

ORIGINAL ARTICLES

Effect of shRNA mediated Smad4 gene silencing on the fibrosis of C2C12 myoblasts

Shiqiu Chen, Jiwu Chen, Shiyi Chen, Hongyun Li, Jia Jiang 63–70

Pharmacokinetics of acetylcholinesterase reactivator K203 and consequent evaluation of low molecular weight antioxidants/markers of oxidative stress

Jana Žďárová Karasová, Daniela Hnídková, Miroslav Pohanka, Kamil Musílek, Robert Peter Chilcott, Kamil Kuča 71–78

The antioxidant N-acetylcysteine *in vitro* improves several functions of peritoneal leucocytes from old mice approaching their values to those of adult animals

Mónica De la Fuente, Angel Hernanz 79–90

Modulation of antioxidant enzymes activities and lipid peroxidation products in diet-induced hypercholesterolemic rats fed ortanique peel polymethoxylated flavones extract

Curtis Omar Green, Andrew O'Brien Wheatley, Donovan Anthony McGrowder, Lowell Lloyd Dilworth, Helen Nosakhare Asemota 91–101

The DNA chromatin condensation expressed by the image optical density of chromosomes and heterochromatin in proliferating single human leukemic granulocytic progenitors

Karel Smetana, Hana Klamová, Ilona Jirásková, Dana Mikulenková, Michal Zápotocký, Zbyněk Hrkál 103–108

A cherry nutraceutical modulates melatonin, serotonin, corticosterone, and total antioxidant capacity levels: effect on ageing and chronotype

Jonathan Delgado, María Pilar Terrón, María Garrido, José Antonio Pariente, Carmen Barriga, Ana Beatriz Rodríguez, Sergio Damián Paredes 109–117
