

## CONTENT

Introduction .....	5
1 Theoretical backround of performance measurement and management.....	6
1.1 The performance of the company in relation to its competitiveness .....	6
1.2 Development in the area of performance measurement and management.....	6
1.3 Performance measurement and management .....	8
1.3.1 Factors influencing the quality of performance management system.....	8
1.3.2 Tools contributing to more effective performance management system .....	9
1.4 Gaps and innovative trends in performance measurement and management.....	10
2 Aims of dissertation, hypotheses and processing methods .....	13
2.1 Aims of dissertation.....	13
2.2 Determination of research questions .....	13
2.3 Determination of hypotheses.....	14
2.4 Methodology of doctoral thesis .....	14
3 Curent form of performance measurement and management systems in czech companies	15
3.1 Characteristics of the investigations .....	15
3.2 Conclusions from the investigations.....	15
4 Identification of internal and external factors affecting performance management system	18
4.1 Identification of internal and external factors.....	18
4.2 Determination of internal and external key factors affecting performance management system.....	20
5 Determination of development of measurement and performance management.....	21
5.1 On the basis of the number of contained components.....	21
5.2 Based on the number of key-driven internal factors.....	21
6 Tools Making the Performance Management System as a Whole More Effective .....	25
7 Proposal of systematic performance management process .....	27
7.1 Proposal of performance management system .....	28
7.2 Factors affecting the quality of the performance management system .....	29
7.3 Tools contributing to more effective performance management system .....	29
8 Verification possibility of introducing a systematic performance management process.	30
Conclusion.....	32
