Preface

Evolution and structure of the Western Carpathians: an overview	1
<i>D. Plašienka, P. Grecula, M. Putiš, D. Hovorka & M. Kováč</i>	
Models of the Western Carpathian lithosphere	25
<i>V. Bezák, J. Šefara, M. Bielík & P. Kubeš</i>	
Zones of Alpidic subduction and crustal underthrusting in the Western Carpathians	35
<i>D. Plašienka, M. Putiš, M. Kováč, J. Šefara & I. Hrušický</i>	
The Western Carpathian intramontane basins	43
<i>M. Kováč, M. Bielík, J. Lexa, M. Pereszlényi, J. Šefara, I. Túnyi & D. Vass</i>	
Tertiary collision, metamorphism and basin forming processes in the Eastern Slovakia (central Western Carpathians)	65
<i>I. Baráth, M. Kováč, J. Soták & A. Lankreijer</i>	
Alpine metamorphism in the Western Carpathians (with special attention on pre-Carboniferous complexes)	79
<i>D. Hovorka & Š. Méres</i>	
Cretaceous very low-grade metamorphism of the Infratatic and Supratatic domains: an indicator of thin-skinned tectonics in the central Western Carpathians	89
<i>S. P. Korikovsky, M. Putiš, D. Plašienka, S. Jacko & V. Ďurovič</i>	
Cretaceous low-grade metamorphism of the Veporic and North-Gemeric Zones: a result of collisional tectonics in the central Western Carpathians	107
<i>S. P. Korikovsky, M. Putiš & D. Plašienka</i>	
Lithology and metamorphism of the Meliata unit high-pressure rocks	131
<i>S. W. Faryad</i>	
Petrologic and geochronologic constraints on the tectonometamorphic evolution of the Meliata unit blueschists, Western Carpathians (Slovakia)	145
<i>S. W. Faryad & F. Henjes-Kunst</i>	
Petrological model for blueschist facies metamorphism in the Pieniny Klippen Belt	155
<i>S. W. Faryad</i>	
Alpine reactivation of the southern Veporicum basement: metamorphism, $^{40}\text{Ar}/^{39}\text{Ar}$ dating, geodynamic model and correlation aspects with the Eastern Alps	163
<i>M. Kováčik, J. Král & H. Maluski</i>	
Layered metaigneous complex of the Veporic basement with features of the Variscan and Alpine thrust tectonics (the Western Carpathians)	175
<i>M. Putiš, I. Filová, S. P. Korikovsky, A. B. Kotov & J. Madarás</i>	
Mylonitization and chemical mass-transfer in granitoid rocks of the Vepor pluton near the Cretaceous Pohorelá thrust (Veporic unit, central Western Carpathians)	197
<i>M. Putiš, W. Unzog, E. Wallbrecher & H. Fritz</i>	

Polyphase tectonic evolution of the Gemicum (the Western Carpathians) outlined by review of structural and deformational data	215
<i>Z. Németh, L. Gazdačko, D. Návesňák & J. Kobulský</i>	
Rift-related volcanics in the Permian of the Western Carpathians	225
<i>J. Vozár</i>	
The evolution of granitoid magmatism during the Hercynian orogen in the Western Carpathians	235
<i>I. Petřík & M. Kohút</i>	
²⁰⁷Pb/²⁰⁶Pb and ⁴⁰Ar/³⁹Ar age data from plutonic rocks of the Strážovské vrchy Mts. basement, Western Carpathians	253
<i>J. Král, J. C. Hess, B. Kober & H. J. Lippolt</i>	
Main Hercynian lithotectonic units of the Western Carpathians	261
<i>V. Bezák, S. Jacko, M. Janák, P. Ledru, I. Petřík & A. Vozárová</i>	
Leptyno-amphibolite complex of the Western Carpathians: its definition, extent and genetical problems	269
<i>D. Hovorka, P. Ivan & Š. Méres</i>	
Rakovec and Zlatník Formations: two different relics of the pre-Alpine back-arc basin crust in the central Western Carpathians	281
<i>P. Ivan</i>	
Geochemistry of the Early Paleozoic felsic metavolcanics of the Gemic unit (Western Carpathians)	289
<i>D. Hovorka & Š. Méres</i>	
High-pressure relics in the metabasites of the Western Carpathians pre-Alpine basement	301
<i>M. Janák, D. Hovorka, V. Hurai, B. Lupták, Š. Méres, P. Pitoňák & J. Spišiak</i>	
Metamorphic petrology of the Early Paleozoic low-grade rocks in the Gemicum	309
<i>S. W. Faryad</i>	
Medium-grade metamorphics of the Gemic unit (central Western Carpathians)	315
<i>D. Hovorka & J. Spišiak</i>	
Disturbance of the Variscan metamorphic complex indicated by mineral reactions, P-T data and crystal size of garnets (Malé Karpaty Mts.)	333
<i>M. Dyda</i>	
Petrology of Branisko crystalline rock complex	343
<i>A. Vozárová & S. W. Faryad</i>	
Geology and metamorphism of the Zemplinicum basement unit (Western Carpathians)	351
<i>S. W. Faryad & A. Vozárová</i>	
Pre- and syn-granitoid deformations of the Western Carpathian metamorphic complexes	359
<i>S. Jacko, J. Hók & J. Madarás</i>
