Special Issue
Mudd Design Workshop IX
Design Thinking in Design Education
Guest Editor

Gordon G. Krauss—Harvey Mudd College, Claremont, CA, USA

	1327–1328	Remembering Clive L. Dym
Gordon G. Krauss	1329–1330	Guest Editorial
Aaron Altman and Gordon G. Krauss	1331–1335	The Key Ideas of MDW IX: A Summary
Nicholas D. Fila, Justin L. Hess, Şenay Purzer and Emily Dringenberg	1336–1348	Engineering Students' Utilization of Empathy during a Non-Immersive Conceptual Design Task
Colin M. Gray, Colleen M. Seifert, Seda Yilmaz, Shanna R. Daly and Richard Gonzalez	1349–1355	What is the Content of "Design Thinking"? Design Heuristics as Conceptual Repertoire
Micah Lande	1356–1363	Catalysts for Design Thinking and Engineering Thinking: Fostering Ambidextrous Mindsets for Innovation
Ibrahim Mohedas and Shanna R. Daly and Kathleen H. Sienko	1364–1371	Use of Skill Acquisition Theory to Understand Novice to Expert Development in Design Ethnography
Neeraj Sonalkar, Ade Mabogunje and Larry Leifer	1372–1384	Developing a Design Thinking Curriculum for Venture Creation in Resource-Constrained Environment
Dylan Moore, Jonathan Sauder and Yan Jin	1385–1395	Exploring Dual-Processes of Iteration in Conceptual Design
David I. Levine, Martha A. Lesniewski and Alice M. Agogino	1396–1406	Design Thinking in Development Engineering
Gordon G. Krauss, James McConnaughey, Emma Frederick and Debra Mashek	1407–1417	Effects of Time Pressure and Presence of a Fixating Design Example on Novice Designers' Effective Use of a Matrix Tool in a Design Selection Task
Jessica A. Artiles and Micah Lande	1418–1427	Broadening Non-Designers' Solutions for Big Issues: The Education DesignShop Design Thinking Workshop
Alice M. Agogino, Sara L. Beckman, Carmen Castaños, Julia Kramer, Caleste Roschuni and Maria Yang	1428–1437	Design Practitioners' Perspectives on Methods for Ideation and Prototyping
Shawn Jordan and Micah Lande	1438–1444	Additive Innovation in Design Thinking and Making
Gordon G. Krauss and Lawrence Neeley	1445–1457	Peer Review Feedback in an Introductory Design Course: Increasing Student Comments and Questions through the use of Written Feedback
Adam R. Carberry, Samantha R. Brunhaver, Kristine R. Csavina and Ann F. McKenna	1458–1471	Comparison of Written versus Verbal Peer Feedback for Design Projects
Ken Yasuhara, Ryan C. Campbell and Cynthia J. Atman	1472–1480	Where Do Engineering Students Learn to Consider Design Problem Context?
Monica E. Cardella, Heidi A. Diefes-Dux and Farshid Marbouti	1481–1491	Written Feedback on Design: A Comparison of Students and Educators
Golnaz Arastoopour, David Williamson Shaffer, Zachari Swiecki, A. R. Ruis and Naomi C. Chesler	1492–1501	Teaching and Assessing Engineering Design Thinking with Virtual Internships and Epistemic Network Analysis
Jenn Stroud Rossmann	1502–1507	Engineering Design as a Liberal Art: A First-Semester Introduction to Design Thinking
Matthew T. Siniawski, Sandra G. Luca, Jose A. Saez and Jeremy S. Pal	1508–1513	Design Thinking and Service-Learning for First-Year Engineering Students
Borjana Mikic and Alan Rudnitsky	1514–1521	An Emergent Approach to Design Thinking and Collaborative Team Composition in an Introduction to Engineering Course
Borjana Mikic, Susannah Howe, Fraser Stables, James Middlebrook, Angie Hauser, Chris Aiken, Reid Bertone Johnson and Eitan Mendelowitz	1522–1529	Design Thinking and the Liberal Arts: a Cross-Campus Initiative at Smith College
Ville Taajamaa, Mona Eskandari, Antti Airola, Tapio Pahikkala and Tapio Salakoski	1530–1539	O-CDIO: Emphasizing Design Thinking in CDIO Engineering Cycle
Ade Mabogunje, Neeraj Sonalkar and Larry Leifer	1540–1556	Design Thinking: A New Foundational Science for Engineering
	1557	Guide for Authors
