

CONTENS

List of authors	7
List of participants	9
List of participants (according to countries)	15
Foreword	17
Plum production in the Czech Republic J. Blažek	19
New Belarusian plum varieties for modern orchards Z. A. Kazlouskaya, V.A. Matveev	25
Some results from the studies of introduced plum cultivars V. Bozhkova, A. Zhivondov, S. Milusheva	29
Eight years of testing the 'Weingenheim Prune' seedling as a rootstock with 10 plum cultivars in a dense planting J. Blažek, I. Pištěková, R. Vávra	35
The hypersensitivity of European plum (<i>Prunus × domestica</i> L.) as effective resistance mechanism against different strains and isolates of Plum pox virus (PPV) M. Neumüller, M. Petruschke, W. Hartmann	45
Incomplete hypersensitivity of plum cv. 'Jojo' to Plum pox virus J. Polák, J. Kumar-Kundu, J. Pívalová	53
Mechanism of Plum pox virus resistance in transgenic <i>Prunus domestica</i> L. J. Kumar Kundu, M. Ravelonandro, R. Scorza	61
Preliminary findings on Plum pox virus resistance in <i>Prunus ssp.</i> rootstocks B. Krška, B. Janečková	71
Identification of economic factors on profitability in commercial plum orchards M. Weber, A. Gmeinder	79
Present economics of commercial plum orchards in the Czech Republic R. Vávra, J. Blažek, J. Mazánek, L. Bartoníček	87

Influence of tree training and spacing on plum production economics with three cultivars on two rootstocks J. Blažek, I. Pištěková	95
An assessment of two plum fruit (<i>Prunus domestica</i> L.) cultivars, 'Stanley' and 'President', stored in a low oxygen atmosphere J. Goliáš, D. Kolenčíková	103
The shelf life of five new plum cultivars (<i>Prunus domestica</i> L.) E. Vangdal, S. Flatland, R. Nordbø	115
Extension of two Japanese plum (<i>Prunus salicina</i> Lindl.) inter-incompatibility groups using PCR analysis and cross-pollination A. Pedryc1, J. Halász, G. Drén, Z. Szabó, J. Nyéki, A. Hegedús	121
Inventory of European <i>Prunus</i> database in Slovak Republic D. Benedikova	131
New Plum Cultivars Obtained in Pitesti, Romania M. Butac, I. Dutu , S. Ancu	137
Preliminary results of the evaluation of different rootstocks on tree growth and yield of plum cv. 'Hanita' Z. S. Grzyb, M. Sitarek	143
Evaluation of rootstocks Oteřani 8 and VVA-1 with plum cultivar 'Victoria' H. Kemp, J. M. T. Balkhoven-Baart	149
Utilization of fungicide Horizon 250 EW in protection against <i>Monilinia laxa</i> on plums under conditions of CR J. Kloutvorová, J. Kupková	155
Performance of own-rooted and grafted trees of two plum cultivars in the orchard J. Kosina	161
Sensory evaluation of dried plums B. Krška	165
Pomological characteristics of plum table cultivars in Belgrade area E. Mratinić, D. Milatović, D. Djurović	169

Performance of new Swedish plum cultivars under agroecological conditions of Serbia D. Ogašaniović, V. Trajkovski, V. Milinković, L. Niketić	173
New promising commercial cultivars of plums F. Paprštejn, J. Kaplan, J. Plášilová	179
Preliminary results on growth, yield and fruit quality 'Cacanska rana' plum trees grafted on three seedling rootstocks M. Sitarek, Z. S. Grzyb	187
Investigation of local indigenous and old plum and prune varieties in the area of Eastern Moravia V. Tetera, S. Boček	193
Pomological value of 10 plum cultivars in Central Poland E. Rozpara, Z. S. Grzyb	199
Preliminary evaluation of 'Jojo' plum in Polish climatic conditions E. Rozpara, Z. S. Grzyb, A. Gontarczyk	201
Hortivar, database on the performances of horticulture cultivars L. Herzigova	203
Behaviours of twenty five plum biotypes to some phytopatogenic agents S. Ancu	205
Behaviour of some plum rootstocks and promising selections in the nursery and orchard S. Ancu, I. Dutu, C. Mazilu	207
Integrated protection of plums against key pests - the present state and outlooks V. Falta, V. Kneifl, J. Kňourková, I. Silovská	209
Rating of registered varieties of plums in the Czech republic T. Jan	211
Evaluation of plums for fresh consumption in Latvia E. Kaufmane, L. Ikase, D. Seglina	213
