

Contents

Introduction	1
Brent Daniel Mittelstadt and Luciano Floridi	
Part I Balancing Individual and Collective Interests	
“Strictly Biomedical? Sketching the Ethics of the Big Data Ecosystem in Biomedicine”	17
Effy Vayena and Urs Gasser	
Using Transactional Big Data for Epidemiological Surveillance: Google Flu Trends and Ethical Implications of ‘Infodemiology’	41
Annika Richterich	
Denmark at a Crossroad? Intensified Data Sourcing in a Research Radical Country	73
Klaus Hoeyer	
A Critical Examination of Policy-Developments in Information Governance and the Biosciences	95
Edward Hockings	
Part II Privacy and Data Protection	
Many Have It Wrong – Samples Do Contain Personal Data: The Data Protection Regulation as a Superior Framework to Protect Donor Interests in Biobanking and Genomic Research	119
Dara Hallinan and Paul De Hert	
What’s Wrong with the Right to Genetic Privacy: Beyond Exceptionalism, Parochialism and Adventitious Ethics	139
Bryce Goodman	

Part III Consent

How Data Are Transforming the Landscape of Biomedical Ethics: The Need for ELSI Metadata on Consent	171
J. Patrick Woolley	

On the Compatibility of Big Data Driven Research and Informed Consent: The Example of the Human Brain Project	199
Markus Christen, Josep Domingo-Ferrer, Bogdan Draganski, Tade Spranger, and Henrik Walter	

Part IV Ethical Governance

Big Data Governance: Solidarity and the Patient Voice	221
Simon Woods	

Premises for Clinical Genetics Data Governance: Grappling with Diverse Value Logics	239
Polyxeni Vassilakopoulou, Espen Skørve, and Margunn Aanestad	

State Responsibility and Accountability in Managing Big Data in Biobank Research: Tensions and Challenges in the Right of Access to Data	257
Aaro Tupasela and Sandra Liede	

Big Data, Small Talk: Lessons from the Ethical Practices of Interpersonal Communication for the Management of Biomedical Big Data	277
Paula Boddington	

Part V Professionalism and Ethical Duties

Researchers' Duty to Share Pre-publication Data: From the Prima Facie Duty to Practice	309
Christoph Schickhardt, Nelson Hosley, and Eva C. Winkler	

Reporting and Transparency in Big Data: The Nexus of Ethics and Methodology	339
Stuart G. Nicholls, Sinéad M. Langan, and Eric I. Benchimol	

Creating a Culture of Ethics in Biomedical Big Data: Adapting 'Guidelines for Professional Practice' to Promote Ethical Use and Research Practice	367
Rochelle E. Tractenberg	

Part VI Foresight

The Ethics and Politics of Infrastructures: Creating the Conditions of Possibility for Big Data in Medicine	397
Linda F. Hogle	

Ethical Reuse of Data from Health Care: Data, Persons and Interests 429
Peter Mills

**The Ethics of Big Data: Current and Foreseeable Issues
in Biomedical Contexts 445**
Brent Daniel Mittelstadt and Luciano Floridi
