Preface	9
J.A. Gallagher, J.N. Beresford, D. Aled, R.G. Russell: The Osteoblast - Its Origin, Function and Regulation	11
A. Zambonin Zallone, A. Teti: Osteoclasts: Recent Knowledge on Origin, Function and Regulation	25
V. Horn: The Functional Conception of the Bone Cell with Particular Regard to Osteoclasia	37
G.I. Lavrischeva, L.N. Mikhailova: Processes of Osteo- -Angiogenesis in Connective Tissue of Interfragment- al Layer of Bone Regenerate Zone during Distraction...	55
B. Zimmermann, G. Klein, H.-J. Barrach: Increase in Cartilage Formation In Vitro under Suramin Treat- ment	59
I. Alitalo, J. Peltonen, E. Karaharju: The Healing Process of the Epiphyseal Area after Experimental Distraction	67
T. Sam Lindholm, Tom C. Lindholm: The Role of Bone Marrow in Bone Morphogenetic Protein Induced Experimental Spinal Fusion	75
J.M. Rueger, H.R. Siebert, A. Pannike: Synthetic and Biologic Bone-Replacement Materials. Evaluation of Their Osteoinductive Property in an Experimental Animal Model	83
I. Kiviranta, M. Tammi, J. Jurvelin, H.J. Helminen: Proteoglycan Distribution of Canine Articular Cartilage in Relation to Splinting and Running. Preliminary Results of a Quantitative Histochemical Study	89

H.J. Helminen, J. Jurvelin, C.-M. Svartbäck, M. Tammi, A. Pelttari, I. Kiviranta, A.-M. Säämänen, K. Paukkonen: Morphological Characteristics of Articular Cartilage Surface after Air-Drying and Critical Point Drying	95
I. Alitalo, B. Kommonen, M. Kärkkäinen, S. Paatsama: Experimental Osteoarthritis in the Porcine Stifle Joint	99
J.N. Talbot, G. Coutris, L. Paüs, T. Kiffel, G. Milhaud: Crushing Index as Predictive Fracture Risk in Post-Menopausal Woman: Assessment by Dual Photon Densitometry	107
V. Justová, Z. Wildtová, V. Pacovský: A Simple Method for Simultaneous Determination of Metabolites of Vitamin D in Plasma Samples	115
I. Straka, J. Neumann: Micromorphometric Analysis of Cross-Section of Poultry Femurs after Pharmaco- stimulation	123
T. Neumark, J. Takács, L. Pogány: Electronmicroscopic X-Ray Microanalytical Study of Mineral Content in Bone Biopsies	131
J. Eschberger, D. Eschberger: The Osteogramm	139
K. Paukkonen, H.J. Helminen: Tissue Sampling and Processing for Light Microscopic Histomorphometric Research of Articular Cartilage	143
Z. Bozděch, D. Spohrová, I. Straka, D. Horký: Morpho- metrical Evaluation of Joint Cartilage	151
G.A. Niepel: Introduction to Enthesology	161
J. Villiaume, B. Avouac, Pham Van Thong: Articular Chondrocalcinosis and Synovial Osteochondromatosis...	167

A. Bjelle: Chondrocalcinosis Articularis Familiaris in Sweden	175
J. Franke, Jürgen: Ossifications and Calcifications of Muscle and Tendon Insertions in Human Industrial Fluorosis	201
G. Genacchi, M. Carrabba, E. Govoni, F. Trotta, B. Colombo, R. Laschi: Hydroxyapatite Deposition Disease: An Acquired Lysosomal Disease?	211
G. Ittner, R. Schedl, H. Spängler, P. Wurning: Periarticular Ossification after Hipendoprosthesis in Medial Fractures of the Femoral Neck	221
M. Jäger, S. Breitner: Therapy-Based Classification of Lateral Clavicle Fractures	224
M. A. Dambacher, J. Ittner, W. Born, P. Rügsegger: Natural Course and Therapy of Osteoporosis - New Aspects	237
H.-P. Kruse: Defective Bone Mineralization in the Adult: Pathophysiology and Treatment	257
J. Blahos: Calcitonin - An Overview and a Reappraisal of its Physiological Role	273
