

Contents

1. Introduction	5
2. Basic Objects of Differential Geometry	6
3. $\varphi(Ric)$ -Vector Fields in Riemannian Spaces	7
4. Special Mappings Between Riemannian Spaces	9
4.1. Formalisms Concerning Diffeomorphisms of Manifolds	9
4.2. Special Mappings of Equidistant Spaces	10
4.3. Affine and Geodesic Mappings	12
5. Conformally-Projective Harmonic Diffeomorphisms	14
5.1. Definition and Fundamental Equations	15
5.2. Conformally-Projective Mappings of Equidistant Spaces . . .	16
6. On F -planar Mappings	16
7. Bibliography	17
8. Author's Bibliography	19
9. Curriculum Vitae	20
10. Abstract	20
