

List of Used Abbreviations and Symbols	- 8 -
--	-------

Casting Machines

1. Foundry Facilities Structure	- 10 -
1.1. Characteristics of Facilities for Foundry Producing Castings in Sand Moulds.....	- 14 -
1.2. Characteristics of Facilities for Foundry Producing Castings by Gravity Casting into Metal Moulds.....	- 21 -
1.3. Characteristics of Facilities for Foundry Producing Castings by Low and High Pressure Casting.....	- 26 -
1.4. Melting of Cast Alloys.....	- 30 -
References - Casting Machines.....	- 34 -

Welding Machines

1. Welding Lines.....	- 36 -
1.1. Arrangement of Welding Lines	- 36 -
1.2. Classification of Welding Lines.....	- 39 -
1.3. Transport Systems of Welding Lines.....	- 41 -
1.4. Manipulators and Positioners	- 42 -
1.5. Welding Jigs.....	- 44 -
2. Resistance Welding Machines	- 49 -
2.1. Spot Welding Machines.....	- 49 -
2.2. Seam Welding Machines.....	- 56 -
2.3. Projection Welding Machines	- 57 -
3. Arc Welding Machines.....	- 58 -
3.1. Welding Power Supplies	- 58 -
3.2. TIG Welding Equipment	- 61 -
3.3. MIG/MAG Welding Equipment	- 64 -
3.4. Submerged Arc Welding Equipment	- 68 -
References - Welding Machines.....	- 70 -

Forming Machines

1. Forming Machines	- 73 -
2. Technical Parameters of Forming Machines	- 76 -
3. Basic Structural Elements of Forming Machines	- 78 -
3.1. Frame	- 78 -
3.2. Ram	- 79 -
3.3. Crankshafts of Mechanical Presses	- 83 -
3.4. Connecting Rods of the Mechanical Presses	- 85 -
3.5. Clutches	- 86 -
3.6. Brakes	- 89 -
3.7. Overload Protections	- 92 -
3.8. Drive Mechanisms of Mechanical Presses	- 95 -
3.9. Example of the LU 160 Crank Press Design	- 97 -
References - Forming Machines	- 101 -

Machines for Processing Plastics

1. Introduction.....	- 103 -
2. Injection Moulding	- 103 -
3. Basic Types of Injection Moulding Machines	- 103 -
3.1. Plunger Injection Moulding Machines.....	- 104 -
3.2. Screw Injection Moulding Machines	- 105 -
3.2.1. Basic Characteristics of Screw Injection Moulding Machine	- 106 -
4. Injection Moulding Cycle.....	- 106 -
5. Injection Unit.....	- 107 -
5.1. Hopper	- 108 -
5.2. Melting Chamber	- 108 -
5.3. Nozzle	- 109 -
5.4. Screws for Injection Moulding Machines	- 110 -
5.5. L/D Ratio	- 111 -
5.6. Screw Design	- 111 -
5.7. Screw Tip and Check Valve	- 113 -
6. Clamping Unit.....	- 114 -
6.1. Toggle System	- 114 -
6.2. Hydraulic Clamping system.....	- 115 -
6.3. Combined Clamping System.....	- 116 -
6.4. Tie Bars	- 117 -
6.5. Clamping Platens	- 117 -
6.6. Ejection System.....	- 118 -
7. Driving Systems	- 119 -
7.1. Electro-mechanical System.....	- 119 -
7.2. Electro-hydraulic System.....	- 119 -
8. Control Unit	- 120 -
9. Electrical, Hybrid and Hydraulic Injection Moulding Machines.....	- 120 -
