PART I	Viral Hepatitis 23 Hepatitis A 23
ORIENTATION TO CLINICAL DENTAL HYGIENE PRACTICE 1	Transmission 23 Disease Process 23
1 The Professional Dental Hygienist  Laura Mueller-Joseph, RDH, EdD  Esther M. Wilkins, BS, RDH, DMD	Immunity 23 Prevention 23 Hepatitis B 23 Transmission 25 Individuals at Risk or With Risk Behaviors for Hepatitis B 25
Types of Services 3 Dental Hygiene Care 5 Dental Hygiene Process of Care 5 Assessment 6 Dental Hygiene Diagnosis 6 Dental Hygiene Care Planning 7 Implementation 7 Evaluation 7 Factors Influencing Clinical Practice 7 Legal 7 Ethical 7 Personal 8 Special Practice Areas 8 Objectives for Professional Practice 9 Factors to Teach the Patient 9	Disease Process 26 Prevention of Hepatitis B 26 Comprehensive Preventive Program 26 Active Immunization: The Vaccines 26 Postexposure Prophylaxis 27 Hepatitis C 27 Transmission 27 Disease Process 27 Prevention and Control 28 Hepatitis D 28 Transmission 28 Disease Process 28 Prevention 28 Hepatitis E 28 Transmission 28 Prevention 28
PART II	Viral Latency 28 Ganglia 28
PREPARATION FOR DENTAL HYGIENE APPOINTMENTS 11	Primary Infection: Sequence of Events 29 Varicella-Zoster Virus (VZV) 29 Chickenpox 29
2 Infection Control: Transmissible Diseases Esther M. Wilkins, BS, RDH, DMD Judith E. Romano, RDH, MA	Shingles 29 Epstein-Barr Virus (EBV) 30 Cytomegalovirus (HCMV) 30 Transmission 30 Disease Process 30
Microorganisms of the Oral Cavity 16 The Infectious Process 16 Essential Features for Disease Transmission 16 Factors That Influence the Development of Infection 16 Factors That Alter Normal Defenses 16 Airborne Infection 17 Dust-Borne Organisms 17 Aerosol Production 18 Prevention of Transmission 18	Prevention 30 Herpes Simplex Virus Infections 30 Primary Herpetic Gingivostomatitis 30 Herpes Labialis (Cold Sore, Fever Blister) 30 Herpetic Whitlow 31 Ocular Herpes 31 Clinical Management 31 Patient History 31 Postpone Appointment With Patient with Active Lesion 31
Pathogens Transmissible by the Oral Cavity 18 Tuberculosis 21 Transmission 21 Disease Process 22 Clinical Management 22	HIV-I Infection 31  Transmission 32  Routes of Transmission 32  Individuals at High Risk for Infection 32  Life Cycle of the HIV-I 33

Uses

Short Standard Handwash

Procedures for Use of Gloves

50

50

Criteria for Selection of Treatment/Examination Gloves

50

Surgical Scrub 50

Types of Gloves

Latex Hypersensitivity

Clinical Manifestations

Gloves and Gloving

64

Principles of Action

Chlorine Compounds

Glutaraldehydes

lodophors

64

Criteria for Selection of a Chemical Agent

Recommended Chemical Disinfectants

66

Combination Phenolics (Synthetic)

Chemical Sterilants (Immersion) 66 Preparation of the Treatment Room 66 Objectives 67 Preliminary Planning 67 Clean and Disinfect Environmental Surfaces 68 Unit Water Lines 68 Procedures for Clinical Use 68	Personal, Dental, and Medical Histories  Esther M.
