

CONTENTS

1.	PURPOSE OF THIS BOOK	9
2.	EU APPROACH TO AGRICULTURAL BIOTECHNOLOGIES	11
2.1	CONCISE HISTORY OF EU REGULATIONS	11
2.2	RATIONAL RULES FOR ASSESSING THE RISKS OF BIOTECHNOLOGIES	14
2.2.1	Principles of the risk assessment process	15
2.2.2	Steps in the risk assessment process	16
2.2.3	The precautionary principle	18
2.3	BENEFITS OF GENETICALLY MODIFIED CROPS	19
2.3.1	Insect resistant crops	19
2.3.2	Herbicide tolerant (HT) crops	19
2.4	ADVERSE CONSEQUENCES OF EU LEGISLATION	21
2.5	POLITICAL BACKGROUND OF CURRENT EU BIOTECH REGULATIONS	23
2.5.1	Bans on Bt maize cultivation	23
2.5.2	Dismissal of the Amflora potato placement on the market	25
2.5.3	The weak points of EU regulations	26
2.5.4	Conclusions concerning the EU regulation of GM crops	27
3.	THE CZECH EXPERIENCE	29
3.1	INVOLVEMENT OF SCIENTISTS IN BIOTECH ISSUES	29
3.1.1	Research	29
3.1.2	International activities	30
3.1.3	Legislation	31
3.2	AGRICULTURE	32
3.3	TEACHING AND PUBLIC INFORMATION	32
3.3.1	University courses and textbooks	32
3.3.2	Informative brochures, web portals, and TV films	33
3.3.3	Public seminars, meetings and media	33
4.	ANNOTATIONS OF SELECTED RESEARCH RESULTS	35
4.1	NEW METHODS AND NEW TRANSGENIC CROPS	35
4.2	RISK ASSESSMENT STUDIES	58
4.3	CONTRIBUTIONS TO REGULATORY ISSUES	75
5.	RESEARCH ON GM CROPS IN OTHER COUNTRIES	77

6.	REMARKS ON EU LEGISLATION DOCUMENTS CONCERNING GM CROPS	79
6.1	DIRECTIVE 2001/18/EC	80
6.1.1	Whereas	80
6.1.2	Comments on Directive Articles	82
6.1.3	Comments on the Annexes	84
6.2	EU REGULATION 1829/2003: FOOD AND FEED	86
6.2.1	Whereas	86
6.2.2	Regulation	87
7.	SUMMARY	88
8.	A CALL FROM CZECH SCIENTISTS	90
9.	LIST OF UNDERSIGNED SCIENTISTS	91
