Vertebral Characteristics	
Sternum and Ribs	
The Skull	
xii Exterior of the Skull	

page	Interior of the Cranium	308
2	Individual Cranial Bones	315
4	Cranial Growth and Variation	344
37	Appendicular Skeleton	350
44	Skeleton of Upper Limb	353
54	Skeleton of Lower Limb	378

ARTHROLOGY

72	Fibrous and Cartilaginous Joints	420
74	Structure of Synovial Joints	425
78	Movements and Mechanisms of Joints	430
92	Temporomandibular Joint	440
95	Vertebral and Thoracic Articulations	443
99	Joints of the Upper Limb	453
101	Joints of the Lower Limb	473

MYOLOGY

120	Introduction	506
120	Skeletal Muscle	506
130	Cardiac Muscle	515
138	Non-striated Muscle	518
145	Form and Actions of Skeletal Muscle	522
153	Fasciae and Muscles of the Head	529
156	Anterolateral Nuchal Muscles and Fasciae	536
180	Fasciae and Muscles of the Trunk	542
197	Fasciae and Muscles of the Upper Limb	564
210	Fasciae and Muscles of the Lower Limb	593
222		

ANGIOLOGY

	Introduction and Vascular Structure	622
230	Vascular Patterns	630
245	Thoracic Cavity and Pericardium	633
245	The Heart	635
252	Aortic Arch	673
259	Carotid Arterial System	676
271	Subclavian Arterial System	692
286	Thoracic Aorta	708
293	Abdominal Aorta	710
298	Iliac Arterial System	719

Cranial Venous System	
Veins of the Upper Limb	
Thoracic Veins	
Veins of the Lower Limb	
Abdominal Veins	
Reticulo-endothelial and Lymphatic System	
The Spleen	
The Thymus	
Regional Lymph Nodes and Vessels	

NEUROLOGY

General Principles	
Neuroanatomical Techniques	
Neurocytology	
Nervous System—Divisions	
Spinal Medulla or Cord	
Myelencephalon—Medulla Oblongata	
Metencephalon—Pons	
Cerebellum	
Mesencephalon—Midbrain	
Reticular Formation	
Diencephalon	
Dorsal Thalamus	
Epithalamus	
Ventral thalamus	
Hypothalamus	
Metathalamus	
Cerebral Surfaces	
Limbic Lobe	
Cerebral Cortex—Structure	
Cerebral Cortex—Areas	
Basal Nuclei	
Meninges—Cranial and Spinal	
Peripheral Nervous System	
Individual Cranial Nerves	
Morphology of Cranial Nerves	
Spinal Nerves	
Dorsal Spinal Rami	

738	Cervical Ventral Spinal Rami	1091
752	Thoracic Ventral Spinal Rami	1103
753	Lumbar Ventral Spinal Rami	1106
757	Sacral and Coccygeal Ventral Spinal Rami	1110
759	Autonomic Nervous System	1121
765	Parasympathetic Nervous System	1122
773	Sympathetic Nervous System	1123
780	Major Autonomic Plexuses	1132
784	Gustatory Apparatus	1138
	Olfactory Apparatus	1141
	Visual Apparatus	1150
802	Auditory and Vestibular Apparatus	1189
810	Integument—Skin	1216

SPLANCHNOLOGY

863	Respiratory System	1228
864	Larynx	1229
897	Trachea and Bronchi	1241
906	Pleurae	1247
912	The Mediastinum	1251
935	Lungs	1252
943	Alimentary System	1267
953	The Teeth	1281
954	Tongue, Pharynx and Oesophagus	1302
962	The Abdomen	1319
963	Peritoneum	1321
965	Gastro-intestinal Tract	1333
974	Pancreas	1368
982	Liver	1374
990	Urogenital System	1385
1002	The Urinary Tract	1387
1009	Reproductive Organs—Male	1410
1032	Reproductive Organs—Female	1423
1045	Endocrine Glands	1437
