

Contents

<i>Preface</i>	1
A. Bülow-Jacobsen	
<i>Ten Years of Lessons from Imaging of the Archimedes Palimpsest</i>	5
R.L. Easton, Jr., W.A. Christens-Barry, K.T. Knox	
<i>Some Properties of Textual Heritage Materials of Importance in Spectral Imaging Projects</i>	35
W.A. Christens-Barry, K. Boydston, R.L. Easton, Jr.	
<i>Synchrotron Rapid-Scan X-ray Fluorescence Imaging of Ancient Documents</i>	51
U. Bergmann	
<i>Spectral Imaging and Non-invasive Characterization of Manuscripts</i>	65
F.G. France	
<i>Virtual Conservation: Experience with Micro-CT and Manuscripts</i>	81
W.B. Seales, J. Griffioen, D. Jacobs	
<i>Illumination Issues in Digitizing Ancient Carbonized Papyri</i>	89
A. Nurminen	
<i>Exploring the Limitations and Advantages of Multi-Spectral Imaging in Papyrology: Darkened, Carbonized, and Palimpsest Papyri</i>	107
R.T. Macfarlane, T. Wayment, S.M. Bay, G. Bearman	
<i>A Signal Processing Review of Selected Techniques for Enhancing Multispectral Document Images</i>	123
T.A. Griffiths, G.A. Ware, T.K. Moon, J.H. Gunther	
<i>How Much Data is Enough: Quantitative Spectral Imaging of Texts and Cultural Heritage Objects</i>	135
G. Bearman, W. Christens-Barry, K. Boydston	
<i>Methods and Tools for Watermark Digital Processing, Archiving and Dating</i>	143
V. Karnaukhov	
<i>Imaging Palimpsest Manuscripts Using High-flux Micro X-ray Fluorescence</i>	161
D. Deckers, L. Glaser	

<i>Image Capture and Processing for Enhancing the Legibility of Incised Texts</i>	173
S. Tarte, M. Brady, A. Bowman, M. Terras	
<i>Layout Analysis of Ancient Manuscripts Using Local Features</i>	189
A. Garz, M. Diem, R. Sablatnig	
<i>Strategic Considerations for Palimpsest Imaging Projects:</i>	207
<i>Lessons Learned from the St. Catherine's Monastery Palimpsest Survey</i>	
M.B. Phelps, M.B. Toth	
<i>Challenges and Experiences in the Mass Digitization of Manuscripts and Rare Books at the Bavarian State Library</i>	223
M. Brantl, I. Schäfer	
<i>Integrating Technologies and Work Processes for Effective Digital Imaging</i>	251
M.B. Toth
