PART ONE. INTRODUCTION AND BACKGROUND 1

1. Introduction (Erik Trinkaus, Silviu Constantin, João Zilhão) 3
2. Exploration and Documentation of the Peștera cu Oase (Ștefan Milota, Mircea Gherase, Laurențiu Sarcină, Ricardo Rodrigo, Oana Moldovan, Erik Trinkaus, Silviu Constantin, João Zilhão) 5
3. Problems, Approaches and Fieldwork: 2004–2005 (João Zilhão, Ștefan Milota, Ricardo Rodrigo, Silviu Constantin, Erik Trinkaus) 16

PART TWO. THE CAVE AND ITS CONTENTS 31

4. The Karst Geology of the Ponor-Plopa System in Its Regional Context (Silviu Constantin) 33
5. The Ponor-Plopa Cave System: Description, Sediments, and Genesis (Silviu Constantin, Cristian-Mihai Munteanu, Ștefan Milota, Laurențiu Sarcina, Mircea Gherase, Ricardo Rodrigo, João Zilhão) 41
6. Uranium-Series Dating on Speleothems from the Ponor-Plopa Cave System (Silviu Constantin, Stein-Erik Lauritzen) 56
7. Electron Spin Resonance Dating of Vertebrate Remains from the Peștera cu Oase (Rainer Grün, Tegan Kelly, Maxime Aubert) 73
8. Radiocarbon Dating of the Peștera cu Oase Faunal Remains (Thomas Higham, Eva Maria Wild) 77
9. Rock Magnetic Data of Late Pleistocene Sediments from the Peștera cu Oase and Their Paleoclimatic Significance (Cristian Panaiotu, Silviu Constantin, Cătălin Petrea, Viorel Horoi, Cristina-Emilia Panaiotu) 86
10. The Distributions of Finds and Features (João Zilhão, Ricardo Rodrigo, Hélène Rougier, Ștefan Milota) 100

PART THREE. THE CAVE BEARS	125
11. Cave Bear Paleontology and Paleobiology at the Peștera cu Oase: Fossil Population Structure and Size Variability (Martina Pacher, Jérôme Quilès)	127
12. Taphonomic Analysis of the Cave Bear Remains from the Peștera cu Oase (Martina Pacher, Jérôme Quilès)	147
13. An Ancient DNA Perspective on the Cave Bears from the Peștera cu Oase (Mathias Stiller, Michael Hofreiter)	159
PART FOUR. THE OTHER VERTEBRATES	165
14. Hyena, Wolves, and Foxes from the Peștera cu Oase (Emil Știucă, Alexandru Petculescu)	167
15. Small Mammal Remains from the Peștera cu Oase (Alexandru Petculescu)	185
16. The Ungulates from the Peștera cu Oase (Simon A. Parfitt, Adrian M. Lister)	189
17. Taphonomic Considerations of the Non-Ursid Vertebrate Remains (Erik Trinkaus, Martina Pacher)	204
18. Stable Isotopes and Dietary Patterns of the Faunal Species from the Peștera cu Oase (Erik Trinkaus, Michael P. Richards)	211
PART FIVE. THE HUMAN REMAINS	227
19. Radiocarbon Dating of the Peștera cu Oase Human Remains (Erik Trinkaus)	229
20. The Human Mandible from the Peștera cu Oase, Oase 1 (Erik Trinkaus, Hélène Rougier)	234
21. The Human Cranium from the Peștera cu Oase, Oase 2 (Hélène Rougier, Erik Trinkaus)	257
22. Frontal Bone Contours of the Oase 2 Cranium (Sheela Athreya, Hélène Rougier)	321
23. The Internal Cranial Morphology of Oase 2 (Marcia Ponce de León, Christoph P. E. Zollikofer)	332
24. The Dental and Alveolar Remains of Oase 1 and 2 (Erik Trinkaus, Shara E. Bailey, Hélène Rougier)	348
25. The Oase 1 Human Stable Isotopes (Michael P. Richards, Erik Trinkaus)	375
PART SIX. DISCUSSION	383
26. The Paleoenvironmental Context of the Peștera cu Oase (Silviu Constantin, João Zilhão, Erik Trinkaus)	385
27. Paleoanthropological Implications of the Peștera cu Oase and Its Contents (Erik Trinkaus, João Zilhão)	389
