

**CONTENTS**  
**- Volume I -**

Contributions can be found in alphabetical order according to the surname of the first author.

Akematsu Y., Yoshida K., Sakamaki K., Horikawa K. <b>Characteristics of AE waveform during gas leak from a pipe</b> .....	I/15
Anastassopoulos A.A., Kouroussis D.A., Nikolaidis V.N., Proust A., Dutton A.G., Blanch M.J., Jones L.E., Vionis P., Lekou D.J., van Delft D.R.V, Joosse P.A., Philippidis T.P., Kossivas T., Fernando G. <b>Structural integrity evaluation of wind turbine blades using pattern recognition analysis on acoustic emission data</b> .....	I/21
Anastassopoulos A.A., Tsimogiannis A.N., Kouroussis D.A. <b>Pressure vessel evaluation with pattern recognition acoustic emission data analysis</b> .....	I/29
Bayray M., Rauscher F. <b>Window Fourier Transform and Wavelet Transform in AE signal analysis</b> .....	I/37
Belov V., Glushko A., Kozyrev O <b>New AE source location method and its practical application</b> .....	I/45
Beneš P. <b>Process analysis on heat transfer surface</b> .....	I/51
Bláha J. <b>Real source detection during continuous monitoring of pressure vessels</b> .....	I/59
Blaháček M., Převorovský Z. <b>Probabilistic definition of AE events</b> .....	I/63
Boczar T. <b>Comparison of the results of the frequency analysis of electric signals and AE generated by partial discharges</b> .....	I/69
Boczar T. <b>Determining identification possibilities of multisource partial discharges based on frequency analysis of their AE</b> .....	I/77
Bordei M., Dragan V., Dragulin I., Goanta M.A., Constantinescu S. <b>Researches regarding the role of the ultrasonic control at the fabrication of the guidance rolls curved thread at the continuous casting machines</b> .....	I/85
Bradshaw T., Holford K., Cole P., Davies A. <b>Ball bearing calibration of concrete structures using AE</b> .....	I/91
Černý L., Jirsík V. <b>Signal source location by means of neural networks</b> .....	I/99
Chlada M., Převorovský Z. <b>Threshold counting in wavelet domain</b> .....	I/107
Chmelík F., Máthis K., Lukáč P., Langdon T.G. <b>Investigating magnesium alloys and composites using the AE technique</b> .....	I/117
Cole P.T., Gautrey S.N., Lenain J.C. <b>On-stream monitoring of process plant by AE</b> .....	I/125
Colombo S., Main I.G., Forde M.C., Halliday J. <b>AE on bridges: experiments on concrete beams</b> .....	I/127
Constantinescu S., Drugescu E., Dragan V., Radu T., Bordei M., Buburuzan L. <b>Practical application of AE of the different grades of steel</b> .....	I/135

Crha J., Hahn J., Brom J. <b>Leak monitoring by AE method</b> .....	I/141
Derjagin B.V., Lipson A.G., Kluev V.A., Toporov Yu.P., Sodomka L. <b>Mechanoemission of neutron from deuterated materials</b> .....	I/149
Dragan V., Bordei M., Constantinescu S., Tudor B. <b>Researches regarding the quantitative analysis of the heavy rolling plates of LRS-EH36 steel type, through ultrasonic control</b> .....	I/155
Drummond G.R., Fraser K.F., Little J., Watson J.F., Campbell P. <b>Assessing the structural integrity of crane booms using AE</b> .....	I/161
Ennaceur C., Benmedakhene S., Laksimi A., Hervé C., Mediouni M., Cherfaoui M. <b>Study of mechanical behaviour of 304L steel using AE technique and the method of potential difference</b> .....	I/173
Ferrer F., Radigon E. <b>Using AE in the objective to evidence corrosion rate evolutions during chemical process in service modifications</b> .....	I/185
Fraser K., Drummond G., Little J., Fleisher S., Bailey J., Brown M. <b>Investigation utilising AE into cracking of stainless steel aircraft tie down link plates</b> .....	I/191
Gaillet L., Brevet P., Robert J.L., Tessier C. <b>Acoustic monitoring of prestressed concrete bridge and other civil structures with cables</b> .....	I/201
Golaski L., Gebski P., Ono K. <b>Diagnostics of reinforced concrete structures by AE</b> .....	I/207
Goujon L., Baboux J.C., Zhang F. <b>Reciprocity calibration of AE transducers</b> .....	I/217
Hájek K., Šikula J., Tacano M., Hashiguchi S. <b>Signal to noise ratio and preamplifier noise of AE measuring systems</b> .....	I/223
Hatscher A., Chmelík F., Lukáč P., Zenner H. <b>Cyclic deformation of a magnesium based light alloy investigated by the AE technique</b> ...	I/229
Holford K.M., Pullin R., Davies A.W. <b>An investigation into location of damage in bridge details by AE</b> .....	I/237
Horikawa K., Yoshida K., Sakamaki K. <b>AE due to the intergranular fracture of Al-Mg-Si base alloys</b> .....	I/239
Hünicke U.D., Schulz M., Budzier R., Eberlein J. <b>Characterization of stress corrosion cracking of CuZn-alloys by AE testing</b> .....	I/247
Kabanov B.S., Gomera V.P., Sokolov V.L., Okhotnikov A.A., Fedorov V.P. <b>AE technology as a key element of the safe operation system at refinery</b> .....	I/253
Kořenská Ma., Pazdera L., Smutný J., Kořenská Mo. <b>Detection of defects in hourdis sandwich slabs by means of AE method</b> .....	I/263
Krofta J., Převorovský Z., Raab M. <b>AE during structure changes in semi-crystalline polymers</b> .....	I/269
Kuravsky L.S., Baranov S.N. <b>Condition monitoring of thin-walled structures suffered high-level acoustic excitation</b> ....	I/277

Lackner G., Tscheliesnig P. <b>AE testing on flat bottomed storage tanks: how to condense acquired data to a reliable statement regarding floor condition</b> .....	I/279
Lamark T.T., Chmelík F., Estrin Y., Lukáč P. <b>Plastic deformation of a magnesium based light alloy investigated by the AE technique..</b>	I/287
Landa M., Novák V., Blaháček M., Šittner P. <b>Investigation of transformation processes in shape memory alloys based on monitoring AE activity</b> .....	I/293
Landa M., Wevers M. <b>AE during constant loading or constant deformation tests of AISI 304 stainless steel in 5N H<sub>2</sub>SO<sub>4</sub> + 0,1M NaCl</b> .....	I/301
Lavrov A., Wevers M., Vervoort A. <b>AE during monotonic and cyclic deformation of a brittle limestone</b> .....	I/307
Little J., Drummond G.R., Fraser K.F., Bentley J.A., Jihan S., Siddiqui A.M. <b>Lifespan prediction for composite cylinders using AE techniques</b> .....	I/315

## CONTENTS - Volume II -

van de Loo P.J., Wolfert A., Schelling R., Schoorlemmer H.J., Kooistra T.M. <b>Low alloy steel metal dusting: detailed analysis by means of AE</b> .....	II/7
Loutas T.H., Kontsos A., Sotiriadis G., Pappas Y.Z., Kostopoulos V. <b>On the identification of the damage mechanisms in Oxide/Oxide Composites using AE...</b>	II/15
March L. <b>Application of AE transducers in advanced manufacturing and condition monitoring applications</b> .....	II/25
Mazal P., Beneš P., Pazdera L. <b>AE laboratories at Brno University of Technology</b> .....	II/27
Mizutani Y., Shimoda T., He J., Morino Y., Mizutani S. <b>AE monitoring of cryogenic propellant tank</b> .....	II/35
Mori Y., Obata Y. <b>A method for reconstruction of dynamic fracture process occurred inside the material with the aid of AE</b> .....	II/43
Nivesrangsang P., Cochrane C., Steel J.A., Reuben R.L. <b>AE mapping of engines for spatially-located time series</b> .....	II/51
de Oliveira R., Marques A.T., Berthelot J.M. <b>Transverse matrix cracking monitoring in glass-fibre/polyester cross-ply laminates by AE</b> .....	II/59
De Petris C., Agnello P., Lenzuni P., Rosatelli R. <b>A basic approach to discriminate AE sources in composites</b> .....	II/67
Poppeová V. <b>Cutting tool condition monitoring</b> .....	II/69
Převorovský D., Převorovský Z., Asserin J., Varchon D. <b>AE characteristics of surface friction in bio-medical application</b> .....	II/77

Převorovský Z. <b>Notes on wave and wave-guide concepts in AE</b> .....	II/83
Proust A., Lenain J.C. <b>AE monitoring of civil infrastructures</b> .....	II/91
Pullin R., Holford K.M. <b>Single sensor source location of AE from fatigue cracks</b> .....	II/95
Raad A., Zhang F., Sidahmed M. <b>Early detection of faults in gears using AE and vibration analysis</b> .....	II/103
Raad A., Zhang F., Sidahmed M. <b>Leak detection by AE using subspaces methods</b> .....	II/111
Rauscher F., Bayray M. <b>AE measurements on shell structures with directly attached piezo ceramic</b> .....	II/119
Rogers L.M. <b>Structural and engineering monitoring by AE methods - fundamentals and applications</b> ..	II/125
Rowland C., Callaghan T., Coy J. <b>Conditioning monitoring using AE on multiple roller bearings in Consignia's letter sorting machines</b> .....	II/131
Sagar Remalli Vidya, Raghu Prasad B.K., Kumar Vijaya <b>Fracture energy of high strength concrete beams using AE technique</b> .....	II/133
Shinomiya T., Nakanishi Y, Morishima H., Shiotani T. <b>Damage diagnosis technique for brick structures using AE</b> .....	II/141
Shiotani T., Bisschop J., van Mier J.G.M. <b>Evaluation of drying shrinkage microcracking in cementitious materials using AE</b> .....	II/149
Shiraishi M., Koizumi T. <b>Friction control of positioning system by AE detection</b> .....	II/157
Šikula J., Pavelka J., Majzner J., Dobis P. <b>Cracks characterisation by acoustic and electromagnetic emission</b> .....	II/163
Šikula J., Štrunc M., Majzner J., Koktavý P., Pavelka J., Hájek K. <b>Electrical noise of piezoceramic sensors</b> .....	II/171
Skalsky V., Andreykiv O., Serhiyenko O. <b>AE modeling of microcracking in plastically deformed zones of crystalline solids</b> .....	II/177
Sodomka L. <b>Applications of the acoustical emission to textile fields</b> .....	II/185
Sodomka L. <b>To the history of acoustical emission</b> .....	II/195
Špačková H. <b>Tram track structure acoustic analysis</b> .....	II/199
Svoboda V., Žemlička F., Petrásek P., Proust A. <b>Damage monitoring in high pressure vessels by means of AE</b> .....	II/203
Theobald P.D., Esward T.J., Dowson S.P. <b>Towards traceable calibration of AE transducers: a new development at the UK's NPL</b> ....	II/211
Trapl K., Sajdl P., Kučera P., Novotný R. <b>AE and electrochemical noise during stress corrosion cracking</b> .....	II/219
Traxler H., Arnold W., Knabl W., Rödhammer P. <b>Non-Destructive evaluation of brazed joints by means of AE</b> .....	II/225

# EWGAE 2002

25<sup>th</sup> European Conference on Acoustic Emission Testing  
Prague, Czech Republic, 11 – 13 September 2002

---

Tscheliesnig P. <b>Training and certification on the field of AE testing at according the European standardisation (EN 473)</b> .....	II/233
Valeš F., Lašová V., Laš V., Adámek V. <b>Interaction of elastic waves with plastic zone by the various types of loading</b> .....	II/239
Vallen H., Forker J. <b>A new AE-system approach with optimum speed and flexibility for use in field test and laboratory</b> .....	II/247
Vallen H., Vallen J. <b>Free-of-cost software tools generate dispersion curves, perform wavelet transform and help to correlate both kinds of information</b> .....	II/255
Vougiouklakis Y. Hähner P., Kostopoulos V., Peteves S. <b>Damage mode identification and analysis of coated gas turbine materials using a non-destructive evaluation technique</b> .....	II/263
Winkelmans M., Wevers M. <b>Non-Destructive testing for corrosion monitoring in chemical plants</b> .....	II/271
Yan T., Jones B.E. <b>In-situ AE transducer calibration using artificial AE energy sources</b> .....	II/279
Yoshida K., Horikawa K., Sakamaki K. <b>Characteristics of AE behaviour during tensile deformation of Ni-Al intermetallic compounds with boron additive</b> .....	II/287
Žižka J., Prukner V., Ogawa D., Sumiya H., Shiraishi M. <b>Neuronal network for tool wear monitoring on the AE signal basis</b> .....	II/295
Zuev L.B., Semukhin B.S., Lunyev A.G. <b>On the acoustic properties of metallic polycrystals under straining</b> .....	II/303
Index of autors.....	II/305
Contact adresses of selected authors .....	II/307
