About the contributors xi

Foreword xvi
Francesco Starace

Introduction: the irresistable rise of urbanization **xviii**
Oriol Nel·lo

PART 1 – URBAN SYSTEM: CITIES IN THE GLOBAL SOCIOECONOMIC NETWORK **1**

1 Changing the city, changing the world 3
Mireia Belil

Outlook 1 The City of London: center of capital flows 12
Giuseppina Siciliano

2 Cities in the world system 15
Michael Cohen

Outlook 2 New patterns of circulation of goods: the port of Shanghai 23
Irina Lazzerini

3 Cities as innovation: towards a new understanding of population growth, social inequality and urban sustainability 26
Julio D. Dávila

Outlook 3 Ceuta and Melilla: the paradox and drama of international migration 35
Oriol Porcel

PART 2 – URBAN MORPHOLOGY: TRANSFORMATIONS AND DISSOLUTIONS 39

4 Regional urbanization and the end of the metropolis era 41
Edward W. Soja

Outlook 4 The *città diffusa* of the Po Valley 57
Angelo Facchini

5 New urban forms: the distinctive character of the European metropolis 60
Francesco Indovina

Outlook 5 The new Luanda 67
Igor Cersosimo

6 Beyond *urbanalization*: urban form and the low-carbon challenge 69
Francesc Muñoz

Outlook 6 Old and new commercial centres: bazaars vs. shopping malls in Ankara 78
Oriol Porcel

7 Mutations in the Latin American metropolis: Santiago de Chile under neoliberal dynamics 80
Carlos de Mattos, Luis Fuentes, and Felipe Link

Outlook 7 Observing changes in urban form through night satellite images in Buenos Aires and Lima 93
Jordi Martín

PART 3 – URBAN ECOSYSTEMS: RESOURCES AND ENERGY 97

8 Living at the edge of chaos: a complex systems view of cities 99
Gianluca Bocchi and Angelo Facchini

Outlook 8 Climate-sensitive urbanization in Tokyo-Yokohama 106
Angelo Facchini

9 Cities in a low-carbon world 109
Christopher Kennedy

Outlook 9 Pathways to decarbonizing mobility in Madrid 120
Christian Zulberti

10 Cities, climate change and lifestyles 123
Federico M. Butera

Outlook 10 Urban agriculture in Melbourne 131
Giuseppina Siciliano

11 The mirage of the sustainable 'smart city': planetary urbanization and the spectre of combined and uneven apocalypse 134
Erik Swyngedouw

Outlook 11 Energy access and water supply in urban centers in arid environments: the case of Nouakchott 144
Oriol Porcel

PART 4 – URBAN TECHNOLOGIES: INFORMATION, KNOWLEDGE, INFRASTRUCTURES AND CULTURE IN CITIES 147

12 The cognitive city 149
Franco Farinelli

Outlook 12 Talent concentration and brain drain in Greater Boston 160
Oriol Porcel

13 Dimensions of the future city 162
Matthew Claudel and Carlo Ratti

Outlook 13 Shaping the city with big data: Seattle, Chicago and Lyon 178
Angelo Facchini

14 Cities, infrastructure and planning: levers to steer transitions 181
Tim Marshall

Outlook 14 Managing public transport in Medellín 190
Irina Lazzerini

15 Group-form and urban infrastructural resilience: New York City as an example 192
Richard Plunz and Patricia Culligan

Outlook 15 Res Novae: new things and concepts in the "smart city" of Bari 205
Angelo Facchini

PART 5 – THE URBAN ECONOMY AND SOCIETY: DYNAMISM AND INEQUALITIES 209

16 The city as economic engine 211
Luis Carvalho and Leo van den Berg

Outlook 16 Urban festivals as tools for sustainable development: the case of the World Port Days in Rotterdam 218
Leo van den Berg and Erwin van Tuijl

17 Dynamism and inequalities in the Global South cities 221
Caroline Moser

Outlook 17 Gender and spaces of fear: the case of Mexico City 230
Anna Ortiz

18 The city in the net: infrastructural networks, economic development and urban form 233
Joan López

Outlook 18 Social construction of urban spaces in Barcelona, Glasgow and New York 244
Oriol Porcel

19 "New urbanisation": theory, challenges and research 247
Dajian Zhu

Outlook 19 The slums of Manila 257
Igor Cersosimo

PART 6 – GOVERNING CITIES: VISIONS, PROJECTS AND INSTRUMENTS 261

20 The rise of urban governance 263
Ronan Paddison

Outlook 20 The "pacification" of Rio de Janeiro's favelas 270
Oriol Porcel

21 Urban policies: towards new scenarios of innovation and governance 272
Joan Subirats

Outlook 21 The regulation of urban citizenship: Shenzhen's migrants 280
Igor Cersosimo

22 Updating Lorenzetti's allegories on government: towards a Europe of cities 283
João Ferrão

Outlook 22 Exchanging recyclable waste for electricity in Fortaleza 290
Angelo Facchini

Index 293

Figures, infographics and tables

Figures

1.1 House prices in London, UK and UK excluding London (2007–2014) 13
2.1 Chinese ports container traffic 24
4.1 Regional urbanization graph 48
7.1 Classification of the municipalities of the Metropolitan Urban System of Santiago de Chile (MUSS) according to their location 83
7.2 Distribution of the percentage of homes in the MUSS by urban location 85
7.3 Proportion of authorized public and private housing units by area of the MUSS and by decade 86
7.4 Means of transport used to get to work within the MUSS 88
7.5 Municipality where head of household works compared to place of residence in the MUSS 89
7.6 Expectations for municipal evolution by area of the MUSS 90
7.7 Spatial distribution of lighting in Buenos Aires and Lima (1992–2012) 94
8.1 Morowitz model of a self-organizing intermediate system 103
9.1 Interdependence of infrastructure systems in virtuous cycles of low carbon growth 111
9.2 Examples of low carbon infrastructure strategies tailored to different cities 113
9.3 Examples of positive and negative interactions between adaptation and mitigation strategies 116
13.1 A series of visualizations generated by 311 data 166
13.2 An analysis of the number of mobile phone calls made in Washington, DC, on Obama's Inauguration Day 167
13.3 Visualization of the volumes of Internet data flowing between New York and cities around the world over a 24-hour period 168

13.4 The United States' waste management patterns 169
13.5 Local Warming explores a vision for the future of heating systems 170
13.6 A map of connections and relationships in the field of scientific publication 171
13.7 One Laptop Per Child program 172
13.8 A visualization of taxi pickups and drop-offs on the island of Manhattan 173
13.9 The Cloud: Helping to keep the London lamp aflame 174
14.1 Self-Reliant Green City 186
15.1 Design for a Fourierist 193
15.2 New York City gridiron, circa 1890 195
15.3 Columbia University Watt Residence Hall: Floor plan and context 197
15.4 Columbia University Watt Residence Hall: Decrease in consumption among those with social media access 199
15.5 Albany neighborhood housing cluster 200
15.6 'Amsterdam Houses' study: Floor plan and context 201
15.7 Overview of Res Novae 206

Infographics

I.1 Foreign investment
I.2 Immigration and urban deprivation
I.3 Migrations
I.4 Urban and rural populations
I.5 Urban agglomerations
I.6 City density and morphology
I.7 Social standards
I.8 Merchandise exports

Tables

1.1 Major agglomerations of the world (July 2014) 5
7.1 Residential land by year of construction 86
9.1 Top 20 cities ranked in terms of assets exposed to coastal flooding in the 2070s 115
9.2 Strategies for simultaneous climate change adaptation and mitigation 116
16.1 Basic data: World Port Days (WPD) in Rotterdam 219
19.1 Ten differences between "old" and "new" urbanization, according to the "five-in-one" development program 248
19.2 Key indices of new urbanization in China 252
19.3 Cities and city size in China 253
22.1 Main figures of the project Ecoelce since 2007 291
