

Contents

1.	Introduction	5
1.1.	State of art	5
1.2.	Objectives of the dissertation.....	5
2.	Radiation transfer in thermal plasma	6
2.1.	Energy balance of arc plasma	6
2.2.	Radiation transport.....	6
3.	Absorption properties of plasma	8
4.	Approximate method of spherical harmonic functions.....	9
4.1.	General P_N -approximation	9
4.2.	P_1 -approximation (Diffusion approximation).....	10
5.	Multigroup method.....	11
6.	Mean absorption coefficients	12
7.	Applications.....	13
7.1.	Air plasma.....	13
7.1.1.	Isothermal plasma cylinder.....	14
7.1.2.	Plasma with given temperature profile	16
7.2.	SF_6 plasma.....	17
7.2.1.	Isothermal plasma cylinder.....	18
7.2.2.	Plasma with given temperature profile	20
7.3.	Mixtures of SF_6 and PTFE plasmas.....	20
7.3.1.	Isothermal plasma cylinder.....	22
7.3.2.	Plasma with given temperature profile	23
	Conclusions.....	25
	References.....	27
	Important author's publications	28
	Curriculum vitae	29
	Abstract.....	30
