

C O N T E N T S

Preface v

Part I The Nature of Human Language I

Chapter I What Is Language? 3

Linguistic Knowledge 4

Knowledge of the Sound System 4

Knowledge of the Meaning of Words 5

The Creativity of Linguistic Knowledge 8

Knowledge of Sentences and Nonsentences 10

Linguistic Knowledge and Performance 11

What Is Grammar? 12

Descriptive Grammars 13

Prescriptive Grammars 14

Teaching Grammars 16

Language Universals 17

Animal "Languages" 19

"Talking" Parrots 21

The Birds and the Bees 21

Summary 23

References 25

Exercises 26

Part 2 Grammatical Aspects of Language 29

Chapter 2 Phonetics: The Sounds of Language 31

Sound Segments 31

Individual Sounds 32

Identity of Speech Sounds 33

Articulatory Phonetics 34

Airstream Mechanisms 34

Voiced and Voiceless Sounds 35

Nasal and Oral Sounds 37

Places of Articulation 39

Labials 39

Interdentals	39
Alveolars	39
Velars	39
Palatals	40
Coronals	40
Manners of Articulation	40
Stops and Continuants	41
Aspirated and Unaspirated Sounds	41
Fricatives	42
Affricates	43
Sibilants	43
Obstruents and Sonorants	44
[+consonantal] Sounds	44
Glides	46
Syllabic Sounds	47
Vowels	48
Tongue Position	49
Lip Rounding	50
Diphthongs	51
Tense and Lax Vowels	51
Nasalization	51
Prosodic Features	52
The Phonetic Alphabet	52
Spelling Reformers	54
From “Universal Characters” to the IPA	56
Diacritics	60
Phonetic Features	61
Summary	63
References	64
Exercises	65
 Chapter 3 Phonology: The Sound Patterns of Language	 69
Phonemes: The Phonological Units of Language	70
Minimal Pairs	71
Distinctive Features	73
Sounds That Are Not Phonemes: Features That Do Not Contrast	74
Phonemes, Phones, and Allophones	75
Predictability of Redundant Features	76
Form and Meaning	81
Vowel and Consonant Length	81
Sequences of Phonemes	83
Sequential Constraints	83
Syllable Structure	85
Natural Classes	86
Prosodic Phonology and Suprasegmentals	88

Tone	88
Intonation	90
Word Stress	91
Sentence and Phrase Stress	93
The Rules of Phonology	95
The Formalization of Phonological Rules	95
Assimilation Rules	99
Dissimilation Rules	101
Feature Addition Rules	102
Segment Deletion and Addition Rules	103
Movement (Metathesis) Rules	105
From One to Many and from Many to One	106
The Function of Phonological Rules	109
Slips of the Tongue: Evidence for Phonological Rules	110
Rule Simplification	111
Summary	113
References	115
Exercises	116
 Chapter 4 Morphology: The Words of Language	 122
Dictionaries	123
Classes of Words	124
Word Sets	125
Morphemes: The Minimal Units of Meaning	127
Bound and Free Morphemes	128
Crans and Huckles	129
Rules of Word Formation	131
Derivational Morphology	131
“Pullet Surprises”	134
Word Coinage	135
Compounds	136
Compound Stress Patterns	137
Meaning of Compounds	137
Universality of Compounding	138
Acronyms	139
Blends	139
Back-Formations	140
Abbreviations	140
Words from Names	140
Inflectional Morphology	141
The Pronunciation of Morphemes	144
Morphophonemics	146
Exceptions and Suppletions	148
More Sequential Constraints	149
Summary	152

References 153

Exercises 154

Chapter 5 Syntax: The Sentence Patterns of Language 162

Grammatical or Ungrammatical? 162

What Grammaticality Is Based On 163

What Grammaticality Is Not Based On 164

What Else Do You Know About Syntax? 165

Sentence Structure 167

Phrase Structure Rules 174

Growing Trees 176

Trees That Won't Grow 177

More Phrase Structure Rules 178

The Lexicon 182

Subcategorization 183

More Co-occurrence Restrictions 184

The Infinitude of Language 186

The Function of Constituents 189

Types of Languages 191

Transformational Rules 192

A Movement Rule 195

Structure Dependence and Conditions 195

Summary 197

References 198

Exercises 199

Chapter 6 Semantics: The Meanings of Language 205

Word Meanings 206

Semantic Properties 206

Semantic Features 208

Meaning Postulates 209

Ambiguity 210

Paraphrases 212

Antonyms 214

Names 216

Phrase and Sentence Meaning 218

Sense and Reference 219

Combining Words into Sentences 220

Thematic Relations 221

The "Truth" of Sentences 223

Discourse Meaning 224

Maxims of Conversation 224

The Articles *the* and *a* 225

Anaphora 226

Pragmatics 227

- Speech Acts 227
- Presuppositions 229
- Deixis 230

When Rules Are Broken 232

- Anomaly: No Sense and Nonsense 232
- Metaphor 234
- Idioms 236

Summary 238**References 239****Exercises 241****Part 3 Social Aspects of Language 251****Chapter 7 Language in Society 253****Dialects 253**

- Regional Dialects 254
- Accents 255

Dialects of American English 255

- Phonological Differences 257
- Lexical Differences 257
- Dialect Atlases 258
- Syntactic Differences 258

The "Standard" 260**Language Purists 260****Black English 263**

- Phonology of Black English 264
 - Deletion of *r* and *l* 264
 - Consonant Cluster Simplification 265
- Syntactic Differences Between BE and SAE 266
- History of Black English 268

Hispanic English 269**Lingua Francas 271****Pidgins and Creoles 272**

- Pidgins 272
- Creoles 275

Styles, Slang, and Jargon 275

- Styles 275
- Slang 276
- Jargon and Argot 277

Taboo or Not Taboo? 278

- Euphemisms 280
- Racial and National Epithets 281

Language and Sexism 282

- Marked and Unmarked Forms 283

More Asymmetries	285
Female Language	285
Artificial Languages	287
Summary	288
References	290
Exercises	291

Chapter 8 Language Change: The Syllables of Time 296

The Regularity of Sound Change	298
Phonological Change	300
Phonological Rules	301
The Great Vowel Shift	302
Morphological Change	303
Syntactic Change	306
Lexical Change	308
Addition of Words	308
Borrowings	308
Loss of Words	312
Semantic Change	312
Broadening	313
Narrowing	313
Meaning Shifts	313
Reconstructing "Dead" Languages	314
The Comparative Method	317
Historical Evidence	318
The Genetic Classification of Languages	320
Why Do Languages Change?	322
Languages of the World	326
Summary	330
References	330
Exercises	331

Chapter 9 Writing: The ABCs of Language 338

The History of Writing	339
Pictograms and Ideograms	340
Cuneiform Writing	342
The Rebus Principle	343
From Hieroglyphs to the Alphabet	344
Modern Writing Systems	345
Word Writing	346
Syllable Writing	348
Alphabetic Writing	349
Writing and Speech	352
Spelling	355
Spelling Pronunciations	359

Summary	360
References	361
Exercises	362

Part 4 Biological Aspects of Language 365

Chapter 10 Language Acquisition 367

Stages in Language Acquisition 368

The First Sounds	368
Babbling	369
First Words	370
The Two-Word Stage	372
From Telegraph to Infinity	373

Theories of Child Language Acquisition 375

Do Children Learn by Imitation?	375
Do Children Learn by Reinforcement?	376
Children Form Rules and Construct a Grammar	377
Errors or Rules?	379
Inflectional Errors	379
Semantic Overgeneralizations	379
Phonological and Morphological Rule Acquisition	380
The Acquisition of Syntax	381

The Biological Foundations of Language Acquisition 382

The "Innateness Hypothesis"	382
Sign Languages: Evidence for the Biology of Language	383
American Sign Language (ASL)	384
The Acquisition of ASL	387

Learning a Second (or Third or . . .) Language 388

Second Language Teaching Methods	390
Acquiring Versus Learning?	391

Can Chimps Learn Human Language? 391

Summary	395
References	396
Exercises	398

Chapter 11 Brain, Mind, and Language 399

The Two Sides of the Brain 400

Evidence for Brain Lateralization 403

Aphasia Studies	404
Split Brains	406
More Lateralization Evidence	409

The Critical Age Hypothesis 411

In the Beginning: The Origin of Language 412

God's Gift to Humanity?	413
The First Language	415

Human Invention or the Cries of Nature?	416
The Biological Basis of Language Origin	417
The Evolution of Language	418
Summary	419
References	421
Exercises	422
Chapter 12 Language Processing: Human and Machine	424
Human Processing of Language: Linguistic Performance	424
Comprehension	425
The Speech Signal	425
Speech Perception	427
Understanding Sentences	429
Experimental Studies	430
Speech Production	431
Planning Units	432
Lexical Selection	433
Application and Misapplication of Rules	433
Nonlinguistic Influences	434
Modeling the Production Process	435
Computer Processing of Language	436
Machine Translation	436
Text Processing	438
Computer Communication	439
Talking Machines (Speech Synthesis)	440
Machines for Understanding Speech	442
Speech Recognition	443
Parsing	444
Semantic Processing	445
Computer Models of Grammars	446
Language and Artificial Intelligence	447
Summary	449
References	450
Exercises	451
Index	455

Index

- Abbreviations, 140, 153
- Ablative case (*see* Case: ablative)
- Accent(s), 92
 - and dialects, 255, 288, 396
 - See also* Dialects; Stress
- Accidental gaps, in
 - Lexicon, 73, 116, 131
- Accusative case (*see* Case: accusative)
- Acoustic phonetics, 33, 34, 51, 425–429, 432, 443, 448, 449
- Acquisition of language, 8, 24, 205, 212, 367–398, 414
 - children's (*see* Children's acquisition of language)
 - critical age for, 390, 396, 411–412, 414, 416, 420
 - human vs. primate, 391–396
 - second, 16–18, 268, 269, 388–391, 396, 414
 - sign, 4, 6–7, 21, 383–388
 - universality of process of, 370, 382, 383, 388, 390, 396
- Acronyms, 139, 153
- Addition rules, 103–105, 115, 150–152, 330
- Adjective phrase (AP), 179, 181–184, 197
- Adjectives, 179–184, 197, 220
- Affixes, 130, 143, 152, 346, 351
- Affricates, 43, 44, 44 (table), 47, 56, 62
- African languages, 4–6, 16–18, 33, 35, 83, 88, 90, 102, 106, 155–159, 269, 320
 - See also specific language*
- Agent, 221–222, 246, 381
- Agentive case (*see* Case: agentive)
- Agrammatism, 402
- Agaphia, 406
- Airstream mechanisms, 34–35, 41–46, 48
- Akan, 106 (*see also* Twi)
- Albanian, 309, 328
- Allomorphs, 146, 149, 150
- Allophones, 76, 78, 101, 106, 108, 113, 116–118, 120, 160, 301, 334, 351, 434, 448
- Alphabet(s), 350–351, 360, 362
 - non-Roman, 362
 - phonetic, 51–57, 57 (table), 58–61, 345, 351
 - Proposed British, 55
 - Roman, 56, 345, 347, 350, 352
- Alphabetic writing
 - system(s), 345, 346, 348–353, 360, 363
- Alveolar ridge, 39, 40, 43, 45, 48, 82
- Alveolars, 39, 41, 45, 62, 63, 86, 104, 148
- Alveopalatals, 40
- Aman, Rheinhold, 280
- Ambiguity, 165–166, 168, 172, 197, 200, 210–213, 219, 235, 238, 243, 244, 250, 326, 330, 349, 353–354, 364, 431, 437, 449
- American English (*see* English, American)
- American Indian
 - languages, 4, 6, 35, 88, 122, 128, 138, 273, 298, 309, 311, 320, 322, 336
 - See also individual languages*
- American Sign Language (ASL), 6, 384–387, 387 (fig.), 388, 396
 - and primates, 392, 393, 396
- Analogic change, 325, 335
- Analytic sentence, 223–224, 246, 247
- Anaphora, 226–227
- Animal languages, 19–24, 391–396, 403, 411–412, 419
- Anomaly, 185, 232–235, 239
- Anomia, 404–405, 420
- Anterior sounds, 39, 40, 62, 87
- Anticipation errors, 432, 449
- Antonyms, 133, 214–216, 219, 238, 245
- Apache, 326
- Apalai, 191
- Apes, communication
 - system of, 391–395

- Aphasia, 402, 404–406,
409, 420, 422
- Application and
misapplication of
rules, 433–435
- Appropriateness, 224,
239
- Apurina, 191
- Arabic, 4, 43, 82, 191,
261, 271, 311, 346
Koran, 261, 414
numerals, 347–348
- Aramaic, 415
- Arbitrary features (*see*
Nonpredictable
features)
- Arcs, 444, 445
- Argot, 277–278, 289,
295
- Armenian, 314
- Arrows, 97–98, 100,
103, 110, 113, 174,
175, 180, 187, 189,
197, 209, 432, 444
- Article(s), 168, 170,
171, 173, 174, 177–
179, 181, 182, 197,
220, 225–226
- Articulation, 34, 150,
249, 433, 444
manners of, 40–46
places of, 36, 39–41,
43–46, 49–51, 86,
104, 429
positions for, 34–37
- Articulatory phonetics,
34–51, 56, 99, 101
- Artificial intelligence
(AI), 447–448, 450
vs. human
intelligence, 448
- Artificial languages, 287–
289
- Asante Twi, 86
- Asian languages, 88
See also specific
language
- Aspirated sounds, 41–
42, 70, 77–80, 86,
87, 95, 97, 102, 113
- Aspiration rule, in
English, 78, 95–98,
105, 109, 111, 112,
114, 145
- Assimilation rules, 99–
