

## TABLE OF CONTENTS

|  |     |
|--|-----|
| Frontispiece .....   | vi  |
| Introduction .....   | 1   |
| <b>Part I - The Structure and Dynamics of Science Information Flow</b>   |     |
| Social Structure in a Group of Scientists: A Test of the "Invisible College," <i>Diana Crane</i> .....                                   | 10  |
| Informal Communication among Scientists in Sleep Research, <i>Susan Crawford</i> .....   | 28  |
| Scientific Communication: Its Role in the Conduct of Research and Creation of Knowledge, <i>William Garvey and Belver Griffith</i> ..... | 38  |
| Coherent Social Groups in Scientific Change, <i>Belver Griffith and Nicholas Mullins</i> .....   | 52  |
| Scientific Communication: Five Themes from Social Science Research, <i>Herbert Menzel</i> .....  | 58  |
| <b>Part II - Information in Innovation: Required Flows of Knowledge</b>  |     |
| Communication Networks in R & D Laboratories, <i>Thomas Allen</i> ...  | 66  |
| Organizational Aspects of Information Flow in Technology, <i>Thomas Allen</i> .....  | 74  |
| Factors Influencing the Success of Applied Research, <i>Edward Glaser and Samuel Taylor</i> .....  | 96  |
| Patterns of Information Flow during the Innovation Process, <i>Roy Rothwell</i> .....  | 103 |
| Policy and Informal Communications in Applied Science and Technology, <i>Francis Wolek and Belver Griffith</i> .....                     | 113 |

### **Part III - The Structure of Literature and Documents**

|  |     |
|--|-----|
| Publication Ratings versus Peer Ratings of Universities, <i>Richard Anderson, Francis Narin and Paul McAllister</i> .....              | 125 |
| Theory of Bradford Law, <i>Bertram Brookes</i> .....   | 138 |
| An Empirical Examination of Bradford's Law and the Scattering of Scientific Literature, <i>Carl M. Drott and Belver Griffith</i> ..... | 168 |
| A General Theory of Bibliometric and other Cumulative Advantage Processes, <i>D. de Solla Price</i> .....                              | 177 |
| Cumulative Advantage Urn Games Explained: A Reply to Kantor, <i>D. de Solla Price</i> .....  | 192 |
| The Citation Cycle, <i>D. de Solla Price</i> .....   | 195 |
| A Co-citation Model of A Scientific Specialty: A Longitudinal Study of Collagen Research, <i>Henry Small</i> .....                     | 211 |

### **Part IV - Information Retrieval and Analysis**

|  |     |
|--|-----|
| A Decision Theoretic Foundation for Indexing, <i>Abraham Bookstein and Don Swanson</i> .....                       | 241 |
| Incorporation of the Age of a Document into the Retrieval Process, <i>Michael Heine</i> .....                      | 247 |
| The Use of Hierarchic Clustering in Information Retrieval, <i>Nicholas Jardine and C.J. van Rijsbergen</i> .....   | 260 |
| Automatic Test Analysis, <i>Gerard Salton</i> .....  | 284 |
| A Theory of Term Importance in Automatic Text Analysis, <i>Gerard Salton, C.S. Yang and C.T. Yu</i> .....          | 293 |
| A Statistical Interpretation of Term Specificity and its Application in Retrieval, <i>Karen Sparck Jones</i> ..... | 305 |
| Experiments in Relevance Weighting of Search Terms, <i>Karen Sparck Jones</i> .....                                | 316 |
| Information Retrieval as a Trial-and-Error Process, <i>Don Swanson</i> .....                                       | 328 |
| Effectiveness of Information Retrieval Methods, <i>John Swets</i> .....  | 349 |

**Part V - Tools and Ideas: The Interface of Information Science and Librarianship**

|   |     |
|---|-----|
| Availability Analysis, <i>Paul Kantor</i> .....   | 368 |
| Toward a Rational Theory of Decentralization: Some Implications<br>of a Mathematical Approach, <i>Manfred Kochen and<br/>Karl Deutsch</i> ..... | 368 |
| Catalog Use in a Large Research Library, <i>Ben-Ami Lipetz</i> .....  | 393 |
| Densities of Use, and Absence of Obsolescence in Physics Journals<br>at MIT, <i>Alexander Sandison</i> .....                                    | 404 |
| Appendix .....  | 415 |
