Figures and Tables vii
Preface xi

I **Activity Theory Basics** 1

Introduction to Part I 3

1 **Activity Theory and Human-Computer Interaction** 7
Bonnie A. Nardi

2 **Activity Theory as a Potential Framework for Human-Computer Interaction Research** 17
Kari Kuutti

3 **Computer-Mediated Activity: Functional Organs in Social and Developmental Contexts** 45
Victor Kaptelinin

4 **Studying Context: A Comparison of Activity Theory, Situated Action Models, and Distributed Cognition** 69
Bonnie A. Nardi

5 **Activity Theory: Implications for Human-Computer Interaction** 103
Victor Kaptelinin

II **Activity Theory in Practical Design** 117

Introduction to Part II 119

6 **Designing Educational Technology: Computer-Mediated Change** 123
R. K. E. Bellamy

7 **Applying Activity Theory to Video Analysis: How to Make Sense of Video Data in HCI** 147
Susanne Bødker

8 **Tamed by a Rose: Computers as Tools in Human Activity** 175
Ellen Christiansen

9 **Joint Attention and Co-Construction of Tasks: New Ways to Foster User-Designer Collaboration** 199
Arne Raeithel and Boris M. Velichkovsky

10 **Some Reflections on the Application of Activity Theory** 235
Bonnie A. Nardi

III **Activity Theory: Theoretical Development** 247

Introduction to Part III 249

11 **Activity Theory and the View from Somewhere: Team Perspectives on the Intellectual Work of Programming** 257
Dorothy Holland and James R. Reeves

12 **Developing Activity Theory: The Zone of Proximal Development and Beyond** 283
Vladimir P. Zinchenko

13 **Mundane Tool or Object of Affection? The Rise and Fall of the Postal Buddy** 325
Yrjö Engeström and Virginia Escalante

14 **Epilogue** 375
Bonnie A. Nardi

Contributors 381

Index 383

Figures and Tables

FIGURES

2.1 Mediated relationship at the individual level 28

2.2 Basic structure of an activity 28

2.3 Hierarchical levels of an activity 30

2.4 Examples of activities, actions, and operations 33

2.5 Potential ways of supporting activities by information technology 36

2.6 Activity theory areas corresponding to the defined levels of research objects 38

3.1 Expansion of the subject matter of HCI: three dimensions 48

3.2 Computer tool as an extension of the internal plane of actions 52

3.3 Computer-mediated group activity 59

5.1 The "information processing loop" of human-computer interaction 105

5.2 Two interfaces in human-computer interaction 111

6.1 Cole and Engeström's analysis 124

6.2 Application of Cole and Engeström's activity analysis 126

6.3 Typical screens from Dinosaur Canyon 133

6.4 Screen from Media Fusion 138

7.1 Engeström's model 151

7.2 The object is present only in the artifact 152

7.3 The object exists as a physical object 153

7.4 The only object is physically co-present outside the artifact 153
7.5 Characteristics of the system, tool, and media perspectives 154
7.6 A breakdown using a report generator 156
7.7 An overview of VIRK 162
7.8 Generating a report 164
7.9 The objects and focuses involved in report generation 166
7.10 Using the page numbering form to insert page number 167
7.11 Screen 167
9.1 A fragment of *Earth* by Guiseppe Arcimboldo 206
9.2 General design of the joint attention study (experiment 1) 207
9.3 General design of the joint attention study (experiment 2) 209
9.4 Two connective personal views of Arcimboldo's painting 211
9.5 Sample protocol of the Repertory Grid Technique 221
9.6 Common view of networkers 223
9.7 Common view of system administrators 224
9.8 Diagram of cooperative modeling 226
12.1 Convertibility of the internal and external forms in human subjects 293
12.2 One chronotope 294
12.3 One node of development 302
12.4 The vertical axis of development 305
12.5 The ontological and phenomenological aspects of development 317
12.6 Visualization of one possible development case 318
12.7 Space for the creative conceptual efforts of interested readers 320
13.1 Postal Buddy kiosk 326
13.2 Postal Buddy network 341
13.3 Postal Buddy network extended 343
13.4 The problem with the fax 354
13.5 Finger used as a remediating tool 357
13.6 Another customer used as a remediating tool 358

13.7 Activity system of Postal Buddy Corporation 366

13.8 The local post office identified as a missing link in the Postal Buddy network 369

TABLES

6.1 Analysis of Dinosaur Canyon 134

6.2 Analysis of Media Fusion 139

9.1 Matching methodology of process level 228

13.1 Key persons interviewed 329
