ACKNOWLEDGMENTS.....	xiii
ABOUT THE EDITORS.....	xv
LIST OF CONTRIBUTORS.....	xvii
FOREWORD.....	xix

Section 1 Overview of Eye Tracking and Visual Search

CHAPTER 1 Introduction to Eye Tracking.....	3
What Is Eye Tracking?.....	3
How Eye Tracking Works.....	3
What Eye Trackers Can and Cannot Tell Us.....	6
Location.....	6
Duration.....	7
Movement.....	8
Eye Tracking Past and Present.....	9
Medieval Torture Devices and Early Eye Trackers.....	9
Maturity of Eye Tracking into a User Experience	
Research Tool.....	11
Hardware Designed for Quick and Easy Data Capture.....	13
Participant Friendly.....	14
Analysis Software Designed for User Experience	
Researchers.....	14
Eye Tracking Can Empower Your Design Team.....	18
Gaining Insights from Eye Gaze.....	20
See Where People Looked, Not Where They Think	
They Looked.....	20
Determining the Effectiveness of a Visual Hierarchy.....	20
Conclusion.....	25
Acknowledgments.....	25
References.....	25

CHAPTER 2	Visual Search	27
	Introduction	27
	How Do We Visually Search for Information on Web Pages?	28
	What Does Visual Search Look Like?	30
	Are There Different Types of Visual Search?	34
	Visual Search Behavior of SERPs	35
	Can Images of Faces Impact Our Search Behavior More Than Other Types of Images?	37
	What is Banner Blindness, and Why is it Important?	38
	The Road Ahead for Designing Visual Search Experiences	42
	References	43

Section 2 Evaluating the User Experience

CHAPTER 3	Usability Testing	49
	Introduction	49
	Incorporating Eye Tracking in Usability Testing	51
	Eye-Tracking Data Provides a Comprehensive Picture of Users' Experience and Can Help Inform the Design	55
	Fixations and Saccades	56
	Areas of Interest (AOIs)	57
	Gaze Opacity and Heat Maps	61
	Gaze Plots	64
	Communicating Usability Results More Effectively with Clients	67
	Eye Tracking Can Convince Clients to Make Design Changes to Improve Usability	68
	Eye-Tracking Visuals Can Aid in the Effort for User-Centered Design	70
	Considerations and Drawbacks with Eye Tracking in Usability Studies	72
	Time	72
	Analysis Software	73
	Think Aloud, Age, and Eye Tracking	75
	Conclusion	77
	Acknowledgments	78
	References	78
CHAPTER 4	Physiological Response Measurements	81
	Introduction	81
	Dimensions of Physiological Response Measures	83
	Subjective versus Objective	83
	Real Time versus Delayed	85
	Natural Context versus Artificial Lab	87
	Invasive versus Non-Invasive	88
	Practicality of Incorporating Biometrics	89
	Physiological Response Measurement in UX	89
	Pupil Dilation	89
	Facial Emotion Recognition	93
	Skin Conductance	95
	Neuroimaging: EEG	98

Measuring Valence.....	105
Conclusion.....	105
Acknowledgments	106
References.....	106

Section 3 Eye Tracking for Specific Applications

CHAPTER 5 Forms and Surveys.....	111
Introduction.....	111
Forms and Surveys Have a Lot in Common.....	112
Some Examples of What We Can Learn from Eye Tracking	
Forms and Surveys.....	114
People Read Pages with Questions on Them	
Differently from Other Pages.....	114
People Look for Buttons Near the Response Boxes	118
People Fill in Forms More Quickly if the Labels Are	
Near the Fields	120
Users Get Confused about Whether They Are	
Supposed to Write Over Existing Text.....	122
Users May Miss Error Messages That Are Too Far	
from the Error	122
Double-Banked Lists of Response Options Appear	
Shorter	126
When Eye Tracking of Forms and Surveys Works	
(and When it Does Not)	127
Gaze and Attention Are Different	129
Slot-In Answers: Gaze and Attention Together Toward	
Questions.....	131
Gathered Answers: Gaze and Attention Split.....	131
Created Answers: Gaze Toward Questions, Attention	
Elsewhere	132
Third-Party Answers: Gaze and Attention Elsewhere.....	133
Conclusion.....	136
Acknowledgments	137
References.....	137

CHAPTER 6 Information Architecture and Web Navigation ...	139
Introduction.....	139
Methods to Evaluate IA.....	139
Eye Tracking to Evaluate Navigation in Context.....	141
Primary Navigation	142
Why Users Should Not Spend Much Time Looking	
at Navigation.....	143
Subnavigation.....	145
Breadcrumb Navigation	148
Contextual Navigation.....	149
Utility Navigation.....	151
Dynamic Menus	155
Visual Hierarchy and Grouping	157
Evaluating the Visual Hierarchy of Navigational Elements ...	158
Measuring Navigation Usability	159

Conclusion.....	162
References.....	162
CHAPTER 7 Web Content.....	163
Hunting and Gathering: Information Foraging and Information Scent.....	163
How Many Words Do Users See?.....	164
What Words Do Users Look At?.....	165
See If Your Content Is Causing Confusion.....	166
How Do Users Read Online?.....	166
Reading versus Scanning.....	167
Standard Scanning Patterns.....	168
Vertical Attention.....	169
Horizontal Attention.....	170
The Chicken and The Egg.....	170
Mobile Content.....	170
Writing for the Way We Read.....	171
The Lead.....	171
The Body.....	172
The Ending.....	172
Designing Effective Web Content.....	172
Visual Hierarchy.....	173
White Space.....	173
Front Loading.....	174
Headlines.....	175
Headings and Subheadings.....	175
Paragraph Text.....	175
Justifying Text.....	176
Lists.....	177
Numerals.....	178
Image Captions.....	178
Fonts and Typography.....	179
Colors, Contrast, and Emphasis.....	181
Conclusion.....	183
References.....	183
CHAPTER 8 E-commerce Websites.....	187
Introduction.....	187
Types of E-commerce Sites.....	189
Measuring Interactions.....	195
Commerce.....	196
User Experience.....	197
Conceptual Models for Designing, Analyzing, and Interpreting Eye Tracking.....	198
User Types and Models.....	203
Design of Eye-Tracking Studies for E-commerce.....	204
Considerations Prior to Data Collection.....	205
Approaches to Data Analysis of E-commerce Websites.....	207
Visualizing the Results of an E-commerce Study.....	209
So How Does This Help Me Sell Socks?.....	212
Conclusion.....	215
References.....	216

CHAPTER 9 Social Media	217
Introduction	217
Why User Experience Testing of Social Media Is Important for Brands	218
Model of Visual Attention	218
Facebook	221
Research Findings	224
Making Elements Work for Their Place on the Page	231
Content Hot Spots: Maximize Content Exposure Using Attractors, Directors, and Informers	232
Cover Crafting: Getting the Most Out of Cover Photos	237
Out with the Old In with the...Timeline?	237
Summary for Facebook	240
Google+	241
Summary for Google+	243
YouTube	243
Summary for YouTube	245
LinkedIn	245
Summary for LinkedIn	247
The Future for Social Media	248
Ten Things Every Community Manager Should Know	249
1. Make Elements Work for Their Place on the Page	249
2. Content Hot Spots-Maximize Content Exposure Using Attractors	249
3. Get the Most Out of Cover Photos	249
4. Give the Fans What They Want	250
5. Strategically Position Content	250
6. Use Constructs That Are Familiar to Users	250
7. Use Imagery to Highlight Key Information	250
8. Consider Page Structure	250
9. Personalize Elements	250
10. Use Ads "Right"	251
Conclusion	251
References	252
CHAPTER 10 Mobile	255
Introduction	255
What Can Eye Tracking Tell us About Mobile Design?	258
The Mobile User Experience	258
Mobile Device Size Impacts the UX	259
Mobile Device Eye Tracking in Action	263
Eye Tracking when Testing a Log-In Page on Mobile Apps	263
Eye Tracking the Core Features of a Mobile App	264
Eye Tracking Mobile User Experiences across Multiple Devices	269
Eye Tracking When Testing e-Readers	273
The Technology Behind Eye Tracking Mobile Device Usage	280
Setting Up a Mobile Eye-Tracking Study	284
Analyzing Mobile Eye-Tracking Data	286
Conclusion	287
References	288

CHAPTER 11	Gaming	291
	Introduction	291
	Two Roles of Eye Tracking in Video Games	292
	Relevant Game Design Elements for UX Eye Tracking and Challenges	295
	Menu	295
	Cutscenes	297
	Overlays	298
	Gameplay	300
	Common Eye-Tracking Research Questions and Analysis Techniques in Video Games	303
	Defining the Research Questions	303
	Conclusion	308
	References	309
Section 4	Eye Tracking with Unique Populations	
CHAPTER 12	Older Adults	313
	Introduction	313
	Website Navigation and Search Behavior of Older Adults	316
	Conducting UX Research with Older Adults	322
	1. Include Large Groups of Older and Younger Participants	323
	2. Collect Demographic Data	323
	3. Slow Down	324
	Conclusion	324
	References	325
CHAPTER 13	Low Literacy Users	331
	Introduction	331
	The Impact of Literacy on Web Use	332
	The Value of Eye Tracking When Designing for Low Literacy	333
	Conclusion	346
	References	346
Section 5	Conclusion	
CHAPTER 14	The Future of Eye Tracking and User Experience	351
	Integrating Eye Tracking into User-Centered Design	
	Methodology	351
	Continued Improvements to Eye-Tracking Technology	353
	The Future of the Eye-Tracking Technology	355
	Ubiquitous Eye Tracking	359
	Taking the Next Step	359
	References	360
	GLOSSARY	361
	INDEX	367
