List of abbreviations	6
Preface	9
1 System of technical devices used in chemical reconnaissance and chemical control	10
1.1 Objectives and duties of chemical reconnaissance and chemical control	10
1.2 Factors affecting the concept of chemical reconnaissance and chemical control	10
1.3 Conception of system of technical devices used in chemical reconnaissance and chemical control	11
1.4 System of technical devices used in reconnaissance and chemical control	12
2 Analysis of chemical warfare agents	16
2.1 Phosgene	16
2.2 Diphosgene	21
2.3 Chloropicrin	23
2.4 Hydrogen cyanide	26
2.5 Cyanogen chloride	33
2.6 Sulfur mustards	37
2.7 Nitrogen mustards	49
2.8 Lewisite	58
2.9 Organophosphorus chemical warfare agents	63
2.10 Compounds of the G-series (sarin-type)	71
2.11 Tabun	78
2.12 Organophosphorus fluoridates	81
2.13 Sarin	85
2.14 Soman	87
2.15 Compounds of the V-series (VX-type)	89
2.16 GP agent	97
2.17 Novichok (A-230, A-232, A-234)	100
Supplement to Chapters 2.9-2.17	101
2.18 Bromobenzyl cyanide	103
2.19 Chloroacetophenone	107
2.20 <i>o</i> -Chlorobenzylidenemalononitrile, CS agent	112
2.21 Dibenzo[<i>b,f</i>]-1,4-oxazepine, CR agent	118
2.22 Diphenylchloroarsane	123
2.23 Diphenylcyanoarsane	126
2.24 10-Chloro-5,10-dihydrophenarsazine (adamsite)	127
2.25 Quinuclidin-3-yl diphenylhydroxyacetate, BZ agent	131
3 Chemical reconnaissance and chemical control devices	140
3.1 Detector papers	140
3.2 Colorimetric biosensor	141
3.3 Chemical detectors	141
3.4 Mobile laboratories	147
4 Trends in development within the system of technical devices used in chemical reconnaissance and control	151
5 Recommended reviews	153
