

## Table of contents

Introduction	5
Basic principles of disinfection	6
Physical methods of disinfection	9
Chemical methods of disinfection	10
Types of chemical substances with disinfective properties	12
Confirmation of the efficiency of products	16
Pathogens and pests: sensitivity of infectious agents	17
Viruses	17
Bacteria	17
Fungi and microsporidia	18
Further infectious agents	18
Preventive disinfection	18
Beehives, frames	20
Disinfection of honeycombs	23
Beeswax	24
Honey and sugar stores	25
Sources of water	25
Tools	25
Equipment for honey and wax processing	25
Vessels and glass jars	26
Water for syrup feed	26
Hands	27
Laundry	27
Disinfection of vehicles	27
Literature and internet references	28
