

CONTENT

INTRODUCTION	5
1 THEORETICAL BACKGROUND.....	7
2 DEFINITION OF AIMS OF DISSERTATION, HYPOTHESES AND PROCESSING METHODS.....	11
3 CLASSIFICATION OF REGIONS IN THE CZECH REPUBLIC ACCORDING TO THE REGIONAL COMPETITIVENESS	13
4 THE PROPOSAL OF MODEL OF REGIONAL COMPETITIVENESS.....	15
4.1 Definitions of indicators and the relations between them – the first step of model building.....	16
4.1.1 Production environment	16
4.1.2 Working environment.....	16
4.1.3 Attractiveness of location	18
4.2 The second phase of the build process of model – quantification of the model	19
4.3 The simulation of the model	19
4.3.1 The simulation of productivity environment	20
4.3.2 The simulation of partial indicators of employment in the region.....	21
4.3.3 The simulation of attractiveness of location	24
4.3.4 The simulation of development of regional competitiveness	25
ACHIEVEMENTS AND BENEFITS OF THE DOCTORAL THESIS	27
CONCLUSION.....	29
REFERENCES.....	31

LIST OF FIGURES

Figure 1: Results of cluster analysis.....	14
Figure 2: Dependence of net migration rate on unemployment and average monthly gross wage	14
Figure 3: Model of competitiveness of region	15
Figure 4: Simulation of sub-indicators of productivity environment.....	20
Figure 5: Simulation of Productivity index.....	20
Figure 6: Demographic development in the Pardubice Region	21
Figure 7: Development of immigration and emigration by age categories in Pardubice Region	22
Figure 8: Simulation of Rate of labour participation	23
Figure 9: Simulation of sub-indicators of attractiveness of location	24
Figure 10: Simulation of Index of attractiveness of location.....	24
Figure 11: Net disposable income and simulation of its development	25
Figure 12: Net disposable income when the rate of migration of people in age group 0 – 14 and 15 - 64 is zero	26

LIST OF TABLES

Table 1: Factors of competitiveness.....	10
Table 2: Indicators of economic competitiveness of regions.....	13
