[M] — Militancies

Professional occupations are those at the start of the war; political and trade union memberships are those before and during the war.

JSU-S, JSU-C indicates membership of the JSU (unified socialist youth) with prior membership respectively of the socialist youth and communist youth.

PSUC-S indicates prior membership of either the Unió Socialista de Catalunya (USC) or the Catalan Federation of the PSOE; PSUC-C prior membership of either the Partit Català Proletari or Partit Comunista de Catalunya.

A colon between party memberships indicates a change of party in the course of the war. Thus JSU-S: PCE indicates a unified socialist youth member, previously of the socialist youth, who later joins the communist party.

Place names indicate the regions in which the people concerned appear in the book.
