

Contents

1 Plate tectonics, earthquakes and volcanoes 8

| | |
|--|----|
| The history of the Earth | 8 |
| Places 1 <i>The Earth: a simplified history</i> | 9 |
| Earthquakes | 9 |
| Places 2 <i>South-west China: an earthquake</i> | 11 |
| Plate tectonics | 12 |
| Places 3 <i>Iceland: a constructive plate margin</i> | 16 |
| Places 4 <i>Indian Ocean: the 2004 tsunami</i> | 18 |
| Places 5 <i>The Himalayas: a collision plate margin</i> | 20 |
| Places 6 <i>The San Andreas Fault: a conservative plate margin</i> | 21 |
| Framework 1 <i>Using the Internet for studying geography</i> | 22 |
| Volcanology | 24 |
| Places 7 <i>Solfatara, Italy: an area of declining volcanic activity</i> | 26 |
| Framework 2 <i>Natural hazards</i> | 31 |
| Case Study 1 <i>Volcanic eruptions – Mount Pinatubo</i> | 33 |

2 Weathering and slopes 40

| | |
|---|----|
| Weathering | 40 |
| Framework 3 <i>A systems approach</i> | 45 |
| Mass movement and resultant landforms | 46 |
| Places 8 <i>South-east Brazil: landslides</i> | 49 |
| Development of slopes | 50 |
| Case Study 2 <i>Slope failure and mass movement</i> | 52 |

3 Drainage basins and rivers 58

| | |
|---|----|
| Places 9 <i>River Don, Yorkshire and River Torridge, Devon: river discharge</i> | 64 |
| Morphometry of drainage basins | 65 |
| Framework 4 <i>Quantitative techniques and statistical methods of data interpretation</i> | 67 |
| River form and velocity | 68 |
| Transportation | 71 |
| Erosion | 72 |
| Deposition | 73 |
| Places 10 <i>Afon Glaslyn, North Wales: river processes</i> | 73 |
| Fluvial landforms | 75 |
| Places 11 <i>Iguaçu Falls, Brazil: a waterfall</i> | 76 |
| Places 12 <i>Bosccastle, Cornwall: a flash flood</i> | 80 |
| Base level and the graded river | 81 |
| Places 13 <i>River Greta, Yorkshire Dales National Park: a rejuvenated river</i> | 82 |
| Drainage patterns | 84 |
| Case Study 3 <i>The need for river management</i> | 87 |
| <i>Focusing on maps for Geography</i> | 98 |

4 Glaciation 102

| | |
|---|-----|
| Ice ages | 104 |
| Places 14 <i>Antarctica and Greenland: previous climatic change</i> | 104 |
| Glaciers and ice masses | 106 |
| Transportation by ice | 109 |
| Glacial erosion | 109 |
| Framework 5 <i>Mean, median and mode</i> | 112 |
| Places 15 <i>Snowdonia: glacial landforms</i> | 115 |
| Glacial deposition | 116 |
| Glacifluvial landforms | 119 |
| Places 16 <i>Arran: glacial landforms</i> | 120 |
| Other effects of glaciation | 122 |
| Places 17 <i>The Vale of Pickering, North Yorkshire: a glacial lake</i> | 123 |
| Case Study 4 <i>Avalanches and the effects of melting ice</i> | 124 |

5 Periglaciation 130

| | |
|--|-----|
| Periglacial processes and landforms | 132 |
| Places 18 <i>Alaska: periglacial river regimes</i> | 136 |
| Case Study 5 <i>The melting permafrost</i> | 137 |

6 Coasts 140

| | |
|--|-----|
| Waves | 140 |
| Beaches | 143 |
| Tides | 146 |
| Places 19 <i>The North Sea and the Bay of Bengal: storm surges</i> | 148 |
| Processes of coastal erosion | 149 |
| Places 20 <i>Holderness: coastal processes</i> | 150 |
| Erosion landforms | 151 |
| Transportation of beach material | 153 |
| Coastal deposition | 154 |
| Places 21 <i>Eastern and southern USA: barrier islands</i> | 156 |
| Framework 6 <i>Sampling</i> | 159 |
| Changes in sea-level | 162 |
| Places 22 <i>Devon and Norway: a ria and a fiord</i> | 164 |
| Places 23 <i>Arran: raised beaches</i> | 166 |
| Rock structure | 167 |
| Framework 7 <i>Classification</i> | 167 |
| Future sea-level rise and its effects | 168 |
| Case Study 6 <i>Coastal management in the UK</i> | 170 |

7 Deserts 178

| | |
|--|-----|
| What is a desert? | 178 |
| Location and causes of deserts | 179 |
| Places 24 <i>The Atacama Desert: climate</i> | 180 |

| | |
|---|-----|
| Desert landscapes: what does a desert look like? | 180 |
| Arid processes and landforms | 181 |
| <i>Places 25 Wadis: flash floods</i> | 188 |
| Climatic change | 190 |
| <i>Case Study 7 Desertification: fact or fiction?</i> | 191 |

8 Rock types and landforms 194

| | |
|--|-----|
| Lithology and geomorphology | 194 |
| Limestone | 196 |
| <i>Places 26 Li Valley, south China: karst scenery</i> | 198 |
| Chalk | 199 |
| Sandstone | 201 |
| Granite | 201 |
| Basalt | 203 |
| <i>Case Study 8 Quarrying in northern India</i> | 203 |

9 Weather and climate 206

| | |
|---|-----|
| Structure and composition of the atmosphere | 206 |
| Energy in the atmosphere | 207 |
| <i>Places 27 The atmosphere: ozone</i> | 209 |
| Global factors affecting insolation | 210 |
| Atmospheric moisture | 213 |
| <i>Places 28 An alpine valley: aspect</i> | 213 |
| Air stability and instability | 216 |
| Precipitation | 219 |
| Atmospheric motion | 224 |
| Planetary scale: atmospheric circulation | 226 |
| Macro-scale: synoptic systems | 229 |
| <i>Places 29 Storms in southern England</i> | 232 |
| <i>Places 30 Hong Kong: typhoon warning, 1 May 1999</i> | 237 |
| <i>Places 31 The West Indies and Myanmar: tropical storms</i> | 238 |
| <i>Places 32 Delhi: the monsoon climate</i> | 240 |
| Meso-scale: local winds | 240 |
| Microclimates | 242 |
| Weather maps and forecasting in Britain | 244 |
| <i>Framework 8 Measures of dispersion</i> | 246 |
| Climatic change | 248 |
| <i>Case Study 9 Short-term and long-term climatic changes</i> | 250 |

10 Soils 260

| | |
|--|-----|
| Soil formation | 260 |
| The soil profile | 262 |
| The soil system | 263 |
| Soil properties | 263 |
| <i>Places 33 The soil pit: soil study in the field</i> | 270 |

| | |
|---|-----|
| Processes of soil formation | 271 |
| Zonal, azonal and intrazonal soils | 273 |
| <i>Places 34 Arran: a soil catena</i> | 276 |
| <i>Framework 9 Geographic Information Systems (GIS)</i> | 277 |
| <i>Case Study 10 Soil erosion and soil management</i> | 279 |

11 Biogeography 286

| | |
|---|-----|
| Seres and climax vegetation | 286 |
| <i>Places 35 Krakatoa: a lithosere</i> | 289 |
| <i>Places 36 Arran: secondary plant succession</i> | 293 |
| Ecology and ecosystems | 295 |
| The ecosystem | 295 |
| <i>Framework 10 Scientific enquiry: hypothesis</i> | 299 |
| <i>Places 37 Haller Park, Mombasa, Kenya: creating an ecosystem</i> | 302 |
| Biomes | 304 |
| <i>Case Study 11 The forests of south-west Australia</i> | 307 |
| <i>Issues Analysis Management of the Serengeti</i> | 311 |

12 World climate, soils and vegetation 314

| | |
|---|-----|
| Classification of climates | 314 |
| 1 Tropical rainforests | 316 |
| 2 Tropical grasslands | 319 |
| 3 Hot deserts | 321 |
| 4 Mediterranean (warm temperate, western margins) | 323 |
| 5 Temperate grasslands | 325 |
| 6 Temperate deciduous forests | 328 |
| 7 Coniferous forests | 330 |
| 8 The tundra | 332 |
| <i>Case Study 12 The management of grasslands</i> | 335 |

13 Population 344

| | |
|---|-----|
| Distribution and density | 344 |
| <i>Framework 11 Scale and generalisation</i> | 347 |
| <i>Places 38 Brazil: population densities at the national level</i> | 347 |
| Population changes in time | 349 |
| Population structure | 352 |
| <i>Framework 12 Models</i> | 352 |
| Trends in population growth | 355 |
| <i>Places 39 Singapore: family planning</i> | 358 |
| <i>Places 40 Japan: an ageing population</i> | 360 |
| Migration: change in space and time | 361 |
| <i>Places 41 China: rural-urban migration</i> | 363 |
| <i>Places 42 Tunisia: migration patterns</i> | 366 |
| <i>Places 43 The world: refugees</i> | 368 |

| | |
|---|------------|
| <i>Places 44 UK: Polish migrant workers</i> | 369 |
| <i>Places 45 South Africa: a multicultural society</i> | 372 |
| <i>Places 46 The USA and Brazil: multicultural societies</i> | 374 |
| <i>Places 47 Singapore: racial and religious harmony</i> | 375 |
| Optimum, over- and underpopulation | 376 |
| <i>Places 48 Bangladesh and Canada: overpopulation and underpopulation</i> | 377 |
| Theories relating to world population and food supply | 378 |
| Links between population growth, use of resources and economic development | 379 |
| <i>Case Study 13 Population in China</i> | 380 |
| <i>Issues Analysis Population policies – the pros and cons of trying to limit population growth</i> | 386 |

14 Settlement 388

| | |
|---|------------|
| Origins of settlement | 388 |
| Functions of settlements | 392 |
| Differences between urban and rural settlement | 393 |
| Rural settlement | 394 |
| <i>Places 49 Carlisle: site, morphology and functions</i> | 396 |
| <i>Places 50 Bickinton, Devon: a village</i> | 399 |
| <i>Places 51 Britain: evolution of settlement</i> | 400 |
| Measuring settlement patterns | 402 |
| <i>Case Study 14 Settlement change</i> | 412 |

15 Urbanisation 418

| | |
|---|------------|
| Urban growth – trends and distribution | 418 |
| Models of urban structure | 420 |
| <i>Places 52 Chicago: a concentric urban structure</i> | 421 |
| <i>Places 53 Tokyo: a multiple-nuclei urban structure</i> | 424 |
| Functional zones within a city | 426 |
| <i>Framework 13 Stereotypes</i> | 427 |
| <i>Places 54 The CBD</i> | 430 |
| <i>Places 55 Gateshead: the MetroCentre</i> | 433 |
| <i>Framework 14 Values and attitudes</i> | 437 |
| <i>Places 56 London: regeneration and the 2012 Olympics</i> | 440 |
| Cities in developing countries | 442 |
| <i>Places 57 Kolkata and Rio de Janeiro: shanty settlements</i> | 443 |
| <i>Places 58 Nairobi, Kenya: functional zones</i> | 444 |
| <i>Places 59 Cairo, Egypt: problems resulting from rapid urban growth</i> | 447 |
| <i>Framework 15 How reliable are statistics?</i> | 448 |
| <i>Places 60 Singapore: a housing success story</i> | 450 |
| <i>Case Study 15 Living in developed cities</i> | 452 |
| <i>Issues Analysis The Westfield Centre, Shepherd's Bush</i> | 458 |

16 Farming and food supply 462

| | |
|--|------------|
| Environmental factors affecting farming | 462 |
| <i>Places 61 Northern Kenya: precipitation and water supply</i> | 465 |
| <i>Places 62 The former Soviet Union: physical controls on farming</i> | 466 |
| Cultural (human) factors affecting farming | 466 |
| <i>Places 63 China: land tenure</i> | 468 |
| Economic factors affecting farming | 469 |
| <i>Places 64 China: farming</i> | 470 |
| Von Thünen's model of rural land use | 471 |
| The farming system | 476 |
| World distribution of farming types | 478 |
| <i>Places 65 Northern Kenya: nomadic herders</i> | 479 |
| <i>Places 66 Amazon Basin: shifting cultivation</i> | 480 |
| <i>Places 67 The Ganges valley: intensive subsistence agriculture</i> | 481 |
| <i>Places 68 Malaysia: tropical commercial (plantation) agriculture</i> | 483 |
| <i>Places 69 The Pampas, South America: extensive commercial pastoralism</i> | 484 |
| <i>Places 70 The Canadian Prairies: extensive commercial arable farming</i> | 486 |
| <i>Places 71 The western Netherlands: intensive commercial farming</i> | 487 |
| <i>Places 72 The Peloponnese, Greece: Mediterranean farming</i> | 489 |
| <i>Places 73 The Nile valley: irrigation</i> | 490 |
| Farming types and economic development | 492 |
| Farming and the environment | 494 |
| <i>Framework 16 Sustainable development</i> | 499 |
| Food supplies | 500 |
| <i>Places 74 Niger: famine</i> | 502 |
| <i>Places 75 Sub-Saharan Africa: food shortages</i> | 503 |
| <i>Case Study 16 Farming</i> | 506 |

17 Rural land use 516

| | |
|--|------------|
| The urban–rural continuum | 516 |
| Forestry | 518 |
| <i>Places 76 Ethiopia, Amazonia and Malaysia: forestry in developing countries</i> | 520 |
| <i>Places 77 South-east Asia: forest fires</i> | 521 |
| Mining and quarrying | 522 |
| <i>Places 78 North Wales: slate quarrying</i> | 523 |
| <i>Places 79 Malaysia: tin mining</i> | 523 |
| <i>Framework 17 Standard error calculations</i> | 524 |
| The need for rural management | 525 |

| | |
|--|------------|
| <i>Places 80 Mafia Island, Tanzania: rural management</i> | 526 |
| <i>Case Study 17 Rural conflicts in south-western USA</i> | 527 |
| 18 Energy resources | 532 |
| What are resources? | 532 |
| World energy producers and consumers | 533 |
| Recent global trends | 535 |
| Sources of energy | 536 |
| <i>Places 81 California and the UK: wind farms</i> | 540 |
| Energy conservation through greater efficiency | 544 |
| <i>Places 82 China: changes in energy production and consumption</i> | 544 |
| Development and energy consumption | 546 |
| <i>Case Study 18 Appropriate technology: micro-hydro in Nepal</i> | 547 |
| 19 Manufacturing industries | 552 |
| Traditional locations of industry | 553 |
| Changing approaches to industrial geography | 557 |
| Theories of industrial location | 557 |
| Production process technologies | 561 |
| Industrial location: changing patterns | 562 |
| <i>Places 83 Sweden: wood pulp and paper</i> | 562 |
| <i>Places 84 UK: iron and steel</i> | 563 |
| <i>Places 85 Japan: car assembly</i> | 565 |
| <i>Places 86 The M4 and M11 corridors: high-tech industries</i> | 566 |
| <i>Places 87 South Wales: industrial growth, decline and regeneration</i> | 570 |
| Industry in economically less developed countries | 573 |
| <i>Places 88 Pune, India: a hub for transnationals</i> | 574 |
| <i>Places 89 Nairobi, Kenya: jua kali workshops</i> | 575 |
| <i>Places 90 Kenya: Practical Action projects</i> | 577 |
| Newly industrialised countries (NICs) | 578 |
| <i>Places 91 Malaysia: a newly industrialised country</i> | 578 |
| <i>Case Study 19 Special Economic Zones and open coastal cities in China</i> | 580 |
| 20 Tourism | 586 |
| Leisure, recreation and tourism | 586 |
| The growth in tourism | 587 |
| Global tourism | 588 |
| UK tourism | 589 |

| | |
|---|------------|
| Tourism and the environment | 591 |
| <i>Places 92 The Peak District: a National Park</i> | 592 |
| The tourist resort/area life-cycle model | 594 |
| <i>Places 93 The Spanish 'costas': the life-cycle of a tourist area</i> | 594 |
| <i>Places 94 The Cairngorms: a mountainous area under threat</i> | 595 |
| Other types of tourism | 596 |
| <i>Places 95 Xcaret, Mexico: ecotourism</i> | 598 |
| <i>Framework 18 Personal investigative study</i> | 599 |
| <i>Case Study 20 Tourism in Goa, India</i> | 600 |

| | |
|--|------------|
| 21 Development and globalisation | 604 |
| The concept of economic development | 604 |
| Criteria for measuring the 'development gap' | 606 |
| <i>Places 96 Kenya: women and development</i> | 608 |
| Living in extreme poverty | 609 |
| <i>Places 97 Malawi and Ethiopia: WaterAid</i> | 611 |
| <i>Framework 19 Correlation and development: scattergraphs, Spearman's rank correlation, and chi-squared</i> | 612 |
| Stages in economic growth | 615 |
| <i>Places 98 China: core-periphery</i> | 618 |
| Health and development | 619 |
| <i>Places 99 Hong Kong: the epidemiological transition</i> | 621 |
| <i>Places 100 Sub-Saharan Africa: HIV/AIDS</i> | 623 |
| International trade | 624 |
| <i>Places 101 South Korea: Samsung – a TNC</i> | 630 |
| <i>Places 102 Ghana: Fairtrade</i> | 631 |
| Overseas aid and development | 632 |
| <i>Places 103 Sri Lanka: aid after the 2004 tsunami</i> | 633 |
| World transport | 643 |
| <i>Places 104 Singapore: an ocean port</i> | 636 |
| <i>Places 105 London Heathrow and Dubai: 'hub' international airports</i> | 637 |
| <i>Places 106 Hong Kong: an integrated traffic system</i> | 640 |
| Information and communications technology (ICT) | 642 |
| The global value chain | 643 |
| <i>Places 107 India: call centres</i> | 643 |
| <i>Case Study 21 China and India: globalisation in the textile and fashion industry</i> | 644 |

Index

Geography

An Integrated Approach

This is the fourth edition of David Waugh's essential text for students studying A-level or an equivalent qualification in Geography. For this new edition, the text has been thoroughly revised and updated with advice from leading subject experts and using latest research and data.

The Case Studies and Places – so invaluable for students, by putting theory into context – have been updated, giving greater worldwide coverage and relevance. The latest global issues are addressed throughout, with a brand new chapter on World Development and Globalisation.

The new edition provides the same invaluable support for geographical skills, exam preparation, and the understanding of current key concepts and theories, that students and their teachers have come to expect from this popular textbook. The text encourages discussion and debate, while at the same time supporting wider reading, individual enquiry and research, and exam preparation.

This new edition provides your students with:

- easy and dependable access to the latest geographical theories, concepts and terminology
- up-to-date information, data and examples based on recent research
- comprehensive, global coverage of key topics
- in-depth integrated Case Studies and Places examples, putting theory in the context of real places, giving opportunities for individual enquiry and useful examples for exam preparation
- support for development of geographical skills and understanding of key concepts and theories
- support and guidance for wider reading, individual enquiry and research through recommended Further Reading in print and online
- structured questions at the end of each chapter, completely revised to reflect current styles of questioning, for revision and reliable exam preparation.
