Preface vii

- 1 Psycholinguistics: an overview *Michael K. Tanenhaus* 1
 - 2 Language and cognition *Robyn Carston* 38
 - 3 Processes in language production *Merrill F. Garrett* 69
 - 4 Language perception *Giovanni B. Flores d'Arcais* 97
 - 5 The mental lexicon *Karen D. Emmorey and Victoria A. Fromkin* 124
 - 6 Where learning begins: initial representations for language learning
Lila R. Gleitman, Henry Gleitman, Barbara Landau and Eric Wanner 150
 - 7 Second language acquisition *Ellen Broselow* 194
 - 8 Neurolinguistics: an overview of language–brain relations in aphasia
Sheila E. Blumstein 210
 - 9 The biological basis for language *David Caplan* 237
 - 10 Linguistics and speech–language pathology *Catherine A. Jackson* 256
 - 11 The evolution of human communicative behavior *William Orr Dingwall* 274
 - 12 Linguistics and animal communication *Richard A. Demers* 314
- Index of names 336
- Index of subjects 345
- Contents of Volumes I, II, and IV 349
