

TABLE OF CONTENTS

1	MOTIVATION.....	5
1.1	Goals.....	6
2	STATE OF THE ART.....	7
2.1	Roller Pump.....	7
2.2	Variable Charging System.....	8
3	THEORETICAL BACKGROUND OF ROLLER PUMPS.....	9
3.1	Basic Equations.....	10
3.2	Roller Equations.....	11
4	ROLLER PUMP CONTROL.....	12
5	PORT PLATE OPTIMIZATION.....	14
6	VERIFICATION METHOD.....	16
6.1	Verifications of Simulations Results.....	17
7	MODELLING OF HYDROSTATIC DRIVETRAIN FOR POWER SAVING EVALUATION.....	17
7.1	Variable Roller Charge Pump in HST.....	18
7.2	Simulation Model of the Drivetrains.....	18
7.2.1	Hydro-Mechanical Drivetrain Model.....	19
7.2.2	Hydro-Mechanical Drivetrain Model.....	20
8	POWER SAVING POTENTIAL.....	21
8.1	Recommendations for Sizing of a Variable Charge Pump in HST.....	23
9	CONCLUSION.....	24
9.1	Contribution of Doctoral Thesis.....	25
	REFERENCES.....	26
	CURICULUM VITAE.....	29
	ABSTRACT.....	30
