

TABLE OF CONTENT

List of abbreviations and acronyms	6
List of tables	8
List of figures	10
Foreword	13
1. Environmental policy	17
1.1 Origin and development of environmental policy	17
1.2 Environmental policy of the European Union	23
1.3 Environmental policy of the Slovak Republic	28
1.3.1 Orientation and priorities of the state environmental policy	28
1.3.2 Objectives of the state environmental policy	31
1.4 Environmental policy instruments	34
1.4.1 Normative instruments	35
1.4.2 Economic or market-oriented instruments	37
1.4.3 Voluntary environmental policy instruments	39
1.5 Summary	42
2. Modelling the atmospheric boundary layer	45
2.1 Basic methods of modelling processes in the boundary layer	45
2.2 History of modelling of the atmospheric boundary layer	46
2.3 Models using numerical solution of basic equations	48
2.4 Marginal conditions in boundary layer models	53
2.5 Expressing the coefficient of turbulent diffusion in boundary layer models	59
2.6 Summary	61
3 Air quality assessment and management	63
3.1 Tools for assessing and managing air quality Information and alert thresholds	63
3.2 Basic concepts, legislation and air quality assessment	66
3.3 Assessment of air pollution level in the neighbouring countries and in the EU	76
3.3.1 Evaluation of the degree of air pollution according to US EPA	77

3.3.2 Evaluation of levels of air contamination according to CAQI – European Air	81
3.3.3 Assessing air pollution in the UK	82
3.3.4 Assessing air pollution in Germany	83
3.3.5 Assessing air pollution in Austria	84
3.3.6 Assessing air pollution in Poland	84
3.3.7 Assessing air pollution in the Czech Republic	85
3.3.8 Assessing air pollution in Slovakia	86
3.4 Summary	88
4. Models for calculating air pollution from stationary sources	91
4.1 Types of air pollution models	91
4.2 The beginnings of modelling in Slovakia	94
4.3 Methodology for the calculation of air pollution	102
4.4 Summary	114
5 Model calculations from stationary sources and air quality evaluation	117
5.1 The methods used and their brief description	118
5.1.1 Model for the nationwide assessment of gaseous pollutant concentrations in Slovakia (CEMOD)	120
5.1.2 Anisotropic weighted inverse distant interpolation for nationwide air quality evaluation in Slovakia (IDW-A)	123
5.2 Results of model calculations	124
5.2.1 Sulphur dioxide SO ₂	125
5.2.2 Nitrogen dioxide NO ₂ and nitrogen oxides NO _x	127
5.2.3 Carbon monoxide CO	130
5.2.4 Fine particulate matter PM ₁₀ and PM _{2.5}	131
5.2.5 Share of the air pollution sources	135
5.3 Summary	137
6 Conclusion	139
Bibliography	146
Relevant and cited legal documents	154
Internet sources	156
Index	158
Index of authors	174
