

I. Introduction	1
1. Architecture, Performance, and Games	9
II. Design Patterns Revisited	19
2. Command	21
3. Flyweight.	33
4. Observer	43
5. Prototype	59
6. Singleton.	73
7. State	87
III. Sequencing Patterns	105
8. Double Buffer	107
9. Game Loop	123
10. Update Method	139
IV. Behavioral Patterns	153
11. Bytecode	155
12. Subclass Sandbox	181
13. Type Object	193
V. Decoupling Patterns	211
14. Component	213
15. Event Queue.	233
16. Service Locator	251
VI. Optimization Patterns	267
17. Data Locality	269
18. Dirty Flag.	291
19. Object Pool	305
20. Spatial Partition	321
