Preface.....	xix
Acknowledgments.....	xxv
Authors.....	xxvii

SECTION I

Chapter 1	Introduction to International Law	3
1.1	International Law	3
1.2	The Resources of the Deep Seabed	5
1.3	Petroleum Deposits on the Continental Shelf.....	6
1.4	Energy Activities under International Law	8
1.4.1	The Impact of Privatisation.....	9
1.5	The Influence of Science on Environmental Regulation in the Energy Sector.....	9
1.5.1	Definition of Pollution.....	10
1.5.2	Setting Environmental Standards	10
1.5.3	Scientific Assessment	11
1.5.4	The Technical Options	11
1.5.5	Best Available Techniques Not Entailing Excessive Cost (BATNEEC).....	12
1.5.6	Best Practicable Environmental Option (BPEO)	13
1.5.7	Best Available Techniques (BAT) and Life Cycle Assessment.....	13
1.6	International Policy and Regulatory Bodies	14
1.7	Energy Activities within the United Nations.....	14
1.7.1	The International Atomic Energy Agency (IAEA).....	15
1.7.2	The Organisation for Economic Cooperation and Development (OECD).....	15
1.8	The International Scope of Standard Setting	16
1.9	ISO, European Eco-Management and Audit Scheme (EMAS), and Sector Standards	17
1.9.1	The European Eco-Management and Audit Scheme (EMAS)	18
1.10	Corporate Social Responsibility and Multinationals.....	19
1.11	Environmental Regulation of International Corporations	20
1.11.1	National and Regional Regulations.....	21

1.12	Carbon Capture and Storage (CCS)	21
1.12.1	Measuring Stability	23
1.13	Developments on the International CCS Scene.....	24
1.13.1	The 2009 London Protocol Amendment	24
1.13.2	The OSPAR Convention.....	24
1.14	How Do You Develop a CCS Regulatory Framework?.....	25
1.15	Policy Incentives Essential to Deploy CCS.....	26
	Endnotes	26
Chapter 2	Regulation, Energy Resources, and the Environment.....	31
2.1	Regulatory Design and Economics	32
2.2	Regulatory Development	32
2.3	Market Mechanisms	34
2.3.1	Types of Economic Instruments.....	34
2.4	The Economic Argument	36
2.5	An Overview of Two Market Mechanisms That Have Particular Relevance to the Energy Sector	37
2.5.1	Taxes/Charges	37
2.5.2	National Taxes.....	38
2.5.3	International Carbon Taxes	38
2.6	Emission Inventories	38
	Endnotes	40
Chapter 3	International Law and State Sovereignty	43
3.1	Energy, International, and Environmental Laws.....	43
3.2	State Sovereignty over Its Natural Resources	43
3.3	State Rights over Mineral Resources and Common Space.....	44
3.4	The 1958 Convention on the Continental Shelf.....	45
3.5	The UN Convention on the Law of the Sea, 1982.....	48
3.6	Protection of the Marine Environment.....	49
3.6.1	Article 208.....	50
3.7	Oil Pollution	50
3.8	Standard Setting within International Treaties and Their Protocols	53
3.9	The Depletion of the Ozone Layer	54
3.10	The 1987 Montreal Protocol on Substances That Deplete the Ozone Layer	54
3.11	Climate Change	55
3.11.1	Framework Convention on Climate Change, 1992	55
3.11.2	The Kyoto Protocol 1997.....	56
3.11.2.1	Use of the Flexible Mechanisms under the Kyoto Protocol	57
	Endnotes	58

Chapter 4	Trade, Competition, and the Environment.....	61
4.1	International Competition Law and the General Agreement on Tariffs and Trade	61
4.2	Intellectual Property Rights and Environmental Technology	62
4.2.1	Transfer of Environmental Technology and Corporate Social Responsibility.....	62
4.2.2	Theory, Intellectual Property Rights, and Technology Transfer.....	62
4.3	The Management of Risk in Energy Infrastructure	66
4.3.1	Bilateral and Multilateral Investment Agreements	66
4.3.2	Bilateral Investment Treaties.....	67
4.4	The Energy Charter Treaty.....	67
4.4.1	Investment Protection under the Energy Charter Treaty	68
4.4.2	Transit under the Energy Charter Treaty	69
4.4.3	Dispute Resolution	70
4.5	Case Studies.....	70
4.6	Model Agreements	71
4.6.1	Structuring Investment Protection	71
	Endnotes	71

SECTION II

Chapter 5	International Law on Oil and Gas.....	75
5.1	Licensing for Onshore Oil and Gas Exploration and Exploitation.....	75
5.2	The Licence Regime.....	76
5.3	The Concession Regime	77
5.4	Case Study of the Concession Regime in Brazil	78
5.5	Production-Sharing Agreements	78
5.6	Case Study of Production Sharing in Russia.....	81
5.7	Service Contracts.....	81
5.8	Case Study of a Service Contract in Iran	82
5.9	The Regulation of Offshore Installations under International Law	82
5.10	Ships and Oil Rigs in International Law	83
5.11	Oil Rigs under the Law of the Sea Convention, 1982	83
5.12	Jurisdiction of States in Relation to Offshore Installations.....	84
5.12.1	A State's Right to Construct Offshore Installations	84
5.12.1.1	Internal Waters	84
5.12.1.2	In the Territorial Sea.....	85

5.12.1.3	The Exclusive Economic Zone	86
5.12.1.4	The Continental Shelf	87
5.12.1.5	On the High Seas	88
5.12.1.6	The International Deep Seabed Area	89
5.13	State Control and Jurisdiction over Oil Rigs	90
5.14	Criminal Jurisdiction	90
5.15	Civil Jurisdiction	93
5.16	Pollution Control and Environmental Issues	93
5.17	Definition of Marine Pollution	93
5.18	Civil Liability for Environmental Harm Caused by Oil Pollution	96
5.19	Three Cases Brought under the CLC	97
5.19.1	The <i>Amoco Cadiz</i> Case	97
5.19.2	The <i>Sea Empress</i> Case	98
5.19.3	The <i>Braer</i> Case	98
5.20	Decommissioning	99
5.20.1	The IMO Guidelines	100
5.20.2	The OSPAR Decision 98/3	101
5.20.3	The 1972 London Dumping Convention	102
	Endnotes	103
Chapter 6	International Regulation of the Nuclear Industry	107
6.1	Nuclear Energy and the Environment	107
6.2	The Emergence of Environmental Concerns	108
6.3	The International Regulation of Nuclear Energy	108
6.4	The IAEA and the Regulation of Nuclear Power	109
6.5	OECD Nuclear Energy Agency	110
6.6	Control of Nuclear Risk	111
6.6.1	International Obligations	111
6.7	Radiation Protection Standards	112
6.8	State Responsibility for Nuclear Damage and Environmental Harm	112
6.9	The Transportation of Radioactive Materials	113
6.10	The IAEA Regulations	113
6.11	The Civil Liability Conventions	113
6.11.1	The Paris Convention on Third-Party Liability in the Field of Nuclear Energy, 1960	113
6.11.2	The Vienna IAEA Convention on Civil Liability for Nuclear Damage, 1963	114
6.11.3	The Brussels Convention Relating to Civil Liability in the Field of Maritime Carriage of Nuclear Material, 1971	114
6.11.4	The General Scheme	114
6.11.5	Claims under the Convention	115

6.12	Assessment of the Nuclear Conventions.....	116
6.13	Developments since Chernobyl	116
6.14	Nuclear Waste.....	118
6.15	EURATOM and the European Dimension	118
6.16	Nuclear Installations in the United Kingdom.....	120
6.16.1	Radioactive Waste	121
6.16.2	Transport of Radioactive Substances	122
6.17	Decommissioning of Nuclear Installations in the European Union.....	122
6.18	Decommissioning in the United Kingdom.....	123
	Endnotes	124

SECTION III

Chapter 7	Energy Law in the United States.....	131
7.1	Federal Regulatory Bodies	131
7.2	Energy Regulation by the States.....	133
7.2.1	Interrelationship between Federal and State Policy and Regulations	134
7.3	Constitutional Principles and Regulatory Jurisdiction	134
7.4	Regulation for the Different Energy Sectors	136
7.5	State Regulation of Oil and Gas	136
7.5.1	Federal Regulation	137
7.5.2	Federal Public Land	137
7.6	Offshore Oil and Gas.....	138
7.7	Environmental Concerns	139
7.7.1	Areas for Concern	139
7.8	Case Studies.....	140
7.9	Case Study of the BP Oil Spill	141
7.10	Coal.....	142
7.10.1	A Regulatory Overview	143
7.10.2	Health and Safety in Mines	143
7.10.3	Land Reclamation	144
7.10.4	Issues of Clean Air	145
7.10.5	Clean Coal Initiatives	146
7.11	Regulation of the Electricity Sector	146
7.11.1	The Current Situation.....	147
7.12	Nuclear Power in the United States	148
7.12.1	Case Study of Three Mile Island Disaster	148
7.12.2	Reforms	149
7.13	Hydropower and Renewable Sources	151
	Endnotes	152

Chapter 8	Energy Law in the European Union.....	157
8.1	An Energy Policy for Europe	157
8.2	The Historical Development of European Energy Law	157
8.3	Scope of the ECSC Treaty.....	158
8.4	Inconsistencies between the Treaties.....	158
8.5	The Objectives of the ECSC Treaty	158
8.6	The European Atomic Energy Community Treaty	159
8.7	The European Energy Policy.....	160
8.7.1	European Energy Policy and the Internal Energy Market.....	160
8.8	Investment Planning	161
8.9	Non-Discrimination and the Licensing of Hydrocarbons	162
8.10	The Liberalising of the Electricity and Gas Markets	163
8.11	The European Energy Charter Treaty	163
8.12	Environmental Aspects	164
8.13	The Constitutional Basis of European Environmental Legislation	164
8.14	Types of European Environmental Legislation.....	165
8.15	Directives with Particular Relevance to the Energy Sector.....	166
8.15.1	The Environmental Assessment Directive.....	166
8.15.2	The Environmental Impact Assessment Directive and Direct Effect	167
8.15.3	Procedures for an Environmental Impact Assessment	168
8.15.4	Strategic Developments.....	169
8.15.5	The Integrated Pollution Prevention and Control Directive (IPPC).....	170
8.16	The Protection of Habitats and Species.....	170
8.16.1	The Habitats Directive	171
8.16.2	The UK Regulations.....	172
8.16.3	European Marine Sites	172
8.17	European Legislation Covering Industrial Activity in the Energy Sector	172
8.17.1	Hydrocarbon-Based Motor Fuels	173
8.17.2	The Storage and Distribution of Petrol	173
8.17.3	Emissions from Large Combustion Plants.....	174
8.18	Community Action: Energy Tax and Industry	174
8.19	Enforcing European Environmental Law.....	176
8.20	The Interrelationship between the Third Energy Package and the Climate Change Package.....	176
8.20.1	The Policy Context.....	177
8.21	The Third Energy Package.....	177
8.22	The EU Climate Change Package	178
8.22.1	The New EU ETS.....	179

8.22.2	The Greenhouse Gas Reduction Decision	180
8.22.3	The Renewable Energy Directive.....	180
8.22.4	The Carbon Capture and Storage Directive (CCS)	182
8.22.5	The Biofuels Directive	183
8.22.6	The Emissions Standards Regulation.....	184
8.23	Looking Forward under the European Climate Change Regime.....	184
	Endnotes	185
Chapter 9	Energy Law in the United Kingdom	189
9.1	Energy Policy	189
9.1.1	Carbon Capture and Storage (CCS)	189
9.1.2	Introducing Mandatory Social Price Support	189
9.1.3	Fairness of Energy Markets	189
9.2	The Primary Energy Supply.....	190
9.3	Infrastructure.....	190
9.4	Energy Users	191
9.5	The Interrelationship between Environmental and Energy Policies	191
9.5.1	Carbon Dioxide Emissions.....	191
9.5.2	Other Greenhouse Gas Emissions.....	192
9.5.3	Sulphur Emissions.....	192
9.5.4	Renewables	192
9.5.5	Combined Heat and Power	193
9.5.6	Localised Impacts	193
9.6	UK Regulatory Bodies	194
9.6.1	Department for Environment, Food, and Rural Affairs (DEFRA)	194
9.6.2	Department for Business.....	194
9.6.3	The Department for Business Innovation and Skills.....	195
9.6.4	The Department of Energy and Climate Change.....	195
9.6.5	Parliamentary Select Committees.....	195
9.6.6	The Environment Agency	196
9.6.6.1	Background.....	196
9.6.6.2	Functions of the Agency	196
9.6.6.3	National Standards and Targets and the Agency	197
9.6.6.4	Environmental Surveillance by the Agency	197
9.6.7	Local Authorities.....	198
9.6.7.1	Town and Country Planning.....	198
9.6.7.2	Air Pollution	199

	9.6.7.3	Contaminated Land	199
	9.6.7.4	Noise Control	199
	9.6.8	The United Kingdom Atomic Energy Authority (UKAEA)	199
	9.6.9	The Coal Authority	200
	9.6.9.1	Functions and Duties	200
	9.6.10	The Office of the Gas and Electricity Markets (OFGEM)	201
9.7		Regulations for the Different Energy Sectors	201
	9.7.1	Oil and Gas.....	201
	9.7.1.1	General Regulatory Framework	201
	9.7.1.2	Ownership of Petroleum.....	203
	9.7.1.3	The Legal Basis of Licensing	203
	9.7.1.4	Application of Criminal Law to the UK Continental Shelf	204
	9.7.1.5	Application of the Civil Law to the UK Continental Shelf	205
	9.7.1.6	Licences	205
	9.7.2	The EC Hydrocarbons Directive.....	207
	9.7.3	Types of Licence	209
	9.7.4	Government Policy on Minerals	210
	9.7.5	Pollution Control	211
	9.7.5.1	The IPPC Directive and Offshore Installations.....	211
	9.7.5.2	The Environmental Assessment Directive	211
	9.7.5.3	Decommissioning	212
	9.7.5.4	The <i>Brent Spar</i> Case Study	214
9.8		Decommissioning and Disposal.....	215
	9.8.1	The OSPAR Commission.....	215
	9.8.2	Disposal on Land.....	215
	9.8.3	Post-Decommissioning Surveys and Monitoring.....	217
	9.8.4	Residual Liability	217
9.9		Onshore Oil and Gas	217
	9.9.1	The Licensing System	217
	9.9.1.1	Coal-Bed Methane Gas (CBM)	218
	9.9.2	Planning Controls.....	219
	9.9.2.1	The Planning System	219
	9.9.2.2	Planning Conditions	220
	9.9.2.3	Planning Agreements and Obligations	221
	9.9.2.4	Appeals	222
	9.9.2.5	The Scope of Public Involvement.....	222
	9.9.2.6	Access to Environmental Information.....	222
	9.9.2.7	The European Directive.....	223
	9.9.2.8	The Environmental Information Regulations, 1992	224

	9.9.2.9	Environmental Protest	225
9.9.3		Vulnerable Sites.....	226
	9.9.3.1	Protection for Designated Sites	227
	9.9.3.2	The Coastal Zone.....	228
	9.9.3.3	Landward-Marine Areas	228
9.10		Environmental Management Systems	229
9.11		The Gas Supply Industry	229
	9.11.1	Regulation of the Gas Supply Industry	230
		9.11.1.1 Duties	230
		9.11.1.2 The Duty to Secure Competition	231
	9.11.2	The Licensing Regime for the Gas Supply Industry	231
		9.11.2.1 Types of Licence	232
		9.11.2.2 The Network Code.....	233
	9.11.3	The Competitive Market for Gas.....	234
		9.11.3.1 Competition Policy	234
		9.11.3.2 Oversupply and the Incentive for a Spot Market.....	234
9.12		Coal Industry	235
	9.12.1	Historical Development.....	235
		9.12.1.1 Ownership.....	235
	9.12.2	Coal Production and the Environment	235
		9.12.2.1 Acid Rain	236
		9.12.2.2 Global Warming	236
		9.12.2.3 Sustainable Development and Coal	237
	9.12.3	From Public to Private Ownership	237
	9.12.4	Liability for Subsidence	238
	9.12.5	Protection of the Environment	239
	9.12.6	Mining as an Act of Development.....	239
	9.12.7	The Historic Environment.....	240
	9.12.8	The Environmental Duty.....	241
		9.12.8.1 Periodic Reviews	241
	9.12.9	Abandoned Coal Mines.....	242
		9.12.9.1 Liability for Pollution	243
		9.12.9.2 Definitions.....	243
	9.12.10	Contaminated Land.....	244
		9.12.10.1 Designation	245
		9.12.10.2 Liability	245
	9.12.11	Contamination, Successors in Title, and Statutory Successors.....	246
		9.12.11.1 Excluded Activities and Lenders' Liability	247
		9.12.11.2 Orphan Sites	247
9.13		Electricity Supply Industry.....	248
	9.13.1	The Structure of the Industry	248
		9.13.1.1 The Participants	248

9.13.2	The Market Structure	249
9.13.2.1	England and Wales	249
9.13.2.2	Scotland	250
9.13.2.3	Northern Ireland	250
9.13.2.4	The Interconnectors	251
9.13.2.5	Generation.....	251
9.13.2.6	Transmission.....	251
9.13.2.7	Distribution	252
9.13.3	Regulation of the Industry.....	252
9.13.3.1	The Statutory Structure	252
9.13.4	Regulatory Bodies for the Electricity Supply Industry	254
9.13.4.1	The Secretary of State	254
9.13.4.2	The Secretary of State and the Director... ..	254
9.13.4.3	General Duties of the Secretary of State and the Director.....	254
9.13.5	The Licensing Regime	256
9.13.5.1	The Grant of Licences	257
9.13.5.2	The Licence	257
9.13.5.3	The Generation Licence.....	257
9.13.5.4	The Transmission Licence	258
9.13.5.5	Public Electricity Supply Licences	258
9.13.5.6	Second-Tier Supply Licences.....	259
9.13.5.7	Exemptions from Licensing	259
9.13.5.8	Modification and Enforcement	260
9.13.5.9	Revocation of a Licence.....	261
9.13.6	The Powers and Duties of PESs	261
9.13.7	Possible Distortions of the Market	263
9.13.7.1	The Sale of Electricity to Consumers.....	264
9.13.7.2	The Protection of Consumers	264
9.13.8	The Electricity Market Reform White Paper	265
9.13.9	Implementing the European Union's Third Energy Package	265
9.13.10	Consumer Protection	266
9.13.11	OFGEM's Role as the NRA for Great Britain	266
9.13.12	Transmission and Distribution Networks.....	266
9.13.13	Gas Infrastructure	267
9.13.14	Licence-Exempt Undertakings and Access to Private Networks	267
9.13.15	Next Steps.....	267
	Endnotes	267
Chapter 10	Energy Law in Norway	273
10.1	Introduction	273
10.2	Government in Norway	273

10.3	The Industry Structure of Electricity Supply in Norway	273
10.3.1	Electricity Trading.....	275
10.3.2	The Third-Party Access Regime.....	275
10.3.3	Market Entry for Supply and Generation.....	276
10.3.4	Public Service Obligations and Smart Metering	276
10.3.5	Cross-Border Interconnectors	277
10.4	The Development of the Petroleum Sector.....	277
10.4.1	The Licence System	278
10.4.2	Decommissioning.....	280
10.4.3	Liability	281
10.4.4	Suppliers of Goods and Services to the Norwegian Offshore Sector.....	283
10.5	Industry Structure.....	284
10.5.1	Gas Trading in Norway	286
10.5.2	Third-Party Access Regime to Gas Transportation Networks.....	286
10.5.2.1	Liquefied Natural Gas and Gas Storage	287
10.6	Environmental Issues	287
10.6.1	Emissions Trading.....	287
10.6.2	Renewable Energy	288
10.6.2.1	Biofuels	289
10.7	Energy Efficiency	289
10.8	Carbon Capture and Storage (CCS)	289
	Endnotes	291

Chapter 11 Energy Law in Australia

11.1	Introduction	295
11.1.1	Energy Resources.....	295
11.1.2	Energy Production.....	295
11.1.3	Energy Policy	296
11.2	Industry Structure of the Electricity Market.....	296
11.2.1	The Regulators	297
11.2.2	Commonwealth and State Relations.....	298
11.2.2.1	The Tasmanian Dam Case.....	298
11.3	Energy Sectors.....	300
11.3.1	Uranium Mining.....	300
11.3.1.1	New South Wales.....	301
11.3.1.2	Northern Territory	301
11.3.1.3	South Australia	301
11.3.1.4	Victoria	301
11.3.1.5	Western Australia	302
11.4	Carbon Capture and Storage	302

11.5	Future Developments.....	303
11.5.1	Long-Term Liability Issues	303
	Endnotes	303
Chapter 12	Energy Law in India.....	305
12.1	Legislative Framework	305
12.2	Regulation of Electricity.....	306
12.3	The Policy Framework	307
12.4	Market Organisation.....	307
12.4.1	Generation	308
12.4.2	Transmission.....	308
12.4.3	Distribution.....	308
12.4.4	Sale of Electricity	308
12.5	Renewable Energy Policy	309
12.6	The National Action Plan on Climate Change (NAPCC).....	309
12.7	Wind Energy.....	311
12.8	Solar Energy	311
12.9	Hydropower, Geothermal, and Wave Energies	312
12.10	Waste to Energy.....	313
12.11	Biofuels.....	313
12.12	Carbon Capture and Storage	313
12.13	Policy and the Climate Change Agenda.....	314
12.14	Nuclear Energy	314
	Endnotes	314
Chapter 13	Energy Law in China	317
13.1	Evolution of Chinese Government Policy in Respect of the Energy Sector	317
13.2	Framework of Energy Law in China	317
13.3	Renewable Energy	318
	Endnotes	319
Chapter 14	Summary	321
14.1	Introduction	321
14.2	The Simple Economics of Environmental Policies	322
14.2.1	The US Experience	323
14.2.1.1	The RECLAIM Programme	323
14.2.2	European Union Policy	324
14.2.3	Economic Instruments in United Kingdom	325
14.3	A Technological Answer to Carbon Dioxide Emissions	327
14.3.1	International Law with Regard to CCS on the Continental Shelf.....	328
14.3.1.1	The Use of Sinks and Reservoirs.....	331

- 14.3.1.2 Developments at European Level 332
 - 14.3.1.3 Liability Issues..... 334
 - 14.3.1.4 Possible Incentives and ‘State Aid’ 334
 - 14.4 International Efforts to Mitigate Environmental Degradation 336
 - 14.4.1 CCS under EU Legislation 338
 - 14.4.2 The Norwegian Experience..... 339
 - 14.4.3 Liability for Environmental Damage Caused 339
 - 14.4.4 The UK Perspective 340
 - 14.4.5 CCS and State Aid 341
 - 14.4.6 CCS and the EU ETS 341
 - 14.4.7 Auctioning EU Allowances to Support CCS 342
