

Content

1. THEORETICAL BACKGROUND	7
1.1 General overview of smart fluids.....	7
1.2 Rheological behaviour of smart fluids.....	7
1.3 Physical background of the electrorheological effect.....	10
1.4 Composition of electrorheological fluids	14
1.4.1 Liquid medium.....	14
1.4.2 Dispersed phase	15
1.5 Factors influencing electrorheological effect	18
1.5.1 Electric field strength.....	18
1.5.2 Particles size and morphology	19
1.5.3 Temperature.....	20
1.5.4 Particle concentration	21
1.6 Requirements on electrorheological fluids	23
1.7 Shortcomings of electrorheological fluids.....	24
1.8 Application of smart fluids	24
2. MOTIVATION AND AIMS OF THE DOCTORAL STUDY	26
2.1 Motivation.....	26
2.2 Aims of the Doctoral Study	26
3. EXPERIMENTAL PART	27
4. THE THESIS CONTRIBUTION TO THE SCIENCE.....	38
